This book is based on an expert group meeting entitled 'Male Roles and Masculinities in the Perspective of a Culture of Peace', which was organised by UNESCO in Oslo, Norway in 1997, the first international discussion of the connections between men and masculinity and peace and war. The group consisted of researchers, activists, policy makers and administrators and the aim of the meeting was to formulate practical suggestions for change. Chapters in the book consist of both regional case studies and social science research on the connections of traditional masculinity and patriarchy to violence and peace building. The Culture of Peace initiatives in this book show how violence is ineffective, and the book contests the views in the socialisation of boy-children that aggressiveness, violence and force are an acceptable means of expression.

This book brings together a broad range of approaches and methodologies relevant to international comparative vocational education and training (VET). Revealing how youth in transition is affected by economic crises, it provides essential insights into the strengths and weaknesses of the various systems and prospects of VET in contexts ranging from North America to Europe, (e.g. Spain, Germany or the UK) to Asia (such as China, Thailand and India). Though each country examined in this volume is affected by the economic crisis in a different way, the effects are especially apparent for the young generation. In many countries the youth unemployment rate is still very high and the job perspectives for young people are often limited at best. The contributions in this volume demonstrate that VET alone cannot solve these problems, but can be used to support a smooth transition from school to work. If the quality of VET is high and the status and job expectations are good, VET can help to fill the skills gap, especially at the intermediate skill level. Furthermore, VET can also offer a realistic alternative to the university track for young people in many countries.

A masterpiece in the tradition of the Decameron and the Canterbury Tales, Juan Ruiz's fourteenth-century Spanish narrative poem combines the comic and the serious, the bawdy and the practical, the satiric and the tender, the devout and the blasphemous. In a first prose translation, Professors Mignani and Di Cesare succeed in conveying the vitality and sly humor of the original. The poem consists of a loosely unified series of fourteen amorous adventures of the Archpriest of Hita, interlaced with debates, fabliaux, fables, and exempla. Ruiz suggests that while man ought to seek buen amor (true love, or love of God), he is prone to loco amor, or worldly love. The Book proposes to show human folly so that men may be forewarned of the bad and choose the good. The episodes related in the stanzas and in songs in various lyrical styles parody such conventions as courtly love, epic battle, or church ritual. Ruiz was clearly fascinated by the concrete, as well as the allegorical, for his episodes have dates and actual settings, and popular speech is incorporated into his verses. In their introduction, the translators survey the major scholarly studies of the poem and offer their own critical reading of it. Their annotated bibliography and notes to

the translation will be useful to students as well as scholars.

Comic Books and American Cultural History is an anthology that examines the ways in which comic books can be used to understand the history of the United States. Over the last twenty years, there has been a proliferation of book-length works focusing on the history of comic books, but few have investigated how comics can be used as sources for doing American cultural history. These original essays illustrate ways in which comic books can be used as resources for scholars and teachers. Part 1 of the book examines comics and graphic novels that demonstrate the techniques of cultural history; the essays in Part 2 use comics and graphic novels as cultural artifacts; the third part of the book studies the concept of historical identity through the 20th century; and the final section focuses on different treatments of contemporary American history. Discussing topics that range from romance comics and Superman to American Flag! and Ex Machina, this is a vivid collection that will be useful to anyone studying comic books or teaching American history.

A synthesis of nearly 2,000 articles to help make engineers better educators While a significant body of knowledge has evolved in the field of engineering education over the years, much of the published information has been restricted to scholarly journals and has not found a broad audience. This publication rectifies that situation by reviewing the findings of nearly 2,000 scholarly articles to help engineers become better educators, devise more effective curricula, and be more effective leaders and advocates in curriculum and research development. The author's first objective is to provide an illustrative review of research and development in engineering education since 1960. His second objective is, with the examples given, to encourage the practice of classroom assessment and research, and his third objective is to promote the idea of curriculum leadership. The publication is divided into four main parts: Part I demonstrates how the underpinnings of education—history, philosophy, psychology, sociology—determine the aims and objectives of the curriculum and the curriculum's internal structure, which integrates assessment, content, teaching, and learning. Part II focuses on the curriculum itself, considering such key issues as content organization, trends, and change. A chapter on interdisciplinary and integrated study and a chapter on project and problem-based models of curriculum are included. Part III examines problem solving, creativity, and design. Part IV delves into teaching, assessment, and evaluation, beginning with a chapter on the lecture, cooperative learning, and teamwork. The book ends with a brief, insightful forecast of the future of engineering education. Because this is a practical tool and reference for engineers, each chapter is self-contained and may be read independently of the others. Unlike other works in engineering education, which are generally intended for educational researchers, this publication is written not only for researchers in the field of engineering education, but also for all engineers who teach. All readers acquire a host of practical skills and knowledge in the fields of learning, philosophy, sociology, and history as they specifically apply to the process of engineering curriculum improvement and evaluation.

