

## While Out Of My Body I Saw God Hell And The Living Dead

Many people look in the mirror and are dissatisfied with their bodies. They see a seat too big and a chest too small, an enormous nose or beady eyes. Psalm 139 tells us how God feels about our bodies. We get the “fearful” part; it’s the “wonderful” we’re not so sure about.

It’s 2127, and the future is at stake . . . Abdi Taalib thought he was moving to Australia for a music scholarship. But after meeting the beautiful and brazen Tegan Oglietti, his world was turned upside down. Tegan’s no ordinary girl - she died in 2027, only to be frozen and brought back to life in Abdi’s time, 100 years later. Now, all they want is for things to return to normal (or as normal as they can be), but the government has other ideas. Especially since the two just spilled the secrets behind Australia’s cryonics project to the world. On the run, Abdi and Tegan have no idea who they can trust - and, when they uncover startling new details about the program, they realize that thousands of lives may be in their hands. Karen Healey offers a suspenseful, page-turning companion to *When We Wake* that will keep readers on the edge of their seats and make them call into question their own ideas about morality -- and mortality, too.

The companion to our bestselling book, *The Care & Keeping of You*, received its own all-new makeover! This updated interactive journal allows girls to record their moods, track their periods, and keep in touch with their overall health and well-being. Tips, quizzes, and checklists help girls understand and express what’s happening to their bodies - and their feelings about it.

This dramatic and sustained response to decades of research into near-death experiences (NDEs) is the first book to credibly bridge the gap between the competing factions of science and spirituality. Neither a religious argument touting NDEs as hard evidence for God, nor a scientific rebuke to religious interpretations, it balances investigation of these much-reported yet baffling phenomena, and brings fresh urgency to the study of our hopes for a life beyond.

A New York Times Bestseller A Washington Post Notable Nonfiction Book of 2020 Named a Best Book of 2020 by NPR “A fascinating scientific, cultural, spiritual and evolutionary history of the way humans breathe—and how we’ve all been doing it wrong for a long, long time.” —Elizabeth Gilbert, author of *Big Magic* and *Eat Pray Love* No matter what you eat, how much you exercise, how skinny or young or wise you are, none of it matters if you’re not breathing properly. There is nothing more essential to our health and well-being than breathing: take air in, let it out, repeat twenty-five thousand times a day. Yet, as a species, humans have lost the ability to breathe correctly, with grave consequences. Journalist James Nestor travels the world to figure out what went wrong and how to fix it. The answers aren’t found in pulmonology labs, as we might expect, but in the muddy digs of ancient burial sites, secret Soviet facilities, New Jersey choir schools, and the smoggy streets of São Paulo. Nestor tracks down men and women exploring the hidden science behind ancient breathing practices like Pranayama, Sudarshan Kriya, and Tummo and teams up with pulmonary tinkerers to scientifically test long-held beliefs about how we breathe. Modern research is showing us that making even slight adjustments to the way we inhale and exhale can jump-start athletic performance; rejuvenate internal organs; halt snoring, asthma, and autoimmune disease; and even straighten scoliotic spines. None of this should be possible, and yet it is. Drawing on thousands of years of medical texts and recent cutting-edge studies in pulmonology, psychology, biochemistry, and human physiology, *Breath* turns the conventional wisdom of what we thought we knew about our most basic biological function on its head. You will never breathe the same again.

Americans have built an empire on the idea of “race,” a falsehood that damages us all but falls most heavily on the bodies of black women and men—bodies exploited through slavery and segregation, and, today, threatened, locked up, and murdered out of all proportion. What is it like to inhabit a black body and find a way to live within it? And how can we all honestly reckon with this fraught history and free ourselves from its burden? *Between the World and Me* is Ta-Nehisi Coates’s attempt to answer these questions in a letter to his

adolescent son. Coates shares with his son—and readers—the story of his awakening to the truth about his place in the world through a series of revelatory experiences, from Howard University to Civil War battlefields, from the South Side of Chicago to Paris, from his childhood home to the living rooms of mothers whose children's lives were taken as American plunder. Beautifully woven from personal narrative, reimagined history, and fresh, emotionally charged reportage, *Between the World and Me* clearly illuminates the past, bravely confronts our present, and offers a transcendent vision for a way forward.

