Recognizing the responsibility institutions have to prepare teachers for today's diverse classrooms, Vavrus shows us how to incorporate transformative multicultural education into teacher education curriculum, pedagogy, and evaluation. Placing race, racism, antiracism, and democracy at the center of his analyses and recommendation, this volume provides: - Concrete structural suggestions for including transformative multicultural education in higher education and K-12 in-service programs. -A multicultural critique of new NCATE accreditation standards for teacher education programs that offers reconceptualized assessment procedures. -The historical roots of transformative multicultural education that incorporates issues of white privilege and racialized color blindness, anti-racist pedagogy, racial identity among teachers, and critical race theory. - A discussion of globalization that emphasizes its contemporary economic effects on social and educational inequities.

This unique volume examines death from a socio-cultural events perspective. Drawing on the empirical and conceptual work produced by an international body of researchers, it is the first publication to look at death, dying, memorialization, and their mediation, from an events orientation. By placing the contribution of these scholars together, this book provides a unique opportunity to instigate an international, critical discussion, around the connectivities associated with death and events. Chapters consider connections to death and events on many levels, including individual, local, communally based, construals of the event landscape; the relationship between death and events into larger socio-cultural frames of reference. Chapters also consider how death and events are manifest through diverse platforms of mediation, with a discussion of the media presentation of end of life events, and the articulation of death online. Case studies from a wide-ranging selection of countries, from Moscow to Bangladesh to Cambodia, are examined throughout. This will be of great interest to upper-level students and researchers in event studies as well as a variety of other disciplines such as sociology and cultural studies.

Design for Wellbeing charts the development and application of design research to improve the personal and societal wellbeing and happiness of people. It draws together contributions from internationally leading academics and designers to demonstrate the latest thinking and research on the design of products, technologies, environments, services and experiences for wellbeing. Part I starts by conceptualising wellbeing and takes an in-depth look at the rise of the design for wellbeing movement. Part II then

goes on to demonstrate design for wellbeing in practice through a broad range of domains from products and environments to services. Among others, we see emerging trends in the design of interiors and urban spaces to support wellbeing, designing to enable and support connectedness and social interaction, and designing for behaviour change to tackle unhealthy eating behaviour in children. Significantly, the body of work on subjective wellbeing, design for happiness, is increasing, and several case studies are provided on this, demonstrating how design can contribute to support the wellbeing of people. Part III provides practical guidance for designing for wellbeing through a range of examples of tools, methods and approaches, which are highly user-centric, participatory, critical and speculative. Finally, the book concludes in Part IV with a look at future challenges for design for wellbeing. This book provides students, researchers and practitioners with a detailed assessment of design for wellbeing, taking a distinctive global approach to design practice and theory in context. Design for Wellbeing concerns designers and organisations but also defines its broader contribution to society, culture and economy.

Inclusivity and Equality in Performance Training focuses on neuro and physical difference and dis/ability in the teaching of performance and associated studies. It offers 19 practitioners' research-based teaching strategies, aimed to enhance equality of opportunity and individual abilities in performance education. Challenging ableist models of teaching, the 16 chapters address the barriers that can undermine those with dis/ability or difference, highlighting how equality of opportunity can increase innovation and enrich the creative work. Key features include: Descriptions of teaching interventions, research, and exploratory practice to identify and support the needs and abilities of the individual with dis/ability or difference Experiences of practitioners working with professional actors with dis/ability or difference, with a dissemination of methods to enable the actors A critical analysis of pedagogy in performance training environments; how neuro and physical diversity are positioned within the cultural contexts and practices Equitable teaching and learning practices for individuals in a variety of areas, such as: dyslexia, dyspraxia, visual or hearing impairment, learning and physical dis/abilities, wheelchair users, aphantasia, attention-deficit/hyperactivity disorder and autistic spectrum. The chapter contents originate from practitioners in the UK, USA and Australia working in actor training conservatoires, drama university courses, youth training groups and professional performance, encompassing a range of specialist fields, such as voice, movement, acting, Shakespeare, digital technology, contemporary live art and creative writing. Inclusivity and Equality in Performance Training is a vital resource for teachers, directors, performers, researchers and students who have an interest in investigatory practice towards developing emancipatory pedagogies within performance education.