A provocative essay collection that finds the Nobel laureate taking on the decline of intellectual life In the past, culture was a kind of vital consciousness that constantly rejuvenated and revived everyday reality. Now it is largely a mechanism of distraction and entertainment. Notes on the Death of Culture is an examination and indictment of this transformation—penned by none other than Mario Vargas Llosa, who is not only one of our finest novelists but one of the keenest social critics at work today. Taking his cues from T. S. Eliot—whose essay "Notes Toward a Definition of Culture" is a touchstone precisely because the culture Eliot aimed to describe has since vanished—Vargas Llosa traces a decline whose ill effects have only just begun to be felt. He mourns, in particular, the figure of the intellectual: for most of the twentieth century, men and women of letters drove political, aesthetic, and moral conversations; today they have all but disappeared from public debate. But Vargas Llosa stubbornly refuses to fade into the background. He is not content to merely sign a petition; he will not bite his tongue. A necessary gadfly, the Nobel laureate Vargas Llosa, here vividly translated by John King, provides a tough but essential critique of our time and culture.

This shocking, boisterous novel was a runaway bestseller and award winner in Japan: "Pressingly real . . . In these pages, you will find the lives of all of us" (Japan Times). Searingly honest and sexually explicit, So We Look to the Sky is a novel told in five linked stories that begin with an affair between a student and a woman ten years his senior, who picks him up for cosplay sex in a comics market. Their scandalous liaison, which the woman's husband makes public by posting secretly taped video online, frames all of the stories, but each explores a different aspect of the life passages and hardships ordinary people face. A teenager experimenting with sex and then, perhaps, experiencing love and loss; a young, anime-obsessed wife bullied by her mother-in-law to produce the child she and her husband cannot conceive; a high school girl, spurned by the student, realizing that being cute and fertile is all others expect of her; the student's best friend, who lives in the projects and is left alone to support and care for his voracious, senile grandmother; and the student's mother, a divorced single parent and midwife, who guides women bringing new life into this world and must rescue her son, crushed by the twin blows of public humiliation and loss, from giving up on his own. Narrating each story in the distinctive voice of its protagonist, Misumi Kubo weaves themes including sex, love, the female body, gossip, and

the bullying that leaves young people feeling burdened and helpless into a profoundly original novel that lingers in the mind for its affirmation of the raw, unquellable force of life.

Thousands of students have found this book the ideal way to master and upgrade their Spanish grammar.

* Finalist for the National Book Award for Translated Literature * An engrossing, incantatory novel about the legacy of historical crimes by the author of *Space Invaders* It is 1984 in Chile, in the middle of the Pinochet dictatorship. A member of the secret police walks into the office of a dissident magazine and finds a reporter, who records his testimony. The narrator of Nona Fernández's mesmerizing and terrifying novel *The Twilight Zone* is a child when she first sees this man's face on the magazine's cover with the words "I Tortured People." His complicity in the worst crimes of the regime and his commitment to speaking about them haunt the narrator into her adulthood and career as a writer and documentarian. Like a secret service agent from the future, through extraordinary feats of the imagination, Fernández follows the "man who tortured people" to places that archives can't reach, into the sinister twilight zone of history where morning routines, a game of chess, Yuri Gagarin, and the eponymous TV show of the novel's title coexist with the brutal yet commonplace machinations of the regime. How do crimes vanish in plain sight? How does one resist a repressive regime? And who gets to shape the truths we live by and take for granted? *The Twilight Zone* pulls us into the dark portals of the past, reminding us that the work of the writer in the face of historical erasure is to imagine so deeply that these absences can be, for a time, spectacularly illuminated.