From a hospital admittance to discharge to outpatient rehabilitation, *Spinal Cord Injuries* addresses the wide spectrum of rehabilitation interventions and administrative and clinical issues specific to patients with spinal cord injuries. Comprehensive coverage includes costs, life expectancies, acute care, respiratory care, documentation, goal setting, clinical treatment, complications, and activities of daily living associated with spinal cord patients. In addition to physical therapy interventions and family education components, this resource includes content on incidence, etiology, diagnosis, and clinical features of spinal cord injury. Case Studies with clinical application thinking exercises help you apply knowledge from the book to real life situations. Thoroughly referenced, evidence-based content provides the best evidence for treatment based on the most current research. Tables and boxes throughout each chapter organize and summarize important information for quick reference. Clinical Note boxes provide at-a-glance access to helpful tips. Over 500 clinical photos, line drawings, radiographs, and more bring important concepts to life. Highly respected experts in spinal cord injury rehabilitation, editors Sue Ann Sisto, Erica Druin, and Martha Sliwinski, provide authoritative guidance on the foundations and principles of practice for spinal cord injury. Companion DVD includes video clips of the techniques described throughout the book that demonstrate how to apply key concepts to practice.

Colton is Juno's best friend. He'd usually be the one she goes to for advice on what do you do when you fall in love with your best friend. You only have yourself to blame—you're the one who matched him and now he's engaged to be married. When you find yourself in this position there's a few secrets you're going to need to keep... Secret #1 – Smile when he tells you the happy news, even if your heart cracks in half. Secret #2 – Don't compare yourself to his beautiful French fiancée. You're just as beautiful. Secret #3 – Don't tag along to the tux fitting with him alone. Just no. Secret #4 – Don't help him learn to dance to his wedding song. Secret #5 – Erase all memories of the two of you through the years when lines blurred for even the briefest of moments. And the one you never saw coming... Secret #6 – Definitely, don't stand and object—someone else might just do it for you.

A deeply honest investigation of what it means to be a woman and a commodity from Emily Ratajkowski, the archetypal, multi-hyphenate celebrity of our time Emily Ratajkowski is an acclaimed model and actress, an engaged political progressive, a formidable entrepreneur, a global social media phenomenon, and now, a writer. Rocketing to world fame at age twenty-one, Ratajkowski sparked both praise and furor with the provocative display of her body as an unapologetic statement of feminist empowerment. The subsequent evolution in her thinking about our culture's commodification of women is the subject of this book. *My Body* is a profoundly personal exploration of feminism, sexuality, and power, of men's treatment of women and women's rationalizations for accepting that treatment. These essays chronicle moments from Ratajkowski's life while investigating the culture's fetishization of girls and female beauty, its obsession with and contempt for women's sexuality, the perverse dynamics of the fashion and film industries, and the grey area between consent and abuse. Nuanced, unflinching, and incisive, *My Body* marks the debut of a fierce writer brimming with courage and intelligence.

This is the story of a man who has a spontaneous out of body experience, which he finds he is able to repeat. After several exhilarating astral episodes, he discovers on his next projection that the daughter of a friend has been possessed by evil spirits. He discovers further that he can actually see the evil spirit forms, and during his attempt to help, the evil spirits discover him, and his odyssey begins.

"Blackness is an art, not a science. It is a paradox: intangible and visceral; a situation and a story. It is the thread that connects these essays, but its significance as an experience emerges randomly, unpredictably. . . . Race is the story of my life, and therefore black is the body of this book." In these twelve deeply personal, connected essays, Bernard details the experience of growing up black in the south with a family name inherited from a white man, surviving a random stabbing at a New Haven coffee shop, marrying a white man from the North and bringing him home to her family, adopting two children from Ethiopia, and living and teaching in a primarily white New England college town. Each of these essays sets out to discover a new way of talking about race and of telling the truth as the author has lived it. "Black Is the Body is one of the most beautiful, elegant memoirs I've ever read. It's about race, it's about womanhood, it's about friendship, it's about a life of the mind, and also a life of the body. But more than anything, it's about love. I can't praise Emily Bernard enough for what she has created in these pages."