Organized by the National Association of Multicultural Education (NAME), this volume explores the organic relationship between the past, present, and future of the discipline. In particular, the book addresses the various forms of recent social upheaval, from educational inequities and growing economic divides to extreme ideological differences and immigration conflicts. Written by a group of eminent and emerging scholars, chapters draw lessons from the past two decades and celebrate present accomplishments in order to ambition a better future through multicultural education. Written for new teachers, this guide to multicultural education presents interdisciplinary

content through primary source material and vignettes of actual teachers and students. Providing an in-depth focus in key areas as well as a broad overview, Christine Bennett aims to help prepare teachers who are informed and caring advocates for students from all cultural, racial, socioeconomic, linguistic, and national backgrounds.

The book offers an in-depth analysis of the challenges of establishing authority within collaborative efforts. It introduces the concept of cumulative authority, arguing that communicating authority effectively is key to the creation and success of collaborations. Rice uses a communication-as-constitutive of organizations perspective to reconsider organizational authority, typically thought of in terms of leadership, as instead negotiated in communication among collaboration members as they attempt to influence the collaboration's direction. Drawing from an extensive two-year case study of emergency management collaborations, the book traces potential influences on collaborative authority, including members' knowledge and expertise, organizational structures and hierarchies, and the material world, including documents, technologies, and the natural environment. This book is a valuable empirical resource for organizational communication and management students and scholars. It will also appeal to community collaborators and organizers, and contains advice and reflection questions for practitioners.

Higher education is dynamic, constantly adapting to meet the requirements of students and industry. *Transforming Higher Education Through Digitalization: Insights, Tools, and Techniques* provides insights from experienced academicians on the digitalization of education and its appropriateness for enhancing the quality of teaching in institutions of higher education. The book also provides insights on technologies used in digital education, the competencies and skills required by teachers and students, managing quality of education through online modes, MOOCs (Massive, Open, Online Courses), and methods to support teachers and instructors in online education. The book also enables teachers and instructors to help students develop the knowledge and skills they need in a digital age and enable them to build collaborative learning that will bring them success. Written for educators, students, and policy makers of higher education, this book demonstrates how to transform traditional education to digital education and to continue their activities without the requirement of students and teachers meeting each other on campus.

The National Association for Multicultural Education (NAME) held its 7th Annual Conference in 1997 with a theme of *Daring to Educate for Equity and Excellence: A Multicultural and Bilingual Mandate for the 21st Century*. The conference generated scholarship in the form of keynote speeches and conference papers and stimulating discussions among the membership. The conference's southwest location of Albuquerque, New Mexico provided an excellent back drop to discuss the interconnections between multicultural education and bilingual education, as well as provide an opportunity for proponents of both of these important ideas to engage in useful and important discussions. The essays comprised in this book capture much of the written record of the conference. They convey ideas, beliefs, and research findings that were presented at the formal sessions at the conference. Just as with NAME's previous proceedings, it is expected that these proceedings will become not only a written record of the conference but a "live curriculum" to help pre/K through college educators to prepare themselves and those they teach for the 21st century.

As a social process that places great stock in its stability and predictability, law does not deal easily or well with change. In a modern world that is in a constant and rapid state of flux, law is being placed under considerable stress in its efforts to fulfill its task as a primary regulator of social and economic behaviour. This challenge is particularly acute in the realm of technology and its profound ramifications for social and economic behaviour. The innovative Techno-Age not only offers fresh ways of handling old problems, but also throws up entirely new problems; traditional ways of thinking about and responding to these old and new problems and their optimal resolution are no longer as tenable as many once thought. One such example is the burgeoning world of cryptocurrencies – this peer-to-peer digital network presents a profound challenge to the status quo of the financial services sector, to the established modes of state-backed fiat currency, and to the regulatory authority and reach of law. Taken together, these related challenges demand the urgent attention of jurists, lawyers and law reformers. It is the future and relevance of legal regulation as much as cryptocurrency that is at stake. This book proposes an approach to regulating cryptocurrency that recognises and retains its innovative and transformative potential, but also identifies and deals with some of its less appealing qualities and implications.

