She never asked for the undying loyalty of a necromancer. 1913. Austria-Hungary. Wendel may be devilishly handsome, a charming bastard with the manners of disinherited royalty, but he's an abomination. His skin shivers with the icy fire of necromancy. With one touch, he can raise the dead. Worse still, he's being hunted by assassins from Constantinople, and he would rather die than confess why. Ardis escaped her own dark past, fleeing from America as a fugitive to become a mercenary for the Archmages of Vienna. When she discovers Wendel bleeding out on the battlefield, she saves his life with a ransom in mind. She never asked for him to fall to one knee and declare his undying loyalty, or for tension to smolder hot between them. Especially once she discovers his scars run much deeper than his skin.

Augum, Bridget and Leera want only to study new spells and make their legendary mentor proud. But when she unexpectedly departs on a crucial quest,

they run afoul of a devious old witch and are forced to make a hasty getaway—straight into the hands of a notorious maniac known as the Blade of Sorrows. Prisoners of the Blade and his sadistic apprentice, the trio must face their greatest challenge yet: escape using nothing but an ancient spell with some nasty side effects. But more than their lives are at stake, for an entire kingdom's hopes rest with their mentor—and she's heading for a deadly trap.

Nel quinto capitolo della seconda serie dei Warrior Cats i gatti del Clan cercano di ristabilire i delicati equilibri in cui avevano vissuto nella foresta. Ma il nuovo territorio nasconde parecchie insidie. «Ma come diventeremo leader?», chiese ArtigliodiMora. «Non credo che StelladiFuoco mi nominerà mai vice. Non ho neppure un apprendista». StelladiTigre era visibilmente irritato. «Quando vai a caccia, ti aspetti che i topi ti saltino in bocca? No. Annusi la preda, la inseguì e poi balzi. È lo stesso con il potere. Non arriverà, a meno che non lo cerchi. Entrambi possedete il vero spirito dei guerrieri. So che ce la farete, se seguirete i miei consigli». «Lo faremo!». BrinadiFalco si alzò. «Faremo qualsiasi cosa tu ci dica»!

StrisciaScura si sedette e avvolse la coda intorno alle zampe. «E ora dove andrai?». «A incontrare i miei figli». StelladiTigre fece un'ultima promessa: «StelladiFuoco capirà che non si è ancora liberato di me. Possono anche essergli

rimaste sette vite, ma io gli darò la caccia finché anche l'ultima non gli sarà stata strappata. Non vincerà questa battaglia» Nella loro nuova casa, tra i Clan dei gatti guerrieri la pace è solo apparente. Invidie e vendette sono pronte a esplodere: ArtigliodiMora sceglierà di essere fedele al leader StelladiFuoco, o asseconderà la brama di potere del fratellastro BrinadiFalco? In realtà chi trama nell'ombra è un nemico che si credeva sconfitto per sempre...

We are living a huge economic and financial crisis, the worst that humanity has ever experienced. Some may say that the American crisis of 1929 was much harsher and more dramatic, but it was confined to the United States, while the present one includes the whole world, from the East to the West. As a member of the Fondazione Discepolo (a cultural institution founded by my father, Pasquale Discepolo, an engineer, born in New York on 6 November 1917, which has two executive and / or parallel "extensions": the Museo Mineralogico Campano [Mineralogical Museum of the Campania Region] and the Premio Capo d'Orlando [Capo d'Orlando Prize], founded by Dr. Umberto Celentano), on 23 May 2011, I had the great honour of participating in an extremely interesting conference held by the Nobel Prize for Economy Paul Krugman, who had been invited and awarded a prize by the Fondazione Discepolo at Vico Equense (a nice little city near Napoli and Sorrento). Paul Krugman's conference was of extraordinary

interest, and touched upon the themes that were the premise for me writing this book in which I offer my almost 43 years of experience on the topic of money. In this book, I also wish to offer some advice to improve one's financial situation as concerns both the family and/or the individual.

A fascinating exploration of the connection between profit making and morality, this book illustrates how modern accounting had its roots in the sacrament of confession. Double-entry bookkeeping (DEB), modern capitalism's first and foremost calculative technology, was "invented" during the Middle Ages when profit making was morally stigmatized. James Aho examines the problematic of moneymaking and offers an explanatory understanding of the paradoxical coupling of profit seeking and morality by situating DEB in the religious circumstances from which it emerged, specifically the newly instituted sacrament of penance, that is, confession. Confession impacted the consciences of medieval businessmen both through its sacramental form and through its moral teachings. The form of confession produced widespread habits of moral scrupulosity (leading to compulsive record keeping); the content of confession taught that commerce itself was morally suspect. Scrupulous businessmen were thus driven to justify their affairs to church, commune, and themselves. With the

aid of DEB, moneymaking was “Christianized” and Christianity was made more amenable to the pursuit of wealth. Although DEB is typically viewed exclusively as a scientifically neutral account of the flow of money through a firm, it remains as it was originally devised, a rhetorical argument. James Aho is Professor of Sociology at Idaho State University and is the author of many books, including *The Things of the World: A Social Phenomenology* and *The Orifice as Sacrificial Site: Culture, Organization, and the Body*.

