"I too am not a bit tamed—I too am untranslatable / I sound my barbaric yawp over the roofs of the world."—Walt Whitman, "Song of Myself," Leaves of Grass The American Yawp is a free, online, collaboratively built American history textbook. Over 300 historians joined together to create the book they wanted for their own students—an accessible, synthetic narrative that reflects the best of recent historical scholarship and provides a jumping-off point for discussions in the U.S. history classroom and beyond. Long before Whitman and long after, Americans have sung something collectively amid the deafening roar of their many individual voices. The Yawp highlights the dynamism and conflict inherent in the history of the United States, while also looking for the common threads that help us make sense of the past. Without losing sight of politics and power, The American Yawp incorporates transnational perspectives, integrates diverse voices, recovers narratives of resistance, and explores the complex process of cultural creation. It looks for America in crowded slave cabins, bustling markets, congested tenements, and marbled halls. It navigates between maternity wards, prisons, streets, bars, and boardrooms. The fully peer-reviewed edition of The American Yawp will be available in two print volumes designed for the U.S. history survey. Volume I begins with the indigenous people who called the Americas home before chronicling the collision of Native Americans, Europeans, and Africans. The American Yawp traces the development of colonial society in the context of the larger Atlantic World and investigates the origins and ruptures of slavery, the American Revolution, and the new nation's development and rebirth through the Civil War and Reconstruction. Rather than asserting a fixed narrative of American progress, The American Yawp gives students a starting point for asking their own questions about how the past informs the problems and opportunities that we confront today.

Amer-European settlement of the Great Plains transformed bountiful Native soil into pasture and cropland, distorting the prairie ecosystem that the peoples who originally populated the land had long understood and were able to use wisely. Settlers justified this transformation with the unexamined premise of deficiency, according to which the vast area of the Great Plains was inadequate in flora and fauna and lacking in the advances of modern civilization. Drawing on history, literature, art, and economic theory, Frances W. Kaye counters the argument of deficiency, pointing out that, in its original ecological state, no region can possibly be incomplete. Goodlands examines the settlers' misguided theory, discussing the ideas that shaped its implementation, the forces that resisted it, and Indigenous ideologies about what it meant to make good use of the land. By suggesting methods for redeveloping the Great Plains that are based on native cultural values, Kaye points the way to a balanced and sustainable future for the region in the context of a changing globe. Frances W. Kaye is professor of English at the University of Nebraska. She is the author of Hiding the Audience: Arts and Arts Institutions on the Prairies. Kaye divides her time between a farmstead outside Lincoln, Nebraska, and a house in Calgary, so that she may always be close to the prairie land that drives her research.

Spring is in the air, and everyone's favorite old lady is ready to celebrate!

Ter'ra in'fir'ma, n. 1. Shaky ground. 2. The uneasy shared territory of love and painful separation that defines mother and son. 3. The border between life and death. 4. The precariously emotional place in which we are left after the death of a parent. 5. The mythic terrain a boy passes through on the way to becoming a man. 6. The material from which a writer must craft his story. "Inside a mother, each of us begins a dream," writes Rodger Kamenetz. Actually, two: a mother's dream for her child, and the dream that will become a person. For Kamenetz, crossing the terra infirma--the place where the two collide--was not easy: his mother was a difficult woman who had loved her family with a tyrannical passion. Only as she was losing her battle with cancer at age fifty-four could her son begin to take the essential first step toward becoming a man, thereby fulfilling both of their dreams. Rich with humor and insight, Terra Infirmis is a deeply moving account of one man's spiritual passage to the firmer ground of maturity and self-understanding. Louis Zamperini, a clever young delinquent turned Olympic runner, became an airman when the war came. In 1943 his plane crashed into the Pacific Ocean, where sharks, a sinking raft, thirst, starvation, and enemy aircraft, tested his will and endurance.

Illus. in full color. "Mr. Piggott and his sons are a male chauvinist lot who, outside of yelling for their dinner, don't exercise themselves much around the house. When Mrs. Piggott finally tires of the endless chores that sandwich her workday, she leaves the menfolk on their own, with a note saying, 'You are pigs.' With the cooking and housework untended, they soon turn genuinely porcine, a transformation Browne foreshadows with pig faces on the wallpaper, vases, fireplace, phone. As in most of Browne's art, there is more than a touch of irony and visual humor here. Fun to read aloud."--Bulletin, Center for Children's Books.