Democratic political systems and the democratic way of life is aspired by most people around the world. Democracy is considered to be morally superior to other forms of political systems as it aspires to secure civil liberties, human rights, social justice and equality before the law for everyone regardless of their gender, culture, religion and national origin. Enshrined in democracy is separation of religion and state, fair and competitive elections of leaders according to a country's constitution which in turn is based on democratic ideals. Democracy aspires for people of different backgrounds to live together with their differences intact, but all contributing towards a better life for all. In today's increasingly pluralistic societies many people of different cultural and national backgrounds are brought together. Many have migrated from countries with autocratic political systems. Some with religions that require them to behave in different way, others with cultures teaching them values of harmony, collectivism and conformity as opposed to the culture of their host country emphasizing individualism and cherishing differences. Hence, in multicultural societies development of pluralistic democracy, a democracy which includes respect for diversity is essential. A truly multicultural education which is based on the assumption that different cultures will be equally represented in education goes a long way towards education for democratic citizenship. Such an education would make students aware of issues of human rights and justice and encourage them to define their own values and ways in which they could contribute to a better world. The aim of this volume is to provide a forum for discussion of how multiple social perspectives and personal values can be brought together on common grounds around matters related to democracy. Contributions from research, and scholarly theoretical work as well as presentation of existing creative models of democracy education will be included. Authors from the major democracies will comment on the models and practice of multicultural education in their respective countries, to facilitate discussion and learning from each others' experiences.

Doing Multicultural Education for Achievement and Equity, a hands-on, reader-friendly

multicultural education textbook, actively engages education students in critical reflection and self-examination as they prepare to teach in increasingly diverse classrooms. In this engaging text, Carl A. Grant and Christine E. Sleeter, two of the most eminent scholars of multicultural teacher education, help pre-service teachers develop the tools they will need to learn about their students and their students' communities and contexts, about themselves, and about the social relations in which schools are embedded. Doing Multicultural Education for Achievement and Equity challenges readers to take a truly active and ongoing role in promoting equity within education and helps to guide them in becoming highly qualified and fantastic teachers. Features and updates to this much-anticipated second edition include: Reflection boxes that encourage students to actively engage with the text and concepts, along with downloadable templates available on Routledge.com "Putting It into Practice" activities that offer concrete suggestions for really "doing" multicultural work in the classroom Fictional vignettes that illustrate the real issues teacher education students face and the ways their own cultural attitudes can impact their response New coverage of issues pertaining to student achievement, federal and state policy, and socioeconomic connections between the current economy and educational funding A more comprehensive discussion about the different social movements that have affected education in the past and present

Media, Culture, and Debate in Korean provides a roadmap for an advanced-level Korean course centered around media and culture and includes access to an archive of virtual media resources such as film, documentary, shows, newspaper, drama, music, and advertising. The book is designed to help students enhance their language skills and to deepen their knowledge and understanding of contemporary Korean society and culture through the analysis of authentic Korean media resources and debate. It addresses the cultural issues permeating Korean society that are rapidly transforming people's perspectives, language, and lifestyle. These societal issues are discussed in the context of historical and psychological background, the struggle between tradition and changing values, positive and negative impact of the phenomenon, neologism, and potential solutions. This book can serve as a main textbook as well as a resource for an online class setting and can also be used in a traditional face-to-face class setting. This practical guide provides patients who have inflammatory bowel disease (IBD) with cognitive-behavioral therapy (CBT) strategies for coping with IBD. It teaches a number of skills that can make coping with Crohn's or colitis easier. Chapters provide an overview of Crohn's and colitis as well as the interplay between stress and the gut, before offering strategies on relaxation training, physical activity, managing stress and avoidance, diet and nutrition, and medical treatment options. The book also emphasizes the importance of the doctor-patient relationship and helps patients learn how to think about medical management (including the possibility of surgery) to minimize anxiety from catastrophic thoughts and balance potential risks and benefits appropriately. Dr. Hunt challenges readers to engage in specific behavioral experiments to reduce shame and stigma and highlights practical applications with case illustrations and clinical vignettes. This book can be used as a standalone self-help book or in conjunction with practitioners during in-person therapy.

This groundbreaking book describes theory, research, and practice that can be used in civic education courses and programs to help students from marginalized and minoritized groups in nations around the world attain a sense of structural integration and political efficacy within their nation-states, develop civic participation skills, and reflective cultural, national, and global identities.

