Insolvency law reform has become a subject of public urgency in many countries in the past two decades and particularly in much of Asia over the last ten years. This volume provides an overview of insolvency laws and related rules and procedures in the countries of East Asia. The book comprises two introductory chapters dealing with issues such as legal culture and cross-border insolvency, before examining the fourteen principal jurisdictions in the region. Each chapter addresses the key themes of different insolvency regimes, such as: the legal system and culture; personal insolvency laws; corporate insolvency rules; court-based schemes of arrangement; winding-up procedures; liquidators; enforcement; and offences. This title will be an invaluable guide to academics, practitioners and policy makers working in the areas of comparative and commercial law.

Introduction to insolvency laws of CEE countries The first contact with foreign insolvency laws is in most cases as unpleasant as sudden. And even if local bankruptcy counsel has been retained, many questions remain unanswered and it is frequently difficult to put the information coming from the foreign insolvency lawyer in proper perspective. This

compilation, which has been prepared by lawyers practicing in the area of insolvency law at the Wolf Theiss offices in the countries covered by this book, is an attempt to bridge this information gap. It is intended to serve as a quick reference tool for business managers, in-house counsel, lawyers in general practice and other professionals who need to familiarize themselves quickly with some of the most practice-relevant features of the insolvency laws of one or more of the following countries: Albania, Austria, Bosnia/Herzegovina, Bulgaria, Croatia, the Czech Republic, Hungary, Kosovo, Poland, Romania, Serbia, Slovakia, Slovenia and Ukraine. Moreover, this book may be useful to lawyers familiar with insolvency matters in their own jurisdiction, who are looking for a convenient introduction into foreign insolvency laws. The practical focus of this book and its emphasis on restructuring-related topics is underscored by a contribution of Alvarez & Marsal, a global turnaround and forensic advisory firm.

For many years, the functioning of the single European market has made it easy for companies to establish themselves and do business throughout the European Union--unless, that is, they failed. In that case, until recently, a company became subject to the insolvency laws of each individual country. The divergence among these laws seemed far beyond the possibility of harmonisation. During the last few years, however, a twofold development is bringing relief. First, thanks to the European Regulation on Insolvency and the UNCITRAL Model Insolvency Laws, jurisdictional issues can be resolved and determined in cases where more than one country is affected by the insolvency of a particular enterprise. Second--and far more promising--stated EU policy goals urging a convergence in thinking on substantive insolvency issues at the Member State level are bearing fruit in reforms that abandon extreme or unusual features and open more common ground. Spearheading these reforms are statutory corporate insolvency procedures that offer an alternative to liquidation--procedures grouped under the heading of corporate rescue. In this book eleven outstanding European insolvency law specialists, representing

both practitioners and academics, investigate significant changes in corporate rescue laws that have either already been implemented or that are on the law reform agenda. The essays include expert analyses and evaluations of corporate rescue laws in each of six EU Member States--France, Germany, Italy, Spain, Sweden, and the United Kingdom--as well as insightful discussions of the broader European context. Because corporate rescue is the lifeblood of insolvency law, it is likely to be this aspect that has the greatest role to play in the economic and social development of the European Union. For this reason--and because of the obvious beneficial value of corporate rescue in ensuring fair treatment of creditors and protection of debtors, as well as in reducing the level of stigma attached to insolvency--"Corporate Rescue in Europe will be valued by company lawyers and law firms throughout Europe, and in particular to those handling bankruptcy and insolvency proceedings. This latest book in the Straightforward series substantially revises and updates the successful second edition, by detailing changes in the law in 2003. Clearly and concisely written, it is ideal for anyone, be they layperson, professional or student, who wishes to learn more about the subject generally, or who wants first hand advice on this complex area.

The Restructuring Review, edited by Christopher Mallon of Skadden, Arps, Slate, Meagher & Flom LLP, seeks to help general counsel, government agencies and private practice lawyers understand the conditions prevailing in the global restructuring market with a view to the coming year, and to highlight some of the more significant legal and commercial developments and trends that are expected to be significant in the future. As tensions in the Middle East, South East Asia and Russia remain unresolved, and the political implications of Brexit and mass immigration continue to be worked out in Europe and beyond, the realisation is dawning on many that a turn in the economic cycle may be approaching and that the severe economic crisis of 2008-9 may not be an isolated event. This book aims to outline the impact of developments like this on the global restructuring market, with in-depth looks at the issue from local experts in 28 jurisdictions.
