AN INSTANT #1 NEW YORK TIMES BESTSELLER? Named one of the most anticipated novels of the season by People, Associated Press, Time, Los Angeles Times, Parade, St. Louis Post-Dispatch, The Guardian, Publishers Weekly, and more. From the #1 bestselling authors Hillary Clinton and Louise Penny comes a novel of unsurpassed thrills and incomparable insider expertise—*State of Terror*. After a tumultuous period in American politics, a new administration has just been sworn in, and to everyone's surprise the president chooses a political enemy for the vital position of secretary of state. There is no love lost between the president of the United States and Ellen Adams, his new secretary of state. But it's a canny move on the part of the president. With this appointment, he silences one of his harshest critics, since taking the job means Adams must step down as head of her multinational media conglomerate. As the new president addresses Congress for the first time, with Secretary Adams in attendance, Anahita Dahir, a young foreign service officer (FSO) on the Pakistan desk at the State Department, receives a baffling text from an anonymous source. Too late, she realizes the message was a hastily coded warning. What begins as a series of apparent terrorist attacks is revealed to be the beginning of an international chess game involving the volatile and Byzantine politics of Pakistan, Afghanistan, and Iran; the race to develop nuclear weapons in the region; the Russian mob; a burgeoning rogue terrorist organization; and an American government set back on its heels in the international arena. As the horrifying scale of the threat becomes clear, Secretary Adams and her team realize it has been carefully planned to take advantage of four years of an American government out of touch with international affairs, out of practice with diplomacy, and out of power in the places where it counts the most. To defeat such an intricate, carefully constructed conspiracy, it will take the skills of a unique team: a passionate young FSO; a dedicated journalist; and a smart, determined, but as yet untested new secretary of state. *State of Terror* is a unique and utterly compelling international thriller cowritten by Hillary Rodham Clinton, the 67th secretary of state, and Louise Penny, a multiple award-winning #1 New York Times bestselling novelist.

The Founding Fathers of the United States of America created the first free people in modern times. They wrote a new kind of Constitution which is now the oldest in existence. They built a new kind of commonwealth designed as a model for the whole human race. They believed it was thoroughly possible to create a new kind of civilization; giving freedom, equality, and justice to all. The Founders created a new cultural climate that gave wings to the human spirit. They built a free-enterprise culture to encourage industry and prosperity. They gave humanity the needed ingredients for a gigantic 5,000-year leap in which more progress has been made in the past 200 years than all of prior recorded human history. All of this came about because of 28 basic principles the Founders discovered, upon which all free nations must be built in order to succeed. This eBook includes the original index, footnotes, table of contents and page numbering from the printed format, and also new illustrations.

The Mises Institute is thrilled to bring back this popular guide to ridiculous economic policy from the ancient world to modern times. This outstanding history illustrates the utter futility of fighting the market process through legislation. It always uses despotic measures to yield socially catastrophic results. It covers the ancient world, the Roman Republic and Empire, Medieval Europe, the first centuries of the U.S. and Canada, the French Revolution, the 19th century, World Wars I and II, the Nazis, the Soviets, postwar rent control, and the 1970s. It also includes a very helpful conclusion spelling out the theory of wage and price controls. This book is a treasure, and super entertaining!

An examination of the ideas and events that led to World War II, events during the war, and how they led to subsequent wars, including the "war on terror," written as a series of letters from a man to his niece or nephew.

"A Bluestocking Guide: Economics" is a multi-age level book designed to reinforce and enhance a student's understanding of the subject matter presented in the primer "Whatever Happened to Penny Candy?" an Uncle Eric book by Richard J. Maybury. Recounts the harrowing voyage of Timothy Severin and his crew across the North Atlantic in a thirty-six-foot leather boat, to prove the legend that a sixth-century Irish monk, St. Brendan, could have reached North America.

Presents an easy-to-understand discussion of the United States government, including the Constitution, civil liberties and rights, the different governmental branches, and how the original democracy of the nation differs from that of today.

In this extensively revised and expanded second edition, Uncle Eric introduces the concept of model. Models (or paradigms) are how people think; they are how we understand our world. Models help us recognize and use the information that is important and bypass that which is not. To achieve success in our careers, investments, and every other part of our lives, we need sound models. In this book, Mr. Maybury introduces the models he has found most useful (Economics and Higher Law). This is the first book in the Uncle Eric series and, while designed to stand alone, provides an excellent foundation for Maybury's other books. Quality paper, 5-1/2" x 8-1/2", 192 pages.
