An American bioengineering research firm erects a theme park on a Caribbean island, complete with living dinosaurs, and invites a group of scientists to be its first terrified guests.

Administrators of museums and other informal-learning centers often need to demonstrate, in some tangible way, the effectiveness of their institutions as teaching tools. Practical Evaluation Guide discusses specific methods for analyzing audience learning and behavior in museums, zoos, botanic gardens, nature centers, camps, and youth programs. This new edition incorporates the many advances in the burgeoning field of informal learning that have been made over the past decade. Practical Evaluation Guide serves as a basic, easy-to-follow guide for museum professionals and students who want to understand the effects of such public institutions on the people who visit them.

Frightened, lonely, and angry after her father is killed in a car accident, Clare is helped through the grieving process by her mother and grandfather.

Book intended for children which explains death by presenting life as having a beginning and an end, with an appropriate 'Lifetime' in between. The length of this lifetime varies according to the type of living thing and is affected by illness and injury. The illustrator was awarded the Hans Christian Andersen Medal in 1986.

THE STORY: Kerr, in the NY Herald-Tribune, describes: This, says Mr. Williams through the most sympathetic voice among his characters, 'is a true story about the time and the world we live in.' He has made it seem true--or at least curiously and so Get ready to roar with this updated edition of DK's beloved Big Book of Dinosaurs Dinosaurs fascinate young children, and this colorful catalog of those mysterious creatures from the past will keep even toddlers entertained for hours. Children will love spotting and learning to name all the different dinosaurs--from the fierce, meat-eating Tyrannosaurus and the long-necked, plant-eating Diplodocus to the armor-plated Stegosaurus and the tiny, hen-sized Compsognathus.

Eight-year-old Jack and his younger sister Annie find a magic treehouse, which whisks them back to an ancient time zone where they see live dinosaurs.

When children lose someone they love, life is never the same. In this sympathetic book, the authors advocate an open, honest approach, suggesting that our instinctive desire to "protect" children from the reality of death may be more harmful than helpful.

What Does Dead Mean? is a beautifully illustrated book that guides children gently through 17 of the 'big' questions they often ask about death and dying. Questions such as 'Is being dead like sleeping?', 'Why do people have to die?' and 'Where do dead people go?' are answered simply, truthfully and clearly to help adults explain to children what happens when someone dies. Prompts encourage children to explore the concepts by talking about, drawing or painting what they think or feel about the questions and answers. Suitable for children aged 4+, this is an ideal book for parents and carers to read with their children, as well as teachers, therapists and counsellors working with young children.

Here is the book that Elf-help fans everywhere were asking for . . . a book to help children grieve in healthy ways. This friendly and loving guide is loaded with positive, life-affirming help to coping with loss as a child.

When the death of a relative, a friend, or a pet happens or is about to happen . . . how can we help a child to understand? Lifetimes is a moving book for children of all ages, even parents too. It lets us explain life and death in a sensitive, caring, beautiful way. Lifetimes tells us about beginnings. And about endings. And about living in between. With large, wonderful illustrations, it tells about plants. About animals.

About people. It tells that dying is as much a part of living as being born. It helps us to remember. It helps us to understand. Lifetimes . . . a very special, very important book for you and your child. The book that explains—beautifully—that all living things have their own special Lifetimes.

Coloring pages (80 pages) - Each dinosaur (40 in total, from field guide) will have a 2 page spread. ? On the left will be fun facts/a different type of activity (search and find/word search/coloring based on a fact like as long as a school bus). ? On the right will be the dinosaur for them to color in. Field guide experiment pages (~16 pages)- Guided experiments for kids to do. The way we learn about dinosaurs is comparing them to animals today. Examples:- Finding an animal footprint (and drawing that in) and comparing with a dino footprint in the book. - Pasting in outdoor samples (e.g. leaves)- Draw a bird and compare- Some blank pages for kids to fill in with their own dino experiments (or experiments of any kind!)