"Astute and consistently surprising critic" (NPR) Olivia Laing investigates the body and its discontents through the great freedom movements of the twentieth century. The body is a source of pleasure and of pain, at once hopelessly vulnerable and radiant with power. In her ambitious, brilliant sixth book, Olivia Laing charts an electrifying course through the long struggle for bodily freedom, using the life of the renegade psychoanalyst Wilhelm Reich to explore gay rights and sexual liberation, feminism, and the civil rights movement. Drawing on her own experiences in protest and alternative medicine, and traveling from Weimar Berlin to the prisons of McCarthy-era America, Laing grapples with some of the most significant and complicated figures of the past century—among them Nina Simone, Christopher Isherwood, Andrea Dworkin, Sigmund Freud, Susan Sontag, and Malcolm X. Despite its many burdens, the body remains a source of power, even in an era as technologized and automated as our own. Arriving at a moment in which basic bodily rights are once again imperiled, *Everybody* is an investigation into the forces arranged against freedom and a celebration of how ordinary human bodies can resist oppression and reshape the world.

The New York Times bestselling author and senior fellow at the Discovery Institute blends science and religion in this thoughtful guide that teaches modern believers how to use the leading wellness trend today—intermittent fasting—as a means of spiritual awakening, adopting the traditions our Christians ancestors practiced for centuries into daily life. Wellness minded people today are increasingly turning to intermittent fasting to bolster their health. But we aren't the first people to abstain from eating for a purpose. This routine was a common part of our spiritual ancestors' lives for 1,500 years. Jay Richards argues that Christians should recover the fasting lifestyle, not only to improve our bodies, but to bolster our spiritual health as well. In *Eat, Fast, Feast*, he combines forgotten spiritual wisdom on fasting and feasting with the burgeoning literature on ketogenic diets and fasting for improved physical and mental health. Based on his popular series "Fasting, Body and Soul" in *The Stream*, *Eat, Fast, Feast* explores what it means to substitute our hunger for God for our hunger for food, and what both modern science and the ancient monastics can teach us about this practice. Richards argues that our modern diet—heavy in sugar and refined carbohydrates—locks us into a metabolic trap that makes fasting unfruitful and our feasts devoid of meaning. The good news, he reveals, is that we are beginning to resist the tyranny of processed foods, with millions of people pursuing low carb, ketogenic, paleo, and primal diets. This growing body of experts argue that eating natural fat and fasting is not only safe, but far better than how we eat today. Richards provides a 40-day plan which combines a long-term "nutritional ketosis" with spiritual disciplines. The plan can be used any time of the year or be adapted to a penitential season on the Christian calendar, such as Advent or Lent. Synthesizing recent science with ancient wisdom, *Eat, Fast, Feast* brings together the physical, mental, and spiritual benefits of intermittent fasting to help Christians improve their lives and their health, and bring them closer to God.

*The Body Is Not an Apology* The Power of Radical Self-Love Against a global backdrop of war, social upheaval, and personal despair, there is a growing sense of urgency to challenge the systems of oppression that dehumanize bodies and strip us of our shared humanity. Rather than feel helpless in the face of oppression, world-renowned activist, performance poet, and author Sonya Renee Taylor teaches us how to turn to the power of radical self-love in her new book, *The Body Is Not an Apology*. Radical self-love is the guiding framework that transforms the learned self-hatred of our bodies and the prejudices we have about other people's bodies into a vision of compassion, equity, and justice. In a revolutionary departure from the corporate self-help and body-positivity movement, Taylor forges the inextricable bond between radical self-love and social justice. The first step is recognizing that we have all been indoctrinated into a system of body shame that profits off of our self-hatred. When we ask ourselves, "Who benefits from our collective shame?" we can begin to make the distinction between the messages we are receiving about our bodies or other bodies and the truth. This book moves us beyond our all-too-