This is one of the first compilations on collective bargaining in higher education reflecting the work of scholars, practitioners, and employer and union advocates. It offers a practical and comprehensive resource to higher education leaders responsible for developing, managing, and maintaining collective bargaining relationships with academic personnel. Offering views from an experienced and diverse group, this book explores how to manage relationships in collaborative, transparent, and equitable ways, best practices for meaningful outcome measures, and approaches for framing collective bargaining as a long-term process that benefits the institution. This volume provides an overview of the contemporary landscape, benchmark measures of success, and practical advice focusing on advancing collaborative, equitable, and sustainable labor relations approaches in higher education. Designed for administrators, union leaders, elected officials, and policy makers, at all stages of their careers as well as for faculty and students in graduate programs, this volume serves as an invaluable resource for

those who endeavor to conceptualize, conduct, manage, and implement collective bargaining in more mutually effective and beneficial ways for all parties.

Each year, the United States witnesses significant changes in the demographics of its citizens. Accordingly, schools—and the students we teach—are also changing. With such changes come the need, responsibility, and obligation for educators to provide students with an education that is both rigorous and culturally responsive. This book bridges the gap that exists between educating advanced learners and educating culturally different learners. Multicultural Gifted Education, 2nd ed. addresses various topics, including racially and culturally diverse students and families, historical and legal perspectives on educating gifted and minority students, culturally responsive curriculum and assessment, and counseling students from a multicultural perspective.

This essential text explores the intersectionality of the self in therapeutic practice, bringing together theoretical foundations and practical implications to provide clear guidance for students and practitioners. Bringing together a collection of insightful and experienced clinicians, this book examines the ways in which intersectionality influences all phases of clinical and supervisory work, from outreach, assessment, and through to termination. Integrating research with clinical practice, chapters not only examine the theoretical, intersectional location of the self for the therapist, client, or supervisee, but they also consider how this social identity effects the therapeutic process and, crucially, work with clients. The book includes first-hand accounts, case studies, and reflections to demonstrate how interactions are influenced by gender, race, and sexuality, offering practical ideas about how to work intentionally and ethically with clients. Engaging, informative, and practical, this book is essential reading for students, supervisors, family, marriage, and couple therapists, and clinical social workers who want to work confidently with a range of clients, as well as clinical professionals interested in the role of intersectionality in their work.

This volume is the first authoritative reference work to provide a truly comprehensive international description and analysis of multicultural education around the world. It is organized around key concepts and uses case studies from various nations in different parts of the world to exemplify and illustrate the concepts. Case studies are from many nations, including the United States, the United Kingdom, Canada, Australia, France, Germany, Spain, Norway, Bulgaria, Russia, South Africa, Japan, China, India, New Zealand, Malaysia, Singapore, Indonesia, Brazil, and Mexico. Two chapters focus on regions – Latin America and the French-speaking nations in Africa. The book is divided into ten sections, covering theory and research pertaining to curriculum reform,

immigration and citizenship, language, religion, and the education of ethnic and cultural minority groups among other topics. With forty newly commissioned pieces written by a prestigious group of internationally renowned scholars, *The Routledge International Companion to Multicultural Education* provides the definitive statement on the state of multicultural education and on its possibilities for the future.

Multicultural Education of Children and Adolescents explores the foundations of diversity through cultural portraits of young people from a variety of backgrounds, and provides practical strategies for shaping and implementing a multicultural curriculum. In Part I, the authors introduce multicultural education as a concept and document the increasing cultural diversity of the United States. The text describes, in Part II, various cultural groups--including African, American Indian, and Hispanic cultures--to help pre-service teachers better understand the backgrounds of diverse learners. Part III focuses on topics that educators should consider when planning and implementing programs that teach acceptance and respect for cultural diversity. Through this series of applied chapters, teacher candidates will learn to use the most effective instructional practices with diverse learners, and to work successfully with families, school personnel, and administrators to implement a multicultural program. Content and features new to the sixth edition include the following: Every chapter opens with a real-life story that introduces the subject matter by showing the ideas in action. Points to Ponder boxes urge readers to reflect more deeply on information they have just read. Additional Case Studies with accompanying Questions for Discussion in all chapters enable nuanced consideration of the crucial differences between culturally specific learning styles. Increased emphasis on Social Justice and White Privilege, including its effects on all people. Chapter 13 has been significantly revised to include increased and updated information on sexual orientation, including transgender students. Chapters in Part II now feature further expanded sections on socioeconomic status and conditions of each ethnic group.

