A broad examination of the rise of nationalism, populism, xenophobia, and racism throughout the world The Wiley Blackwell Companion to Race, Ethnicity, and Nationalism provides expert insight into the complex, interconnected factors that are influencing patterns of human relations worldwide in a time of rising populist nationalism, intensified racial and religious tensions, and mounting hostilities towards immigrants and minorities. Analyzing the underlying forces which continue to drive global trends, this volume examines contemporary patterns based on the most recent evidence spanning five continents—offering a diversity of interpretations, models and perspectives that address the challenges facing the study of race, ethnicity, and nationalism. The Companion features original contributions by both established experts and emerging scholars that explore an expansive range of theoretical, historical, and empirical case studies. Organized into five sections, the text first discusses growing trends in the United States, the significance of populism in major societies around the globe, and how global changes are influencing regional variations in race, ethnicity, and nationalism. An investigation of global migration patterns is followed by examination of conflict and violence, from urban riots and boundary disputes to warfare and genocide. The final section focuses on the policy debates resulting from changing patterns and their impact on politics, the economy, and society. Timely and highly relevant, this book: Discusses contemporary issues such as the failure of school systems to provide equal opportunities to minorities, the evolution of the School-to-Prison pipeline, and the Black Lives Matter movement Explores shifts in American race relations, the influence of social media and the internet, and the links between increased globalization and contemporary forms of nationalism, racism, and populism Features essays on national and ethnic identity in China, Japan, and South Korea, India, Central Asia, Africa, Latin America, and Europe Analyzes policies regarding borders, immigration, refugees, and human rights in different countries and regions Offers perspectives on the radicalization of social movements, the creation of ethnic, linguistic and other boundaries between groups, and the models used to understand intractable conflicts in many global settings The Wiley Blackwell Companion to Race, Ethnicity, and Nationalism is an indispensable resource for scholars, researchers, instructors, and students across the social sciences, including sociology, political science, global affairs, economics, comparative race and ethnic relations, international migration, social change, and sociological theory.

Providing an adequate conceptual apparatus for the explanation and interpretation of behavior associated with race, ethnicity, and socioeconomic status is the goal of this book. Empirical research findings and their theoretical analysis are linked. E. Franklin Frazier, recognized minorities as mirrors of their society. He hypothesized that study of their adaptations would provide a clearer understanding of the relation of human motivation to culture. Race, Ethnicity, and Socioeconomic Status confirms the Frazier hypothesis and extracts from studies of blacks and other racial and ethnic minority populations propositions applicable to majority as well as minority groups. Theses studies of intergroup relations were conducted during the past 25 years and provide a perspective on changing patterns of contact between cultural groups in the United States. Adaptations associated with race, ethnicity, and socioeconomic status are analyzed from the perspective of sociology as a science of humanity. Historical trends as well as contemporary situations are considered; social, psychological, and geographical factors are researched as contextual variables in intergroup relations. By analyzing demographic data pertaining to mortality, disease, delinquency, and poverty, the varying contributions to the human condition of individual attributes, group customs, and institutional regulations are ascertained. Institutional and community studies illuminate the prides, fears, and prejudices of dominant and subdominant groups, particularly with reference to racial and ethnic relations in education. Also identified in these studies are the rights and responsibilities of such groups toward each other in social interaction.

