Pride and Prejudice gets remixed in this smart, funny, gorgeous retelling of the classic, starring all characters of color, from Ibi Zoboi, National Book Award finalist and author of *American Street*. Zuri Benitez has pride. Brooklyn pride, family pride, and pride in her Afro-Latino roots. But pride might not be enough to save her rapidly gentrifying neighborhood from becoming unrecognizable. When the wealthy Darcy family moves in across the street, Zuri wants nothing to do with their two teenage sons, even as her older sister, Janae, starts to fall for the charming Ainsley. She especially can't stand the judgmental and arrogant Darius. Yet as Zuri and Darius are forced to find common ground, their initial dislike shifts into an unexpected understanding. But with four wild sisters pulling her in different directions, cute boy Warren vying for her attention, and college applications hovering on the horizon, Zuri fights to find her place in Bushwick's changing landscape, or lose it all. In a timely update of Jane Austen's *Pride and Prejudice*, critically acclaimed author Ibi Zoboi skillfully balances cultural identity, class, and gentrification against the heady magic of first love in her vibrant reimagining of this beloved classic.

Poor Abraham Lincoln! His life was hardly fun at all. A country torn in two by war, citizens who didn't like him as president, a homely appearance—what could there possibly be to laugh about? And yet he did laugh. Lincoln wasn't just one of our greatest presidents. He was a comic storyteller and a person who could lighten a grim situation with a clever quip. This unusual biography of Lincoln highlights his life and presidency, focusing on what made his sense of humor so distinctive—and so necessary to surviving his tough life and times.

Beloved, best-selling science writer Mary Roach's "acutely entertaining, morbidly fascinating" (Susan Adams, *Forbes*) classic, now with a new epilogue. For two thousand years, cadavers – some willingly, some unwittingly – have been involved in science's boldest strides and weirdest undertakings. They've tested France's first guillotines, ridden the NASA Space Shuttle, been crucified in a Parisian laboratory to test the authenticity of the Shroud of Turin, and helped solve the mystery of TWA Flight 800. For every new surgical procedure, from heart transplants to gender confirmation surgery, cadavers have helped make history in their quiet way. "Delightful—though never disrespectful" (Les Simpson, *Time Out New York*), *Stiff* investigates the strange lives of our bodies postmortem and answers the question: What should we do after we die? "This quirky, funny read offers perspective and insight about life, death and the medical profession. . . . You can close this book with an appreciation of the miracle that the human body really is." —Tara Parker-Pope, *Wall Street Journal* "Gross, educational, and unexpectedly sidesplitting."

An intimate, moving portrait of Abraham Lincoln as rarely seen—through the eyes of his children—and captured in exquisite illustrations. Historians claim him as one of America's most revered presidents. But to his rambunctious sons, Abraham Lincoln was above all a playful and loving father. Here is Lincoln as seen by two of his boys: Willie, thrilled to be on his first train trip when Lincoln was deciding to run for president; Willie and Tad barging into Cabinet meetings to lift Lincoln's spirits in the early days of the Civil War, Tad accompanying him to Richmond just after the South's defeat. With the war raging and the Union under siege, we see history unfolding through Willie's eyes and then through Tad's -- and we see Lincoln rising above his own inborn sadness and personal tragedy through his devotion to his sons. With evocative and engaging illustrations by P.J. Lynch, Rosemary Wells offers a carefully researched biography that gives us a Lincoln not frozen in time but accessible and utterly real. Back matter includes an author's note.

#1 NEW YORK TIMES BESTSELLER • Discover the life-changing memoir that has inspired millions of readers through the Academy Award®-winning actor's unflinching honesty, unconventional wisdom, and lessons learned the hard way about living with greater satisfaction. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE GUARDIAN "McConaughey's book invites us to grapple with the lessons of his life as he did—and to see that the point was never to win, but to understand."—Mark Manson, author of The Subtle Art of Not Giving a F\*ck I've been in this life for fifty years, been trying to work out its riddle for forty-two, and been keeping diaries of clues to that riddle for the last thirty-five. Notes about successes and failures, joys and sorrows, things that made me marvel, and things that made me laugh out loud. How to be fair. How to have less stress. How to have fun. How to hurt people less. How to get hurt less. How to be a good man. How to have meaning in life. How to be more me. Recently, I worked up the courage to sit down with those diaries. I found stories I experienced, lessons I learned and forgot, poems, prayers, prescriptions, beliefs about what matters, some great photographs, and a whole bunch of bumper stickers. I found a reliable theme, an approach to living that gave me more satisfaction, at the time, and still: If you know how, and when, to deal with life's challenges—how to get relative with the inevitable—you can enjoy a state of success I call "catching greenlights." So I took a one-way ticket to the desert and wrote this book: an album, a record, a story of my life so far. This is fifty years of my sights and seens, felts and figured-outs, cools and shamefuls. Graces, truths, and beauties of brutality. Getting away withs, getting caughts, and getting wets while trying to dance between the raindrops. Hopefully, it's medicine that tastes good, a couple of aspirin instead of the infirmary, a spaceship to Mars without needing your pilot's license, going to church without having to be born again, and laughing through the tears. It's a love letter. To life. It's also a guide to catching more greenlights—and to realizing that the yellows and reds eventually turn green too. Good luck.

On the night of the 1876 presidential election, a gang of counterfeiters attempted to steal the entombed embalmed body of Abraham Lincoln and hold it for ransom. Craughwell returns to this bizarre, and largely forgotten, event with the first book to place the grave robbery in historical context. This rousing story of hapless con men, intrepid federal agents, and ordinary Springfield citizens offers an unusual glimpse into late-nineteenth-century America.

This book acts as a battering ram against the distortions, myths and outright lies that have been shoved down our throats by the government, the media, corporations, organized religion, the scientific establishment and others who want to keep the truth from us. A group of researchers - investigative reporters, political dissidents, academics, media watchdogs, scientist-philosophers, social critics and rogue scholars - paints a picture of a world where crucial stories are ignored or actively suppressed and the official version of events has more holes in it than Swiss cheese. A world where real dangers are downplayed and nonexistent dangers are trumpeted. In short, a world where you are being lied to. You'll discover that a human being has already been cloned; Joseph McCarthy was not paranoid; museums refuse to display artifacts that conflict with the theory of evolution; the CIA has admitted to involvement in the drug trade; parents don't affect who their children become; plus further revelations involving Columbine, WWII, textbooks, Al Gore, George W. Bush, Timothy Leary and much more.