often hidden lives, where we are easily encouraged to forget that we are whole humans having whole human experiences in our bodies alongside others. Radical self-love encourages us to embark on a personal journey of transformation with thoughtful reflection on the origins of our minds and bodies as a source of strength. In doing this, we not only learn to reject negative messages about ourselves but begin to thwart the very power structures that uphold them. Systems of oppression thrive off of our inability to make peace with bodies and difference. Radical self-love not only dismantles shame and self-loathing in us but has the power to dismantle global systems of injustice—because when we make peace with our bodies, only then do we have the capacity to truly make peace with the bodies of others.

Within each body is an archaeological site that holds the details and wisdom of our extraordinary life story, composed of generational, spiritual, and personal experiences. Historical amnesia locks these stories in the body, manifesting as pain, disease, addictions, emotional patterns, and repetitive circumstances. Somaticly excavating your personal legend unearths memories of the past that can be reconciled and healed in order to create a new myth-for your body and for your Earth."My Body, My Earth provides a detailed and eloquent rationale and description for how this remarkable technique works, both as a therapeutic model and a self-help manual. It is a major contribution to the burgeoning literature in the field of somatic psychology."-Robert Scaer, M.D., author, *The Body Bears the Burden: Trauma, Dissociation and Disease, and The Trauma Spectrum: Hidden Wounds and Human Resiliency*"A remarkable incursion into one of the deepest of all mysteries: the hidden memories that are locked into the fibers of our bodies. This book is an impressive and extremely helpful guide to reuniting the conscious and unconscious aspects of the mind."-Richard Smoley, author of *Conscious Love and Inner Christianity*

An instant Wall Street Journal Bestseller The definitive guide to communicating and connecting in a hybrid world. Email replies that show up a week later. Video chats full of "oops sorry no you go" and "can you hear me?!" Ambiguous text-messages. Weird punctuation you can't make heads or tails of. Is it any wonder communication takes us so much time and effort to figure out? How did we lose our innate capacity to understand each other? Humans rely on body language to connect and build trust, but with most of our communication happening from behind a screen, traditional body language signals are no longer visible -- or are they? In *Digital Body Language*, Erica Dhawan, a go-to thought leader on collaboration and a passionate communication junkie, combines cutting edge research with engaging storytelling to decode the new signals and cues that have replaced traditional body language across genders, generations, and culture. In real life, we lean in, uncross our arms, smile, nod and make eye contact to show we listen and care. Online, reading carefully is the new listening. Writing clearly is the new empathy. And a phone or video call is worth a thousand emails. *Digital Body Language* will turn your daily misunderstandings into a set of collectively understood laws that foster connection, no matter the distance. Dhawan investigates a wide array of exchanges—from large conferences and video meetings to daily emails, texts, IMs, and conference calls—and offers insights and solutions to build trust and clarity to anyone in our ever changing world. 2019 National Parenting Product Award (NAPPA) Winner Finally, a calming pregnancy book that cuts through the noise to tell expectant mothers exactly what they need to know—and what they can stop obsessing about and over-researching. In *The New Rules of Pregnancy*, two leading OB-GYNs guide you, the modern pregnant woman, through all aspects of pregnant life in an easy-to-digest, compassionate, and motivating way. Instead of a detailed week-by-week look at your baby's development, it's all about you, and how to help your pregnancy go as smoothly as possible. It assumes an intelligent, busy reader (who, somewhere inside, is shouting, "Just tell me what to do!"). Every aspect of pregnant life is covered—from the practical details (how to fly pregnant) to the complex issues ("What makes it postpartum depression?"). The book also covers that critical "fourth trimester"—"Nursing" and "How to Feel Like Yourself Again"—because once the baby is born, self-care typically goes out the window, and you really need someone to have your back. Its strong point of view and expertise come from gynecologist Adrienne Simone and obstetrician Jaqueline Worth—two renowned New York doctors dedicated to bringing patients the safest, calmest, least invasive pregnancies possible. The book's voice—motivating, supportive, real—comes from Danielle Claro, coauthor of *The New Health Rules*.

