Verso Oriente - sulle ali dell'aquila (volume 1) Nicola Bennati, 2017-06-06 Narrativa - romanzo breve (109 pagine) - Un lungo viaggio in moto, da Milano fino al Turkmenistan, attraversando i Balcani, la Turchia e l'Iran. Una coppia in viaggio su una vecchia Moto Guzzi parte alla scoperta dell'Oriente senza grande budget né preparazione. Ogni estate percorrono un tratto lasciando la moto sul posto per proseguire l'anno successivo. Arriveranno fino ad Ashgabat (Turkmenistan) attraverso Balcani, Turchia e Iran. Vivono alla giornata viaggiando piano e cercando di assaporare ogni atmosfera. Il rapporto con i locali è entusiasmante, la natura e le suggestioni storiche pure, le sorprese e gli imprevisti di ogni giorno trasformano le vacanze in piccole avventure. In questo Volume 1 l'autore racconta le prime due tratte del viaggio: da Milano a Istanbul e da Istanbul a Van. Nicola Bennati nasce nel 1965 a Milano dove tuttora risiede dopo una parentesi di tre anni a Praga nei primi anni del 2000. A 14 anni i Sex Pistols cambiano la sua vita incendiando in lui la passione per la musica. Più o meno in quel periodo comincia a viaggiare in treno per l'Europa e l'incontro con giovani di tutto il mondo lo aiuta ad ampliare i suoi orizzonti mentali. Si interessa di politica. Crede fortemente che la società senza profitto rimanga l'unica via percorribile per l'umanità e diffondere questa prospettiva è uno dei suoi principali obiettivi. Si laurea in Geologia, ma intraprende la libera professione nel campo della sicurezza sul lavoro. Altre sue passioni sono la natura, i viaggi e la moto. Il luogo migliore per coltivarle insieme: le dune e le montagne del Sahara in cui si addentra ripetutamente. Su strada gira quasi tutta l'Europa, finché decide di attraversare con calma tutta l'Asia.

The Orthodox Church in the Byzantine Empire J. M. Hussey, 2010-03-25 This book describes the role of the medieval Orthodox Church in the Byzantine Empire (c.600-c.1453). As an integral part of its policy it was (as in western Christianity) closely linked with many aspects of everyday life both official and otherwise. It was a formative period for Orthodoxy. It had to face doctrinal problems and heresies; at the same time it experienced the continuity and deepening of its liturgical life. While holding fast to the traditions of the fathers and the councils, it saw certain developments in doctrine and liturgy as also in administration. Part I discusses the landmarks in ecclesiastical affairs within the Empire as well as the creative influence exercised on the Slavs and the increasing contacts with westerners particularly after 1204. Part II gives a brief account of the structure of the medieval Orthodox Church, its officials and organization, and the spirituality of laity, monks, and clergy.

Raptor Research and Management Techniques Keith L. Bildstein, David Michael Bird, 2007 « Think about how we know about past events in human history (e.g., the expansion of the Roman Empire, or the American Revolution). What types of records document those events? Now think about Earth's history, specifically the past environmental or climatic conditions at times before recorded human history. What records might there be of such conditions? Make a list of your ideas. n assemblage of five major types of natural archives of Earth's environmental and climatic history. What common feature(s) do each of these paleoclimate archives share? an assemblage of 5 major types of natural records, or archives, of Earth's

environmental and climatic history. Just like a diary or other historical document, the layers in these natural archives contain indirect evidence (i.e., proxies) about past conditions and events, recorded in a sequential order. The evidence is specific to a certain time period and may be general or very detailed, depending on the rate that information was recorded. The faster the rate at which the recorder grew (trees and corals), accumulated (snow and ice), or was deposited (sedimentary sequences), the more detailed the record is, and the higher its resolution. For example, a record in which an annual signal can be observed has a very high resolution. In contrast, if the finest observable details are on the order of a million years, then that record would have a low resolution. »--

Dialogues on architecture Emilio Faroldi, Maria Pilar Vettori, 2022-01-20 The dialogue, as “the talking of the soul with itself” that constitutes the act of thinking (Plato), has been selected as the ideal form through which to vividly and accurately convey the thinking of a number of protagonists of Italian modern architecture. Knowledge remains a latent legacy of the soul until a given stimulus reawakens its memory: architecture, more than sophia (wisdom), becomes philo-sophia, i.e. love of knowledge. A reading of the architectural phenomenon aimed at faithfully bringing out its complexity cannot help but involve the stories directly told by the protagonists, and the micro-stories of individual episodes, in order to explore the relationship that exists between the poetic and the technical-scientific spheres, underlining their complementary and conflictual nature. The disciplinary tools of exegesis of design and its materialization stimulate a form of critique of criticism driven by the rejection of an angle of interpretation of architecture oriented exclusively towards its results. Method and result constitute the inseparable terms: the direct testimony of certain protagonists of Italian architecture makes it possible to reconnect the interrupted threads of a narrative that has often been rendered syncopated and unilateral by excessively superficial explanation. The Dialogues on Architecture explore the interaction between idea, design and construction, revealing different operative and conceptual modes through which to achieve the finished work. Franco Albini, Lodovico B. Belgiojoso, Guido Canella, Aurelio Cortesi, Roberto Gabetti & Aimarò Isola, Ignazio Gardella, Vittorio Gregotti, Vico Magistretti, Enrico Mantero, Paolo Portoghesi, Aldo Rossi, Giuseppe Terragni, Vittoriano Viganò are the authors of this narrative.

Agamben and the Signature of Astrology Paul Colilli, 2015-10-16 The work of Giorgio Agamben, one of the world’s most important living philosophers, has been the object of much scrutiny. Yet, there is one dimension of his thought that remains unexamined by scholars: the presence of the ancient science of astrology in his writings. This book, the first of its

kind, identifies the astrological elements and explains the implications of their usage by Agamben. In so doing, this study challenges us to imagine Agamben's thought in a radically new light. A critical account of the presence of astrology and related themes in Agamben's writings, ranging from the earlier works to the more recent publications, illustrates that the astrological signature constitutes a mode of philosophical archaeology that allows for an enhanced understanding of concepts that are central to his works, such as potentiality, the signature, bare life and biopolitics.