Multicultural education is a set of strategies and materials in education, developed to assist teachers in promoting democracy while responding to the many issues created by the rapidly changing demographics of their students. Multicultural education means to ensure the highest levels of academic achievement for all students: it helps students develop a positive self-concept by providing knowledge about the histories, cultures, and contributions of diversity groups. Multicultural Education: From Theory to Practice – which includes the contributions of academics and researchers from two continents and 14 culturally-challenged countries – aims to provide a platform for multicultural education researchers to present new research and developments in the area. The contributors to the book approach the foundations of multicultural education, the political context of multicultural education, classroom practices in multicultural education, and language education in a multicultural context. This volume will appeal to a wide range of academic readership, including educators, researchers, social students, teacher trainers, and teachers of all subjects and of all levels, who wish to develop personally and professionally. It will also be useful to all those who interact, one way or another, with both students and teachers in a multicultural context. Multi-owned properties make up an ever-increasing proportion of commercial, tourist and residential development, in both urban and rural landscapes around the world. This book critically analyses the legal, social and economic complexities of strata or community title schemes. At a time when countries such as Australia and the United States turn ever larger areas into strata title/condominiums and community title/homeowner associations, this book shows how governments, the judiciary and citizens need to better understand the ramifications of these private communities. Whilst most strata title analysis has been technical, focusing on specific sections of legislation, this book provides higher level analysis, discussing the wider economic, social and political implications of Australia's strata and community title law. In particular, the book argues that private by-laws, however desirable to initial parties, are

often economically inefficient and socially regressive when enforced against an ever-changing group of owners. The book will be of particular interest to scholars and legal practitioners of property law in Australia, but as the Australian strata title model has formed the basis for legislation in many countries, the book draws out lessons and analysis that will be of use to those studying privately-owned communities across the world.

This well-written, accessible, widely popular resource uses a stimulating inquiry approach to engage readers in discussion and debate around the most critical issues of diversity in America. Grounded in research from behavioral and social sciences—including education, psychology, history, sociology, biology, anthropology, women’s studies, and ethnic studies—the book uses the question and answer format to bring real meaning and understanding to the topics. The book’s conceptual framework focuses on culture, the individual, and institutions. The first section examines individual concerns, the second section describes the cultural/historical context, and the third section explores racism, classism, sexism, heterosexism, and ableism by addressing all three areas such as historical biases based on cultural norms, individual prejudices based on myths, misconceptions, and stereotypes about diverse groups, and how institutional discrimination advantages dominant group members and disadvantages oppressed groups. The last section focuses on changes already achieved or that need to be implemented in schools and other areas of society to create a more just society. The second edition of this source book contains essays and annotations on a number of issues related to multicultural education. The authors define multicultural education as a process-oriented creation of learning experiences that foster an awareness of, respect for, and enjoyment of the diversity of our society and world. Inherent in this definition of multicultural education is a commitment to create a more just and equitable society for all people. This book, then, offers suggestions relevant to the teaching of all children, all teaching and curricular decisions, and every aspect of educational policy.

Understanding the New Global Economy: A European Perspective argues that globalisation is facing economic and political headwinds. A new global economic geography is emerging, cross-border relationships are changing, and global governance structures must come to terms with a new multipolar world. This book clarifies the fundamental questions and trade-offs in this new global economy, and gives readers the tools to understand contemporary debates. It presents a range of possible policy options, without being prescriptive. Following a modular structure, each chapter takes a similar approach but can also be read as a stand-alone piece. State-of-the-art academic research and historical experiences are weaved throughout the book, and readers are pointed towards relevant sources of information . This text is an accessible guide to the contemporary world economy, suited to students of international economics, political economy, globalisation, and European studies. It will also be valuable reading for researchers, professionals, and general readers interested in economics, politics, and civil society.