Reflecting the latest data and theoretical literature available, RACE AND ETHNIC RELATIONS: AMERICAN AND GLOBAL PERSPECTIVES, 10e tackles diversity issues from both the American and global perspective, offering an in-depth exploration of today's globally diverse world. The text's expansive coverage of race and ethnic relations across the globe highlights major points of difference and similarity between the United States and a number of other societies, as well as includes a unique case study comparing four different countries. This unique comparative approach is vital with the increasing ethnic diversity in most contemporary societies as well as the prominence of ethnic conflicts in virtually all world regions. Current statistics, figures, maps, and citations provide up-to-the-minute insight. The Tenth Edition also includes an all-new chapter devoted to Arab Americans. In addition, end-of-chapter critical-thinking questions encourage readers to think in a sociological mode and examine current issues using concepts presented in the text. With new tables, figures, glossary terms, and updated political cartoons, maps, and illustrations, Schaefer (DePaul U.) continues to pursue issues involved in understanding race and ethnicity, ethnic and religious sources of conflict, the major groups in the US, and patterns of dominance over women and social minorities. Chapters include first-person views, demographic maps, review and critical thinking questions, and Internet exercises. The CD-ROM offers study guide and communication modules via a companion website. "A conceptually power-packed volume that is at once erudite and accessible, expansive and focused, true to sociological traditions yet stimulatingly exploratory. Scholars and students will be served very well by this absorbing, far-reaching enquiry into ethnicity and race." - Raymond Taras, Tulane University "This concise, profound, and beautifully written book offers a tour de force across the landscape of race and ethnicity by a young author who masters them all." - Per Mouritsen, Aarhus University This book offers an accessible discussion of both foundational and novel concepts in the study of race and ethnicity. Each account will help readers become familiar with how long standing and contemporary arguments within race and ethnicity studies contribute to our understanding of social and political life more broadly. Providing an excellent starting point with which to understand the contemporary relevance of these concepts, Nasar Meer offers an up-to-date and engaging consideration of everyday examples from around the world. This is an indispensable guide for both students and established researchers interested in the study of race and ethnicity.

For practitioners and students seeking to deepen cultural sensitivity in clinical practice, this book examines the ethnic diversity of clients. It reveals the pervasive influence of race, ethnicity and power on the practitioner's own identity and interactions with others - clients, peers, subordinates and superiors.

Since the 1993 publication of the third edition of the Dictionary of Race and Ethnic Relations, events have continued to change the way in which race and ethnicity are viewed. The trial of O. J. Simpson; the publication of *The Bell Curve*; and the continuing attacks on Affirmative Action have all affected the ways in which race and the surrounding issues of racism and identity have been reported in the media and studied in the classroom. The Dictionary of Race and Ethnic Relations covers a range of national and international topics which have been written by a distinguished group of experts on race and ethnicity. The reader will find new articles covering recent events, historical and theoretical perspectives and important figures. Over half of the book has been revised or rewritten and all of the articles include fully-updated lists of further reading.

The study of racial and ethnic relations has become one of the most written about aspects in sociology and sociological research. In both North America and Europe, many "traditional" cultures are feeling threatened by immigrants from Latin America, Africa and Asia. This handbook is a true international collaboration looking at racial and ethnic relations from an academic perspective. It starts from the principle that sociology is at the hub of the human sciences concerned with racial and ethnic relations.

For courses in Majority-Minority Relations, Racial and Ethnic Relations, Cultural Diversity, and Multiculturalism in departments of Sociology and Ethnic Studies. Drawing on a broad array of sources, *Racial and Ethnic Relations*, 8/e, examines the what, why, and how of racial and ethnic oppression and conflict. This text provides readers with access to important research and literature on racial and ethnic groups in the United States and, to a lesser extent, in certain other countries around the globe.

Despite radical changes over the last century, race remains a central organizing principle in U.S. society, a key arena of inequality, and the subject of ongoing conflict and debate. In a refreshing new introduction to the sociology of race, *Recognizing Race and Ethnicity* encourages students to think differently by challenging the notion that we are, or should even aspire to be, color-blind. In this text, Kathleen Fitzgerald considers how the continuing significance of race manifests in both significant and obscure ways by looking across all racial/ethnic groups within the socio-historical context of institutions and arenas, rather than discussing each group by group. Incorporating recent research and contemporary theoretical perspectives, she guides students to examine racial ideologies and identities as well as structural racism; at the same time, she covers topics like popular culture, sports, and interracial relationships that will keep students engaged. *Recognizing Race and Ethnicity* provides unparalleled coverage of white privilege while remaining careful to not treat "white" as the norm against which all other groups are defined. *Recognizing Race and Ethnicity* makes it clear that, in a time when race and racism are constantly evolving in response to varied social contexts, societal demands, and political climates, we all must learn to recognize race if we are to get beyond it.

