

## Who Is Jane Goodall Who Was

An instant New York Times bestseller Two spiritual giants. Five days. One timeless question. Nobel Peace Prize Laureates His Holiness the Dalai Lama and Archbishop Desmond Tutu have survived more than fifty years of exile and the soul-crushing violence of oppression. Despite their hardships—or, as they would say, because of them—they are two of the most joyful people on the planet. In April 2015, Archbishop Tutu traveled to the Dalai Lama's home in Dharamsala, India, to celebrate His Holiness's eightieth birthday and to create what they hoped would be a gift for others. They looked back on their long lives to answer a single burning question: How do we find joy in the face of life's inevitable suffering? They traded intimate stories, teased each other continually, and shared their spiritual practices. By the end of a week filled with laughter and punctuated with tears, these two global heroes had stared into the abyss and despair of our time and revealed how to live a life brimming with joy. This book offers us a rare opportunity to experience their astonishing and unprecedented week together, from the first embrace to the final good-bye. We get to listen as they explore the Nature of True Joy and confront each of the Obstacles of Joy—from fear, stress, and anger to grief, illness, and death. They then offer us the Eight Pillars of Joy, which provide the foundation for lasting happiness. Throughout, they include stories, wisdom, and science. Finally, they share their daily Joy Practices that anchor their own emotional and spiritual lives. The Archbishop has never claimed sainthood, and the Dalai Lama considers himself a simple monk. In this unique collaboration, they offer us the reflection of real lives filled with pain and turmoil in the midst of which they have been able to discover a level of peace, of courage, and of joy to which we can all aspire in our own lives.

From world-renowned scientist Jane Goodall, as seen in the new National Geographic documentary *Jane*, comes a poignant memoir about her spiritual epiphany and an appeal for why everyone can find a reason for hope. Dr. Jane Goodall's revolutionary study of chimpanzees in Tanzania's Gombe preserve forever altered the very, definition of humanity. Now, in a poignant and insightful memoir, Jane Goodall explores her extraordinary life and personal spiritual odyssey, with observations as profound as the knowledge she has brought back from the forest.

**NEW YORK TIMES BESTSELLER!** Ivanka is donating the unpaid portion of her advance and all future royalties received from *Women Who Work* to the Ivanka M. Trump Charitable Fund, a donor advised fund that will make grants to organizations that empower and educate women and girls.\* "This is a chatty step-by-step guide to living a happy life and getting ahead in a career." —USA Today "The advice is spot-on for everyone, not just women." —Tony Hsieh, CEO of Zappos.com and author of *Delivering Happiness* I believe that when it comes to women and work, there isn't one right answer. The only person who can create a

life you'll love is you. Our grandmothers fought for the right to work. Our mothers fought for the choice to be in an office or to stay at home. Our generation is the first to fully embrace and celebrate the fact that our lives are multidimensional. Thanks to the women who came before us and paved the way, we can create the lives we want to lead—which look different for each of us. I've been fortunate to be able to build my career around my passions, from real estate to fashion. But my professional titles only begin to describe who I am and what I value. I have been an executive and an entrepreneur, but also—and just as importantly—a wife, mother, daughter, and friend. To me, “work” encompasses my efforts to succeed in all of these areas. After appearing on *The Apprentice* years ago and receiving a flood of letters from young women asking for guidance, I realized the need for more female leaders to speak out publicly in order to change the way society thinks and talks about “women who work.” So I created a forum to do just that. This book evolves the conversation that started on [IvankaTrump.com](http://IvankaTrump.com), where so many incredible women (and men!) have shared their experiences, advice, ambitions, and passions. Women who work lead meetings and train for marathons. We learn how to cook and how to code. We inspire our employees and our children. We innovate at our current jobs and start new businesses. *Women Who Work* will equip you with the best skills I've learned from some of the amazing people I've met, on subjects such as identifying opportunities, shifting careers smoothly, negotiating, leading teams, starting companies, managing work and family, and helping change the system to make it better for women—now and in the future. I hope it will inspire you to redefine success and architect a life that honors your individual passions and priorities, in a way only you can. \* The Ivanka M. Trump Charitable Fund (the “Fund”) is a donor advised fund that supports the economic empowerment of women and girls. Ivanka Trump is the grant advisor to the Fund and sole member of IT WWW Pub, LLC (the “LLC”), which receives royalties from the publication of *Women Who Work*. The LLC will contribute a minimum \$425,000 to the Fund, which is the unpaid portion of the advance, net of expenses. In addition, the LLC will contribute all future royalties it receives that are in excess of the advance to the Fund during the period from May 1, 2017 to May 1, 2022.