Claire Malloy runs a bookstore in the normally quiet college town of Farberville, Arkansas - an enterprise which provides the verging-on-meager living for her and her deeply sarcastic teenage daughter Caron. So when emergency work forces Claire and Caron to abandon their apartment for a few weeks, they are in no financial position to put themselves up in style and Claire is thrilled to accept a customer's offer to let them stay at her well-stocked, well-equipped palatial home while she is traveling. Of course, nothing is ever that easy. No sooner do Claire and Caron ensconce themselves than disquieting events start to occur - dubious people show up looking for the 'traveling' owner of the house; the owner herself turns out not to be who she claimed and is now seemingly on the run; and a dead body keeps turning up - and subsequently disappearing - around the grounds of the house. Determined, for once, to stay out of the mysterious doings, Claire's hand is finally forced when the disappearing body turns out to be only the first corpse to turn up...

Created by the expert hosts of the popular Well-Fed Women Podcast, a step-by-step food and fitness plan for women, that teaches them how to improve their health by changing the quality—not the quantity—of the food they eat. To eat your way to better health, you don't need to limit your calorie intake, or cut out carbs or fat. You don't need to count "points." Better health doesn't come from limits. It comes from focusing on the quality of food that you eat—not the quantity. Instead of limiting your food intake you should be enriching it, argue Noelle Tarr and Stefani Ruper. The popular hosts of the Well-Fed Women Podcast want you to focus on the good things you eat. They want to make sure you get enough food so that your body has the fuel and nourishment it needs to support a healthy, long, and energetic life. Noelle and Stefani know about eating for health firsthand. They, too, struggled with confusing and frustrating medical conditions, including infertility, digestive issues, acne, polycystic ovarian syndrome, hypothyroidism, and anemia. They discovered that the secret to improving wellness was actually more food: they ditched the diet books, calorie counters, and scales, and started eating their way to health. In *Coconuts and Kettlebells*, you'll eat at least 2,000 calories a day thanks to a delicious selection of dishes that are all gluten-free, grain-free, and paleo. Within those 2,000 calories, setting a minimum intakes of protein, fat, and carbohydrates instead of the usual maximums will ensure that your diet is full of nutrients, while also providing flexibility to enjoy what you're eating. Noelle and Stefani identify the Big Four

foods—grains, dairy, vegetable oils, and refined sugar—that cause the most health problems among women. While many diets require you to eliminate these foods entirely, Coconuts and Kettlebells provides an easy-to-follow step-by-step program to test these foods and determine which you need to cut back on—and which you don't—to feel better. To help you discover how your body responds to the Big Four, you'll choose from two simple 4-week meal plans: one for the Butter Lover (people who tend to feel more satisfied eating higher ratios of fats) and one for the Bread Lover (people who tend to feel more satisfied eating higher ratios of carbs). Each meal plan comes with a weekly shopping list, a guide to kitchen tools and equipment, and instructions on how to batch cook, meal prep, and stock the pantry. In addition, you'll have access to over 75 gluten-free and paleo-friendly flavor-packed recipes (free of the Big Four foods) for every meal of the day, including: Coconut Chai Latte Kale and Bacon Breakfast Skillet Apple Pie Smoothie Thai Coconut Curry Shrimp Moroccan Lamb Meatballs Shrimp and Cabbage Stir Fry Parsnip and Carrot Fries Mango Jalapeno Salsa Chocolate Cherry Energy Bites Lemon Raspberry Mini Cheesecakes To go along with the meal plans, Noelle and Stefani also provide three 4-week fitness plans tailored to three experience levels: beginner, intermediate, and advanced. All of the workouts can be done anywhere—at your home or on the road—and take no more than thirty minutes. A comprehensive whole body program to get and keep you healthy inside and out, Coconuts and Kettlebells provides the knowledge and tools you need to heal in a way that is effortless, rewarding, confidence-boosting, and everlasting. Coconuts and Kettlebells is illustrated with color photos throughout. Considered by many to be mentally retarded, a brilliant, impatient fifth-grader with cerebral palsy discovers a technological device that will allow her to speak for the first time.