Focuses on interracial and interethnic relations in the US based on a sociological analysis of intergroup processes and the histories of American groups. Within the historical framework, which moves from the colonial period to current immigration legislation, pertinent social topics are discussed, i

As the population of older Americans grows, it is becoming more racially and ethnically diverse. Differences in health by racial and ethnic status could be increasingly consequential for health policy and programs. Such differences are not simply a matter of education or ability to pay for health care. For instance, Asian Americans and Hispanics appear to be in better health, on a number of indicators, than White Americans, despite, on average, lower socioeconomic status. The reasons are complex, including possible roles for such factors as selective migration, risk behaviors, exposure to various stressors, patient attitudes, and geographic variation in health care. This volume, produced by a multidisciplinary panel, considers such possible explanations for racial and ethnic health differentials within an integrated framework. It provides a concise summary of available research and lays out a research agenda to address the many uncertainties in current knowledge. It recommends, for instance, looking at health differentials across the life course and deciphering the links between factors presumably producing differentials and biopsychosocial mechanisms that lead to impaired health.

For undergraduate and graduate introductory level courses in race and ethnic relations. Introducing the core theories, concepts, and issues concerning race and ethnic relations in the United States. Based on the top-selling title by the same author, *Strangers to These Shores*, this book provides a framework for understanding the interpersonal dynamics and the larger context of changing intergroup relations. Following a presentation of introductory concepts in the first chapter—particularly that of the stranger as a social phenomenon and the concept of the Dillingham Flaw—the first group of chapters examines differences in culture, reality perceptions, social class, and power as reasons for intergroup conflict. These chapters also look at the dominant group's varying expectations about how minorities should fit into its society. Chapters 2 and 3 include coverage of some middle-range conflict and interactionist theories. Chapters 4 and 5 explore the dimensions and interrelationships of prejudice and discrimination, and Chapter 6 covers the dominant-minority response patterns so common across different groups and time periods. This chapter presents middle-range conflict theories about economic exploitation too. Chapter 7 employs holistic sociological concepts in discussing ethnic consciousness; ethnicity as a social process; current racial and ethnic issues, fears, and reactions; and the various indicators of U.S. diversity in the 21st century.

Ethnicity and racial relations are almost universally seen as a prime motivating force behind social conflict and change. Often volatile and complex, racial interaction resonates through all aspects of contemporary society. Social issues which appear to have little connection to race often become entangled with ethnic friction to create far more complex problems. Race is often used by individuals and political organizations to further their own objectives. Since the 1994 publication of the third edition of this acclaimed reference book there have been enormous changes in the area of race and ethnic relations throughout the world. The *Dictionary of Race and Ethnic Relations* deals with these changes through in-depth articles which both define and analyze the terms. For this edition, there has been a total revision of existing entries and many new entries that take account of developments in society and intellectual trends. Features include: * Fully updated lists of further reading and cross-references. * New entries include: Black feminism, Causes celebres, Environmental racism, Hybridity, Postcolonialism * Invaluable teaching and reference tool for students at all levels

This accessible, challenging discussion of race relations looks at how institutions shape individual experience and asks how we can prevent a violent splintering of American society along racial lines in the 21st century. Arguing that the best way to understand race relations is through the personal accounts of individuals as they go through the life cycle, this highly readable book uses real life stories to illuminate how families, peer groups, and workplaces influence views about other racial and ethnic groups. The authors hope to inspire readers to intervene and counteract negative perceptions of racial difference through their open, frank discussion of the racial divide.

This book provides a framework for understanding the interpersonal dynamics and the larger context of changing intergroup relations.

This text takes an in-depth look at today's most important racial and ethnic relations issues, especially inequality and cultural pluralism. Topics and discussions reflect the progression of ideas and understandings about racial and ethnic relations. This progressive approach allows for coverage of the important "classic" research and views and for an emphasis on new and emerging perspectives.