From legendary naturalist Jane Goodall, an absorbing fictional tale that will steal hearts and open minds about the plight of the pangolin, the only mammalian species with scales, and endangered by illegal trafficking. After a blissful babyhood being cared for by her loving mother, Pangolina ventures out alone into the forest to become an independent adult, helped along by wise, older animal companions, including a civet and a bat. But one day cruel hunters trap Pangolina, putting her into a cage along with her friends, and bring them to a market to be sold as wild game. Pangolina is especially vulnerable, since her scales are prized by humans who believe they have curative powers. To the rescue comes a small girl who knows that pangolins are friendly fellow creatures who have feelings too, and who convinces her mother to buy Pangolina and set

her free. Jane Goodall's many followers and all animal-loving children and adult picture book fans will be riveted by this suspenseful and heartwarming fictional story set in China and including an authoritative informational page about pangolins and suggestions for how to help fight animal trafficking.

**\*\*THE INSTANT NEW YORK TIMES BESTSELLER\*\*** In a world that seems so troubled, how do we hold on to hope? Looking at the headlines—the worsening climate crisis, a global pandemic, loss of biodiversity, political upheaval—it can be hard to feel optimistic. And yet hope has never been more desperately needed. In this urgent book, Jane Goodall, the world's most famous living naturalist, and Douglas Abrams, the internationally bestselling co-author of *The Book of Joy*, explore through intimate and thought-provoking dialogue one of the most sought after and least understood elements of human nature: hope. In *The Book of Hope*, Jane focuses on her "Four Reasons for Hope": The Amazing Human Intellect, The Resilience of Nature, The Power of Young People, and The Indomitable Human Spirit. Drawing on decades of work that has helped expand our understanding of what it means to be human and what we all need to do to help build a better world, *The Book of Hope* touches on vital questions, including: How do we stay hopeful when everything seems hopeless? How do we cultivate hope in our children? What is the relationship between hope and action? Filled with moving and inspirational stories and photographs from Jane's remarkable career, *The Book of Hope* is a deeply personal conversation with one of the most beloved figures in the world today. While discussing the experiences that shaped her discoveries and beliefs, Jane tells the story of how she became a messenger of hope, from living through World War II to her years in Gombe to realizing she had to leave the forest to travel the world in her role as an advocate for environmental justice. And for the first time, she shares her profound revelations about her next, and perhaps final, adventure. The second book in the *Global Icons Series*—which launched with the instant classic *The Book of Joy with His Holiness the Dalai Lama and Archbishop Desmond Tutu*—*The Book of Hope* is a rare and intimate look not only at the nature of hope but also into the heart and mind of a woman who revolutionized how we view the world around us and has spent a lifetime fighting for our future. There is still hope, and this book will help guide us to it.

Discover the life of Jane Goodall--a story about curiosity, passion, and saving animals Jane Goodall is a celebrated scientist for her studies of chimpanzees in the forests of Africa. Before she observed chimps and helped save them from losing their home, Jane was a curious kid who loved learning about animals. She showed people that women could be scientists, just like men, and fought to follow her dream of working with wild chimps. Explore how Jane Goodall went from being a young nature lover in England to the most important chimpanzee expert in the world. This Jane Goodall chapter book for kids ages 6-8 includes: Word definitions--Discover helpful definitions for the more advanced words and ideas in the book. Test your knowledge--Take a quiz at the end of the book to make sure

you understand the Who, What, Where, When, Why, and How of Jane Goodall's life. A lasting legacy--Learn about how Jane made the world a better place for future generations of both humans and animals. How will Jane Goodall's strong will inspire you?

A personal account of the author's life among wild chimpanzees in Africa offers insight into animal behavior and draws parallels between chimpanzee and human relationships.