For this fictionalized account of the life of Tina Modotti (1896-1942), Elena Poniatowska devoted ten years of research to fully understand the woman who was so caught up in the social and political turbulence of the pre-World War II decades. At different times in her life, Modotti was a silent screen actress, a model for Diego Rivera's murals, and a lover of photographer Edward Weston. She was also a champion for the Mexican people who lovingly referred to her as *Tinisima*. In 1929, Modotti was accused of the murder of Julio Antonio Mella, her Cuban lover. She fled to the U.S.S.R. to escape the Mexican press and then to Europe, where she became a Soviet secret agent and a nurse under an assumed name, returning to Mexico to meet an early death at the age of forty-five. "Poniatowska has made an art form of blending journalism and fiction. She tells this novel in an urgent present tense, segueing among short, vivid scenes with cinematic virtuosity. Ten years of research and a thorough knowledge of the currents of history contribute to this portrait, but equally important is Poniatowska's intuitive appreciation of a woman shaped and destroyed by her tumultuous times."--Publishers Weekly "Poniatowska's profoundly moving evocation of her heroine's boundless soul flows like blood through the carefully erected factual structure of the real Modotti's astonishing life story. . . . A tour de force, *Tinisima* is a work to treasure."--Booklist

The Golden Age of the Spanish Empire would establish five centuries of Western supremacy across the globe and usher in an era of transatlantic exploration that eventually gave rise to the modern world. It was a time of discovery and adventure, of great political and social change-it was a time when Spain learned to rule the world. Assembling a spectacular cast of legendary characters like the Duke of Alba, El Greco, Miguel de Cervantes, and Diego Velázquez, Robert Goodwin brings the Spanish Golden Age to life with the vivid clarity and gripping narrative of an epic novel. From scholars and playwrights, to poets and soldiers, Goodwin is in complete command of the history of this tumultuous and exciting period. But the superstars alone will not tell the whole tale-Goodwin delves deep to find previously unrecorded sources and accounts of how Spain's Golden Age would unfold, and ultimately, unravel. Spain is a sweeping and revealing portrait of Spain at the height of its power and a world at the dawn of the modern age.

In this masterly, deeply personal, and provocative book, the internationally renowned Mexican writer Carlos Fuentes, whose work has been called "a combination of Poe, Baudelaire, and Isak Dinesen" (*Newsweek*), steps back to survey the wellsprings of art and ideology, the events that have shaped our time, and his extraordinary life and fiercest passions. Arranged alphabetically from "Amore" to "Zurich," *This I Believe* takes us on a marvelous inner journey with a great writer. Fuentes ranges wide, from contradictions inherent in Latin American culture and politics to his long friendship with director Luis Buñuel. Along the way, we find reflection on the mixed curse and blessing of globalization; memories of a sexual initiation in Zurich; a fond tracing of a family tree heavy with poets, dreamers, and diplomats; evocations of the streets, cafés, and bedrooms of Washington, Paris, Santiago de Chile, Cambridge, Oaxaca, and New York; and a celebration of literary heroes including Balzac, Cervantes, Faulkner, Kafka, and Shakespeare. Throughout, Fuentes captivates with the power of his intellect and his prose. Here, too, are vivid, often heartbreaking glimpses into his personal life. "Silvia" is a powerful love letter to his beloved wife. In "Children," Fuentes recalls the births of his daughters and the tragic death of his son; in "Cinema" he relives the magic of films such as *Citizen Kane* and *The Wizard of Oz*. Further extending his reach, he examines the collision between history and contemporary life in "Civil Society," "Left," and "Revolution." And he poignantly addresses the experiences we all hold in common as he grapples with beauty, death, freedom, God, and sex. By turns provocative and intimate, partisan and universal, this book is a brilliant summation of an international literary career. Revisiting the influences, commitments, readings, and insights of a lifetime, Fuentes has fashioned a magnificently coherent statement of his view of the world, reminding us once again why reading Fuentes is "like standing beneath the dome of the Sistine Chapel. . . . The breadth and enormity of this accomplishment is breathtaking" (*The Denver Post*).