In 1775 Prince Marcantonio Borghese IV and the architect Antonio Asprucci embarked upon a decorative renovation of the Villa Borghese. Initially their attention focused on the Casino, the principal building at the villa, which had always been a semi-public museum. By 1625 it housed much of the Borghese's outstanding collection of sculpture. Integrating this statuary with vast baroque ceiling paintings and richly ornamented surfaces, Asprucci created a dazzling and unified homage to the Borghese family, portraying its legendary ancestors as well as its newly born heir. In this book, Carole Paul reads the inventive decorative program as a set of exemplary scenes for the education of the ideal Borghese prince. Her wide-ranging essay also situates the Villa Borghese among the sumptuous palaces and suburban villas of Rome's collectors of antiquities and outlines the renovated Casino's pivotal role in the historic transition from the

princely collection to the public museum. Rounding out this volume is a catalog of the Getty Research Institute's fifty-nine drawings for the refurbishing of the Villa Borghese and Alberta Campitelli's discussion of sketches for the short-lived Museo di Gabii, the Villa's other antiquities museum.

In *HARDPRESSED*, the highly anticipated second book of the Hacker Series that began with *Hardwired*, Blake and Erica face threats that put both their love and their lives on the line. Internet entrepreneur Erica Hathaway broke down the walls that kept her from opening her heart and her business to Blake. Ready to start this new chapter in her life, Erica is determined not to let anything come between them, even if that means giving Blake back some of the control he craves in and out of the bedroom. But when demons from her past threaten their future, Erica makes a decision that could change their lives forever.

"My house is the red earth; it could be the center of the world." This is Navajo country, a land of mysterious and delicate beauty. "Stephen Strom's photographs lead you to that place," writes Joy Harjo. "The camera eye becomes a space you can move through into the powerful landscapes that he photographs. The horizon may shift and change all around you, but underneath it is the heart with which we

move." Harjo's prose poems accompany these images, interpreting each photograph as a story that evokes the spirit of the Earth. Images and words harmonize to evoke the mysteries of what the Navajo call the center of the world. In a forgotten part of Middle America, a defiant act leaves one man dead and one teenage girl faced with a stark decision that could mean losing everything. Amy Wirkner, a high school senior in Barnesville, Ohio, is a loner, nicknamed "Chevy" for her size. She's smart, funny, and absolutely determined to escape from her small town in the Ohio Valley, a place poisoned by fracking. She does well in school despite the cruelty of her classmates and has her eyes on a college scholarship, so she can one day become a veterinarian and make something of herself. But even as she tries to keep her head down and stay out of trouble, trouble seems to find her. Believing toxic water has poisoned her family, Amy one night becomes involved in an act of ecoterrorism against a local fracking company that goes terribly wrong. Her oldest friend Paul, as angry and defiant as she is, has drawn her into this dark world—and now a man is dead as a result. But Amy can't—won't—let one night's mistake stand in the way of her plans. Touching on important topics as wide-ranging as ethnic hatred, police corruption, environmental decay, and gun violence, *Lady Chevy* is one girl's story that highlights the darkest parts of modern America with surprising results.

This book presents a semiotic study of the re-elaboration of Christian narratives and values in a corpus of Italian novels published after the Second Vatican Council (1960s). It tackles the complex set of ideas expressed by Italian writers about the biblical narration of human origins and traditional religious language and ritual, the perceived clash between the immanent and transcendent nature and role of the Church, and the problematic notion of sanctity emerging from contemporary narrative.

Un'affascinante e documentata storia dei servizi segreti dai faraoni alla Cia, passando per Napoleone, l'Unione sovietica e le due Germanie. Did you ever look into the eyes of an animal and wonder if they could understand you? Have you ever fantasized about how great it would be for you to understand what they thought? In this fascinating book Gerald Bunch relates his journey from Naval Officer/engineer/left-brained empiricist to intuitive animal communicator. He explains that intuitive communication is a capability we are all born with and we can each re-learn. In sharing many of the conversations he has had with various species, he takes us into the world as experienced by animals. He describes how we can deepen the bond we have with our animal companions and how their love and devotion to us can change our lives. His study of quantum physics helped him bridge the gap between hard science and telepathy, but he stresses it is not necessary to know how animal communication works, only that it does work. All the time. Gerald and his buddy Oscar the Cat are on an odyssey. Their passion is to make the world a better place for all of its

The first-ever detailed, comprehensive history of intelligence, from Moses and Sun Tzu to the present day The history of espionage is far older than any of today's intelligence agencies, yet the long history of intelligence operations has been largely forgotten. The codebreakers at Bletchley Park, the most successful World War II intelligence agency, were completely unaware that their predecessors in earlier moments of national crisis had broken the codes of Napoleon during the Napoleonic wars and those of Spain before the Spanish Armada. Those who do not understand past mistakes are likely to repeat them. Intelligence is a prime example. At the outbreak of World War I, the grasp of intelligence shown by U.S. President Woodrow Wilson and British Prime Minister Herbert Asquith was not in the same class as that of George Washington during the Revolutionary War and leading eighteenth-century British statesmen. In this book, the first global history of espionage ever written, distinguished historian Christopher Andrew recovers much of the lost intelligence history of the past three millennia—and shows us its relevance.