Jane Goodall's fans and followers will love these stories and photos of chimpanzee children living in the Gombe National Park This heartwarming book is filled with photos of many of the chimpanzee babies, toddlers, and young adults that live in the Gombe National Park in Tanzania, where the Jane Goodall research center of is located. Dr. Goodall has campaigned unceasingly for the protection of the chimpanzee—now an endangered species—and this moving, personal account will educate readers about the many threats to the animals in the wild and inspire readers of all ages to join in her vital work.

“Chimpanzees, more like us than any other living animal, form a living link between two worlds, human and non-human beings. When David Greybeard reached out to touch my hand I needed no words to understand his message of reassurance: and I loved him.” In this enchanting book, world-renowned scientist and conservationist Jane Goodall brings together stories gleaned from nearly 40 years of studying chimpanzees in the forests of Tanzania. As the stories recounted here demonstrate, chimpanzees are capable of great compassion, altruism, and love.

"This biography for children will trace Goodall's life, but each chapter will also focus on two or more the chimpanzees that she observed, with information in sidebars about these particular animals. Along with biographical details, the book will explore the ethical issues that surround Goodall's work and show what has changed in our understanding of Great Apes. What do we know today about these animals in terms of language, speech, tool use, and DNA? How has sophisticated technology - GPS systems, Satellite imagery, portable digital microphones - been used to gain new information about animal populations."--  
Who is Jane Goodall?Penguin

What would it be like to really savor your food? Instead of grabbing a quick snack on your way out the door or eating just to calm down at the end of a stressful day, isn't it about time you let yourself truly appreciate a satisfying, nourishing meal? In our modern society, weight concerns, obesity rates, and obsession with appearance have changed the way we look at food—and not necessarily for the better. If you have ever snacked when you weren't hungry, have used guilt as a guide for your eating habits, or have cut calories even when you felt hungry, you have experienced “mindless” eating firsthand. This mindless approach to food is dangerous, and can have serious health and emotional consequences. But if you've been mindlessly eating all your life, it can be difficult to make a change. When it comes down to it, you must take a whole new approach to eating—but

where do you begin? Practicing mindful eating habits may be just the thing to make that important change. In fact, it might just be the answer you've been searching for all these years. The breakthrough approaches in *Eating Mindfully*, by Susan Albers, use mindfulness-based psychological practices to take charge of cravings so they can eat when they are hungry and stop when they feel full. Ten years after the release of the first edition, this book continues to help thousands of readers change the way they approach mealtime. So what's changed? For starters, there is a new section that focuses on the "occasional mindless eater." This second edition emphasizes that mindful eating isn't only for those on a diet or for those who have severely problematic eating habits—it's for everyone. In addition, this new edition features over 50 new tips for eating mindfully. Inside, you will learn how to be more aware of what you eat, get to know your fullness and hunger cues, and how to savor and appreciate every bite. You will also learn how mindlessness corrupts the way you eat, and how it can manifest in a number of different eating problems. No matter where you are in your journey toward mindful eating, this book will be an invaluable resource, and you will gain insight into how mindfulness can provide you with the skills needed to control the way you eat—leading to a healthier, happier life.

An introduction to the life and career of primatologist Jane Goodall.

"Every day, slowly but surely, we the people are helping to change the world." For the health of humankind, the environment, and the animals that inhabit it, the Jane Goodall Institute presents a collection of recipes to illustrate the how and why of vegan eating. Crafted especially for curious consumers looking to incorporate healthier dietary practices, those interested in environmental sustainability, and for fans of Jane Goodall's work, this collection of 80 recipes gives home cooks the tools they need to take charge of their diet and take advantage of their own community's local, seasonal bounty. Along with colorful food photography, quotes from Jane Goodall interspersed throughout transform this vegan staple into an inspiring guide to reclaiming our broken food system: for the environment, for the animals, and for ourselves. Whether you're interested in reducing your family's reliance on meat or in transitioning to a wholly vegetarian or vegan diet, this book has the information and inspiration you need to make meaningful mealtime choices. Dr. Jane Goodall, a longtime vegetarian and a passionate advocate for animals, invites us to commit to a simple promise with her campaign #IEatMeatLess.