Winner of The Restless Books Prize for New Immigrant Writing “Grace Talusan writes eloquently about the most unsayable things: the deep gravitational pull of family, the complexity of navigating identity as an immigrant, and the ways we move forward even as we carry our traumas with us. Equal parts compassion and confession, *The Body Papers* is a stunning work by a powerful new writer who—like the best memoirists—transcends the personal to speak on a universal level.” —Celeste Ng, author of *Everything I Never Told You* and *Little Fires Everywhere* Born in the Philippines, young Grace Talusan moves with her family to a New England suburb in the 1970s. At school, she confronts racism as one of the few kids with a brown face. At home, the confusion is worse: her grandfather's nightly visits to her room leave her hurt and terrified, and she learns to build a protective wall of silence that maps onto the larger silence practiced by her Catholic Filipino family. Talusan learns as a teenager that her family's legal status in the country has always hung by a thread—for a time, they were “illegal.” Family, she's told, must be put first. The abuse and trauma Talusan suffers as a child affects all her relationships, her mental health, and her relationship with her own body. Later, she learns that her family history is threaded with violence and abuse. And she discovers another devastating family thread: cancer. In her thirties, Talusan must decide whether to undergo preventive surgeries to remove her breasts and ovaries. Despite all this, she finds love, and success as a teacher. On a fellowship, Talusan and her husband return to the Philippines, where she revisits her family's ancestral home and tries to reclaim a lost piece of herself. Not every family legacy is destructive. From her parents, Talusan has learned to tell stories in order to continue. The generosity of spirit and literary acuity of this debut memoir are a testament to her determination and resilience. In excavating such abuse and trauma, and supplementing her story with government documents, medical records, and family photos, Talusan gives voice to unspeakable experience, and shines a light of hope into the darkness.

Krakauer's page-turning bestseller explores a famed missing person mystery while unraveling the larger riddles it holds: the profound pull of the American wilderness on our imagination; the allure of high-risk activities to young men of a certain cast of mind; the complex, charged bond between fathers and sons. "Terrifying... Eloquent... A heart-rending drama of human yearning." —New York Times In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. He had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Four months later, his decomposed body was found by a moose hunter. How Christopher Johnson McCandless came to die is the unforgettable story of *Into the Wild*. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding--and not an ounce of sentimentality. Mesmerizing, heartbreaking, *Into the Wild* is a tour de force. The power and luminosity of Jon Krakauer's storytelling blaze through every page.

Part puzzle, part revenge tale, part ghost story, this ingenious novel spins half a century of Vietnamese history and folklore into “a thrilling read, acrobatic and filled with verve” (The New York Times).

FINALIST FOR THE CENTER FOR FICTION'S FIRST NOVEL PRIZE • “Fiction as daring and accomplished as Violet Kupersmith's first novel reignites my love of the form and its kaleidoscopic possibilities.”—David Mitchell, author of *Cloud Atlas* Two young women go missing decades apart. Both are fearless, both are lost. And both will have their revenge. 1986: The teenage daughter of a wealthy Vietnamese family loses her way in an abandoned rubber plantation while fleeing her angry father and is forever changed. 2011: A young, unhappy Vietnamese American woman disappears from her new home in Saigon without a trace. The fates of these two women are inescapably linked, bound together by past generations, by ghosts and ancestors, by the history of possessed bodies and possessed lands. Alongside them, we meet a young boy who is sent to a boarding school for the métis children of French expatriates, just before Vietnam declares its independence from colonial rule; two Frenchmen who are trying to start a business with the Vietnam War on the horizon; and the employees of the Saigon Spirit Eradication Co., who find themselves investigating strange occurrences in a farmhouse on the edge of a forest. Each new character and timeline brings us one step closer to understanding what binds them all. *Build Your House Around My Body* takes us from colonial mansions to ramshackle zoos, from sweaty nightclubs to the jostling seats of motorbikes, from ex-pat flats to sizzling back-alley street carts. Spanning more than fifty years of Vietnamese history and barreling toward an unforgettable conclusion, this is a time-traveling, heart-pounding, border-crossing fever dream of a novel that will haunt you long after the last page.