Most people view movie posters as an expensive form of expendable advertising. Others, however, see the posters as valuable art. If you are in the latter category, this is the work for you. All facets of collecting movie posters are covered in this guide book. The history of the movie poster is first presented, including a look at how the early studios influenced the development of posters. Next is a brief look at the world of movie art collecting. This is followed by a reference section that provides comprehensive explanations of the most commonly used terms in the field. Getting your collection started is the next topic, giving novice and more experienced collectors information on publications and materials available, where to go to purchase posters, where to go for help and other items. A concluding section details the proper care and handling of movie art materials, along with methods for restoration.

"THE ULTIMATE DINOSAUR BIOGRAPHY," hails Scientific American: A thrilling new history of the age of dinosaurs, from one of our finest young scientists. A New York Times Bestseller • Goodreads Choice Awards WINNER A BEST BOOK OF THE YEAR: Smithsonian, NPR Science Friday, The Times (London), Popular Mechanics, Science News, Library Journal, Booklist, and Chicago Public Library "A masterpiece of science writing." —Washington Post "This is scientific storytelling at its most visceral, striding with the beasts through their Triassic dawn, Jurassic dominance, and abrupt demise in the Cretaceous." —Nature The dinosaurs. Sixty-six million years ago, the Earth's most fearsome creatures vanished. Today they remain one of our planet's great mysteries. Now *The Rise and Fall of the Dinosaurs* reveals their extraordinary, 200-million-year-long story as never before. In this captivating narrative (enlivened with more than seventy original illustrations and photographs), Steve Brusatte, a young American paleontologist who has emerged as one of the foremost stars of the field—naming fifteen new species and leading groundbreaking scientific studies and fieldwork—masterfully tells the complete, surprising, and new history of the dinosaurs, drawing on cutting-edge science to dramatically bring to life their lost world and illuminate their enigmatic origins, spectacular flourishing, astonishing diversity, cataclysmic extinction, and startling living legacy. Captivating and revelatory, *The Rise and Fall of the Dinosaurs* is a book for the ages. Brusatte traces the evolution of dinosaurs from their inauspicious start as small shadow dwellers—themselves the beneficiaries of a mass extinction caused by volcanic eruptions at the beginning of the Triassic period—into the dominant array of species every wide-eyed child memorizes today, T. rex, Triceratops, Brontosaurus, and more. This gifted scientist and writer re-creates the dinosaurs' peak during the Jurassic and Cretaceous, when thousands of species thrived, and winged and feathered dinosaurs, the prehistoric ancestors of modern birds, emerged. The story continues to the end of the Cretaceous period, when a giant asteroid or comet struck the planet and nearly every dinosaur species (but not all) died out, in the most extraordinary extinction event in earth's history, one full of lessons for today as we confront a "sixth extinction." Brusatte also recalls compelling stories from his globe-trotting expeditions during one of the most exciting eras in dinosaur research—which he calls "a new golden age of discovery"—and offers thrilling accounts of some of the remarkable findings he and his colleagues have made, including primitive human-sized tyrannosaurs; monstrous carnivores even larger than T. rex; and paradigm-shifting feathered raptors from China. An electrifying scientific history that unearths the dinosaurs' epic saga, *The Rise and Fall of the Dinosaurs* will be a definitive and treasured account for decades to come. Includes 75 images, world maps of the prehistoric earth, and a dinosaur family tree.

The authors explain in simple language the feelings people may have regarding the death of a loved one and the ways to honor the memory of someone who has died.

For ages 3-9... "Whistler's Last Song" is a comforting, educational story parents can read together with their children to help address the most common misconceptions about death when coping with the loss of a loved one. Set deep in the forest, "Whistler's Last Song" tells the story of the Leaf family's son, Whistler, who was born with a hole in his tummy. Each time the winds blow across his belly, it creates a peaceful melody for the whole forest to hear. As time goes on, the heavy winds against Whistler's tummy cause his stem to tear more and more from the tree where he lives with his family. As Whistler's last night approaches, the animals of the forest gather around the tree to voice their questions about death and dying to the wise Papa Oak. The love and support Papa Oak provides brings peace to both the animals and reader alike.

This adorable board book is die-cut in the shape of a dinosaur, and is jam-packed with interesting facts and full-color illustrations. When it comes to the Steg, it may have been slow-moving, but it wasn't easy prey! Its long spiked tail helped it easily fend off predators.

Teaches young children the names and basic characteristics of different dinosaurs. On board pages.