Race and Ethnic Relations in Canada was first published in 1990 by Oxford University Press as a collection of twelve original essays that provided a comprehensive overview of government policies and academic theories that affect the way race and ethnic relations are structured and interpreted in Canada. This second edition takes into account social changes and academic debates of the 1990s and updates materials and arguments in the original edition. The contributors, all leading Canadian sociologists and social scientists, discuss a wide range of topics, including theories of race and ethnicity, demographic trends, the 'vertical mosaic', immigration, multiculturalism, employment equity, policy on Native peoples, and language policy. The book is essential reading for understanding Canada's race and ethnic relations.

Understanding Race and Ethnicity in Contemporary Society: A Reader provides both contemporary and historical perspectives on race and ethnicity, with a focus the development of racial and ethnic relations in the United States. The anthology is organized into four sections. The first provides introductory perspectives that consider the social construction of race and socioeconomic disparities. The second section is devoted to understanding the patterns of race and ethnicity through consideration of theoretical viewpoints. The third section explores the development of racial and ethnic patterns by looking at some of the historical evidence. The fourth and final section examines key issues in racial and ethnic inequality. Specific topics include the racialization of poverty, institutionalized racism, segregation, and some attention focused on the social institutions of religion, sports, family, and education. The sections and readings all feature an original introduction, as well as discussion questions. Understanding Race and Ethnicity in Contemporary Society is intended to supplement standard texts on race and ethnicity. It is well suited to courses that focus on contemporary racial and ethnic relations, and those that explore the history of race and ethnicity. Clifford Broman holds a Ph.D. from the University of Michigan, Ann Arbor. Dr. Broman is a professor of sociology at Michigan State University. He is the author of numerous articles on stress and mental health, and racism and discrimination as stressors in the health of African Americans. His most recent publications include two book chapters, "The Stress of Discrimination," and "Race Identity," as well as a conference presentation on the persistence of stereotyping in the United States.

This book compares contemporary racism in the US and the Netherlands through in-depth interviews with fifty-five black women. As an interdisciplinary analysis of gendered social constructions of racism, it breaks new ground. Essed problematizes and reinterprets many of the meanings and everyday practices that the majority of society has come to take for granted. She addresses crucial but largely neglected dimensions of racism: how it is experienced; how black women recognize its covert manifestations; how they acquire this knowledge; and how they challenge racism in everyday life. To answer these questions, over two thousand experiences of black women are analyzed within a theoretical framework that integrates the disciplines of macro- and

This book brings together internationally known scholars from a range of disciplines and theoretical traditions. In setting out the various theories it demonstrates the range and diversity of approaches to race and ethnic relations current in the field. As well as identifying important and persistent points of controversy, however, the collection also reveals much complementarity and indicates the potential for a multi-faceted approach to theorization. The theories represented include contributions from the perspective of sociology, social anthropology, sociobiology, and social psychology.

"This book is very well written and clearly organized throughout. It is pitched at upper-level undergraduate and graduate-level race and ethnicity students...in sum, this is an important book, highly recommended to students and faculty alike. The authors draw extensively from classic and contemporary sociological theory throughout the text and maintain a transnational focus in each and every chapter." —TEACHING SOCIOLOGY Ethnicity and Race: Making Identities in a Changing World, Second Edition uses examples and extended case studies from all over the world to craft a compelling, even-handed account of the power and persistence of ethnicity and race in the contemporary world. Known for its conceptual clarity, world-historical scope, and fair-minded treatment of these oft controversial topics, this updated and expanded edition retains all of the core elements and constructionist insights of the original.

This book focuses on the five largest ethnic groups in the U.S. - Mexican Americans, African Americans, Native Americans, Japanese Americans, and Puerto Ricans. McLemore et al present historical information and contemporary examples of the largest ethnic and minority groups in the United States. Using the assimilation model, they analyze the strengths and weaknesses of this model in explaining how various racial and ethnic groups have been incorporated (or not) into U.S. society. Focusing on interracial and interethnic relations in the U.S., the authors give a sociological analysis of intergroup processes and the history of the interactions of these groups. Organized thematically rather than chronologically, the book illuminates the main racial and ethnic dilemmas faced in America as shown through the examples of these five groups. For anyone interested in Racial and Ethnic Relations, Minority Relations, Multicultural Education, or Ethnic Studies.
