Exploring VBA for Microsoft Office 2016 Brief Mary Anne Poatsy,Robert Grauer,TBD Author,2016-11-10 This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. This three-chapter book provides an overview of VBA and then a full chapter each on VBA in Excel and VBA in Access. It is an ideal complement to the Excel or Access Comprehensive textbook for those looking for more VBA coverage. Beyond point-and-click The goal of the Exploring series is to move students beyond the point-and-click, to understanding the why and how behind each skill. And because so much learning takes place outside of the classroom, this series provides learning tools that students can access anywhere, anytime. Students go to college now with a different set of skills than they did years ago. With this in mind, the Exploring series seeks to move students beyond the basics of the software at a faster pace, without sacrificing coverage of the fundamental skills that everyone needs to know. Also available with MyITLab MyITLab ® is an online homework, tutorial, and assessment program designed for Information Technology (IT) courses, which engages students and improves results. HTML5 Simulation exercises and Live-in-Application Grader projects come with the convenience of auto-grading and instant feedback, helping students learn more quickly and effectively. Digital badges lets students showcase their Microsoft Office or Computer Concepts competencies, keeping them motivated and focused on their future careers. MyITLab builds the critical skills needed for college and career success. Note: You are purchasing a standalone product; MyITLab does not come packaged with this content.