A great deal has happened since the publication of *Jane Goodall: 40 Years at Gombe* in 1999. Most recently, endeavors at the Gombe field site have included landmark research related to AIDS progression; establishing programs to improve sanitation, health care, and education in neighboring Tanzanian communities; and partnering with local people to pursue reforestation initiatives. The accomplishments of the past 10 years alone have given the Jane Goodall Institute a great deal to celebrate. In honor of the field site's 50th anniversary, STC is proud to release *Jane Goodall: 50 Years at Gombe*, a compelling pictorial

tribute to Dr. Goodall's life, her studies of chimpanzee behavior, and her unflagging efforts to motivate people to make this world a better place. With a new format, a modern design, more than a dozen new photographs, and updated text throughout, this revised edition retraces five decades of compassion and discovery.

A life in the wild! Jane Goodall, born in London, England, always loved animals and wanted to study them in their natural habitats. So at age twenty-six, off she went to Africa! Goodall's up-close observations of chimpanzees changed what we know about them and paved the way for many female scientists who came after her. Now her story comes to life in this biography with black-and-white illustrations throughout.

We can all be heroes. That's the inspiring message of this New York Times bestselling picture book biography series from historian and author Brad Meltzer. Learn all about Jane Goodall, the chimpanzee scientist. Each picture book in this series is a biography of a significant historical figure, told in a simple, conversational, vivacious way, and always focusing on a character trait that makes the person a role model for kids. The heroes are depicted as children throughout, telling their life stories in first-person present tense, which keeps the books playful and accessible to young children. And each book ends with a line of encouragement, a direct quote, photos, a timeline, and a source list. This tenth book in the series features Jane Goodall, the scientist and conservationist who is famous for her work with chimpanzees.

A comprehensive, up-to-date account of the renowned scientist's quarter-century field study of chimpanzees details their distinct personalities, their complex society, and the surprising behavioral findings of the last few years

This title is a brief, yet informative, biography on Jane Goodall. Readers will learn about Goodall's early life, personal life, and all about her contributions to science, the study of chimpanzees, conservation, and both human and animal welfare. Aligned to Common Core Standards and correlated to state standards. Core Library is an imprint of Abdo Publishing, a division of ABDO.

Biography of Jane Goodall who at age twenty-six started a six-month project at the Gombe Stream Chimpanzee Reserve on Lake Tanganyika, Africa which became her life's work. At age two, Helen Keller became deaf and blind. She lived in a world of silence and darkness and she spent the rest of her life struggling to break through it. But with the help of teacher Annie Sullivan, Helen learned to read, write, and do many amazing things. This inspiring illustrated biography is perfect for young middle-grade readers. Black-and-white line drawings throughout, sidebars on related topics such as Louis Braille, a timeline, and a bibliography enhance readers' understanding of the subject.

World-renowned behavioral scientists Jane Goodall and Marc Bekoff have set forth ten trusts that we must honor as custodians of the planet. They argue passionately and persuasively that if we put these trusts to work in our lives, the earth and all its inhabitants will be able to live together harmoniously. The Ten Trusts expands the concept of our obligation to live in close relationship with animals -- for, of course, we humans are part of the animal kingdom -- challenging us to respect the interconnection between all living beings as we learn to care about and appreciate all species. The world is changing. We are gradually becoming more aware of the damage we are inflicting on the natural world. At this critical moment for the earth, Goodall and Bekoff share their hope and vision of a world where human cruelty and hatred are transformed into compassion and love for all living beings. They dream of a day when scientists and non-scientists can work together to transform the earth into a place where

human beings live in peace and harmony with animals and the natural world. Simple yet profound, *The Ten Trusts* will not only change your perspective regarding how we live on this planet, it will establish your responsibilities as a steward of the natural world and show you how to live with respect for all life.

'One of history's most impressive field studies; an instant animal classic' *TIME* Jane Goodall's classic account of primate research provides an impressively detailed and absorbing account of the early years of her field study of, and adventures with, chimpanzees in Tanzania, Africa. It is a landmark for everyone to enjoy.

Profiles the life of the primatologist who was the first scientist to study wild chimpanzees in their natural environment.

The well-known English zoologist describes her early interest in animals and how this led to her study of chimpanzees at the Gombe Stream Reserve in Tanzania.

