The At a Glance series sets out to summarise the essential information about a particular subject for the student requiring a quick introduction or a guide to revision. This is achieved by taking each part of the subject in turn and condensing it into a two-page spread with a schematic diagram on the left and a concise explanation on the right. This book presents a broad look at immunology with the aid of a series of thoughtfully constructed sketches to show the mechanisms involved in immunological processes. It covers: the scope of immunology cellular and hormonal factors immunology of infectious disease antibody formation, structure and function immunology of cancer hypersensitivity autoimmunity and immunodeficiency. The sixth edition features two new spreads on antigen recognition and processing, and cell interactions which together comprise the antibody response which is now divided into two sections. Throughout this new edition, the major emphasis has been the advances of our knowledge of the genetic basis of immunology. The appendix of CD classification has also been updated.

L'Ange: Book Three Jon Slade finally met his mate, but instead of it being the happiest day of his life, it became the saddest when wolf shifter Kelvin MacCurdy chose his obligations over their fated bond, leaving Jon to pick up the pieces of his shattered dreams. Lucky for him, Roman Howell, his boss and the owner of L'Ange, saw promise in the forlorn lion and put him to work so he wouldn't have time to sit around and lick his wounds while he waited for his wounded spirit to heal. Then the wolves make an official visit to L'Ange, and Jon finds out Kelvin's pining for him is taking its toll on his position as the king's champion. Though Kelvin's training and the expectations of others steer him toward an intended mate, Jon has an unbreakable hold on his heart, and it's no longer possible for Kelvin to keep himself from where he truly belongs. But the conclave brings more than Kelvin to the ch teau. It also brings a challenge to jackal alpha Quade Danas, a threat that Quade and Roman, Arman and Linus, and Jon and Kelvin may have to fight in order to keep L'Ange's family intact. Jon never wanted to lead a pride, but the loyalty and devotion to one is ingrained in him. Kelvin was raised to punish anyone who questioned his king, but the calling to protect others runs through his veins just as deeply. To come out on the other side of the battle together, Jon and Kelvin will have to hold the darkness of solitary pride and broken hearts at bay and find strength in belonging to something bigger than themselves.