Often thought of as a predominantly ‘male’ disorder, autism has long gone unidentified, unnoticed and unsupported in girls – sometimes with devastating consequences for their social and mental well-being. As current research reveals a much more balanced male-to-female ratio in autism, this book provides crucial insight into autistic girls’ experiences, helping professionals to recognize, understand, support and teach them effectively. Drawing on the latest research findings, chapters consider why girls have historically been overlooked by

traditional diagnostic approaches, identifying behaviours that may be particular to girls, and exploring the 'camouflaging' that can make the diagnosis of autistic girls more difficult. Chapters emphasize both the challenges and advantages of autism and take a multidisciplinary approach to encompass contributions from autistic girls and women, their family members, teachers, psychologists and other professionals. The result is an invaluable source of first-hand insights, knowledge and strategies, which will enable those living or working with girls on the autism spectrum to provide more informed and effective support. Giving voice to the experiences, concerns, needs and hopes of girls on the autism spectrum, this much-needed text will provide parents, teachers and other professionals with essential information to help them support and teach autistic girls more effectively.

This new and expanded edition collects the best articles dealing with race and culture in the classroom that have appeared in *Rethinking Schools* magazine. With more than 100 pages of new materials, *Rethinking Multicultural Education* demonstrates a powerful vision of anti-racist, social justice education. Practical, rich in story, and analytically sharp! Book Review 1: "If you are an educator, student, activist, or parent striving for educational equality and liberation, *Rethinking Multicultural Education: Teaching for Racial and Cultural Justice* will empower and inspire you to make a positive change in your community." -- Curtis Acosta, Former teacher, Tucson Mexican American Studies Program; Founder, Acosta Latino Learning Partnership Book Review 2: "Rethinking Multicultural Education is both thoughtful and timely. As the nation and our schools become more complex on every dimension—race, ethnicity, class, gender, ability, sexuality, immigrant status—teachers need theory and practice to help guide and inform their curriculum and their pedagogy. This is the resource teachers at every level have been looking for." -- Gloria Ladson-Billings, Professor & Dept. Chair, Kellner Family Chair in Urban Education, University of Wisconsin-Madison and author of *Dreamkeepers: Successful Teachers of African American Children* Book Review 3: "Rethinking Multicultural Education is an essential text as we name the schools we deserve, and struggle to bring them to life in classrooms across the land." -- William Ayers, teacher, activist, award-winning education writer, and Distinguished Professor of Education and Senior University Scholar at the University of Illinois at Chicago (retired)

This handbook for educators and researchers consists of an unparalleled set of conceptual essays and empirical studies that advance new perspectives and build empirical ground on multicultural education issues from 10 different selected societies in Asia Pacific. This unique, edited book will be a solid resource particularly for graduate students, educators, and researchers involved in multicultural education, given its multiple balances in terms of 1) conceptual essays, empirical studies, and practical implications; 2) contributions from emerging scholars, established scholars, and leading scholars in the field; and 3) comprehensive coverage of key subareas in multicultural education. Given the growing need for in-depth understanding of multicultural education issues in the Asia Pacific region where we have witnessed increasing human mobility and interaction across countries and societies, this edited book is the only research-based handbook entirely focusing on multicultural education in Asia Pacific.

This book tells us how various global regions are dealing with three major concerns within the field of multicultural education: *the conceptualization and realization of "difference" and "diversity"; *the inclusion and exclusion of social groups within a definition of multicultural education; and *the effects of power on relations between and among groups identified under the multicultural education umbrella. All of the chapter authors pay attention to these themes, but, at the same time, they bring their particular interests and perspectives to the book, addressing issues, such as linguistic, racial, ethnic, and religious diversity; class; educational inequalities; teacher education; conceptualizations of citizenship; and questions of identity construction. In addition, the authors offer both historical and social contexts for their analytical

discussion of the ideals and practices of multicultural education in a particular region. This is not a book that tells us about multicultural education with an international "twist"; it provides readers with different ways to think, talk, and do research about issues of "diversity," "difference," and the effects of power as they relate to education.

Narrative and Experience in Multicultural Education explores the untapped potential that narrative and experiential approaches have for understanding multicultural issues in education. The research featured in the book reflects an exciting new way of thinking about human experience. The studies focus on the lives of students, teachers, parents, and communities, highlighting experiences seldom discussed in the literature. Most importantly, the work emphasizes the understanding of experience and transforming this understanding into social and educational significance.

Bringing together scholarship from both sides of the Atlantic, this book focuses on the questions that shape the field of multicultural education, offering the reader an opportunity to achieve a real grasp of the subject.