The #1 New York Times bestseller by Tom Brady, six-time Super Bowl champion and one of the NFL's 100 Greatest Players of All Time. The instant New York Times bestseller A step-by-step plan clinically proven to break the cycle of worry and fear that drives anxiety and addictive habits We are living through one of the most anxious periods any of us can remember. Whether facing issues as public as a pandemic or as personal as having kids at home and fighting the urge to reach for the wine bottle every night, we are feeling overwhelmed and out of control. But in this timely book, Judson Brewer explains how to uproot anxiety at its source using brain-based techniques and small hacks accessible to anyone. We think of anxiety as everything from mild unease to full-blown panic. But it's also what drives the addictive behaviors and bad habits we use to cope (e.g. stress eating, procrastination, doom scrolling and social media). Plus, anxiety lives in a part of the brain that resists rational thought. So we get stuck in anxiety habit loops that we can't think our way out of or use willpower to overcome. Dr. Brewer teaches us map our brains to discover our triggers, defuse them with the simple but powerful practice of curiosity, and to train our brains using mindfulness and other practices that his lab has proven can work. Distilling more than 20 years of research and hands-on work with thousands of patients, including Olympic athletes and coaches, and leaders in government and business, Dr. Brewer has created a clear, solution-oriented program that anyone can use to feel better - no matter how anxious they feel.

A top expert on human trauma argues that we vastly overestimate how common PTSD is and fail to recognize how resilient people really are After 9/11, mental health professionals flocked to New York to handle what everyone assumed would be a flood of trauma cases. Oddly, the flood never came. In The End of Trauma, pioneering psychologist George A. Bonanno argues that we failed to predict the psychological response to 9/11 because most of what we understand about trauma is wrong. For starters, it's not nearly as common as we think. In fact, people are overwhelmingly resilient to adversity. What we often interpret as PTSD are signs of a natural process of learning how to deal with a specific situation. We can cope far more effectively if we understand how this process works. Drawing on four decades of research, Bonanno explains what makes us resilient, why we sometimes aren't, and how we can better handle traumatic stress. Hopeful and humane, The End of Trauma overturns everything we thought we knew about how people respond to hardship.

Listen to the Emotional Wisdom of Your Muscles and Experience a Deeper Level of Healing You know a lot about the emotions in your mind and heart, but you probably don't know much about the emotions in your muscle body. The muscles are storehouses of emotion, and pain in those muscles is how your body reveals what needs to be healed—both emotionally and physically. Organized by muscle groups, The Body Heals Itself is your ideal guide to understanding the link between your emotions and muscle bodies. This book acts as a road map for the energetic journey within your own body, showing you how to recognize and release stored emotions to let go of pain. You'll discover which emotions are often paired with a specific muscle area and how muscles speak of everything from past traumas to current celebrations. Using stretches, affirmations, visualizations, and more, Emily A. Francis teaches you to unite your mind and body for better health and emotional well-being. Praise: "Readers interested in holistic treatments and therapies will find this a solid reference."—Library Journal "Emily Francis' work is an important offering in the maturation of the emotional body. I believe the future of the planet depends on books like hers."—Katie Silcox, New York Times bestselling author of Healthy Happy Sexy "[The Body Heals Itself features] new awareness and understanding of what our bodies have to teach us and, most importantly, how we can become masterful listeners."—Thom Rutledge, psychotherapist and author of Embracing Fear and The Self-Forgiveness Handbook "The Body Heals Itself is a fascinating read. It takes us into the emotions and deep wisdom of our body in surprising ways. This book gives us tools to understand this hidden part of ourselves—one that may have formally been an acquaintance now becomes an intimate friend."—Dr. Paulette Kouffman Sherman, psychologist and author of The Book of Sacred Baths
