The average American does not have enough money saved for their retirement nor do they have enough funds set aside for an emergency. My Money Matters is a 52-week money management workbook that combines a weekly budget sheet with weekly money management principles. The book builds on the Basic Money Management Principle that "I will not spend more than I earn." By teaching kids this lesson at an early age, they will understand the value of a dollar as well as create habits of saving, setting goals and investing in their future. Each weekly lesson is easy to understand for children between the ages of seven and fifteen although parents are encouraged to spend at least one hour per week reviewing the past week's budget, studying the money principle and creating a budget for the upcoming week. My Money Matters workbooks are available for kids (receiving an allowance), teens/ young adults (working part time or living away from home) and adults. The weekly lessons focus on the same principle while providing age and situation specific examples for each group. These workbooks are perfect for families, groups and organizations.