A radically new understanding of and practical approach to climate change by noted environmentalist Paul Hawken, creator of the New York Times bestseller *Drawdown* *Regeneration* offers a visionary new approach to climate change, one that weaves justice, climate, biodiversity, equity, and human dignity into a seamless tapestry of action, policy, and transformation that can end the climate crisis in one generation. It is the first book to describe and define the burgeoning regeneration movement spreading rapidly throughout the world. *Regeneration* describes how an inclusive movement can engage the majority of humanity to save the world from the threat of global warming, with climate solutions that directly serve our children, the poor, and the excluded. This means we must address current human needs, not future existential threats, real as they are, with initiatives that include but go well beyond solar, electric vehicles, and tree planting to include such solutions as the fifteen-minute city, bioregions, azolla fern, food localization, fire ecology, decommodification, forests as farms, and the number one solution for the world: electrifying everything. Paul Hawken and the nonprofit *Regeneration Organization* are launching a series of initiatives to accompany the book, including a streaming video series, curriculum, podcasts, teaching videos, and climate action software. *Regeneration* is the inspiring and necessary guide to inform the rapidly spreading climate movement.

Meet history's game changers! This biography series is for kids who loved *Who Was?* and are ready for the next level. In July 1960, Jane Goodall went into the wilderness in Tanzania to study chimpanzees. For years she camped out with the chimps, observing their behavior and making amazing discoveries! Jane had always been fascinated by animals and knew she wanted to make learning more about them her life's work. Find out how this girl who loved animals became one of history's greatest trailblazers! *Trailblazers* is a biography series that celebrates the lives of amazing pioneers, past and present, from all over the world.

The renowned British primatologist continues the “engrossing account” of her time among the chimpanzees of Gombe, Tanzania (*Publishers Weekly*). In her classic, *In the Shadow of Man*, Jane Goodall wrote of her first ten years at Gombe. In *Through a Window* she continues the story, painting a more complete and vivid portrait of our closest relatives. On the shores of Lake Tanganyika, Gombe is a community where the principal residents are chimpanzees. Through Goodall's eyes we watch young Figan's relentless rise to power and old Mike's crushing defeat. We learn how one mother rears her children to succeed and another dooms hers to failure. We witness horrifying murders, touching moments of affection, joyous births, and wrenching deaths. As Goodall compellingly tells the story of this intimately intertwined community, we are shown human emotions stripped to their essence. In the mirror of chimpanzee life, we see ourselves reflected. “A humbling and exalting book . . . Ranks with the great scientific achievements of the twentieth century.” —*The Washington Post* “[An] absolutely smashing account . . . Thrilling, affectionate, intelligent—a classic.” —*Kirkus Reviews*, starred review

## Get Free Who Is Jane Goodall Who Was

This book traces out the life and career of Jane Goodall as a watcher of English fauna to her adult work as scholar of animal behavior in Africa.

New in the critically acclaimed Little People, BIG DREAMS series, discover the amazing life of Jane Goodall, the world's foremost expert on chimpanzees. When Jane was little, her father gave her a toy chimpanzee named Jubilee. This inspired her lifelong love of animals, and she went to study them in the wild as soon as she could. Jane lived with chimpanzees in their natural habitat and became famous for her pioneering approach to research. She now educates the public on animal rights. This moving book features stylish illustrations and extra facts at the back, including a biographical timeline with historical photos and a detailed profile of the primatologist's life. Little People, BIG DREAMS is a best-selling series of books and educational games that explore the lives of outstanding people, from designers and artists to scientists and activists. All of them achieved incredible things, yet each began life as a child with a dream. This empowering series offers inspiring messages to children of all ages, in a range of formats. The board books are told in simple sentences, perfect for reading aloud to babies and toddlers. The hardcover versions present expanded stories for beginning readers. Boxed gift sets allow you to collect a selection of the books by theme. Paper dolls, learning cards, matching games, and other fun learning tools provide even more ways to make the lives of these role models accessible to children. Inspire the next generation of outstanding people who will change the world with Little People, BIG DREAMS!

A biography on the life, career, and views of one of today's best-known scientists traces Goodall's path from an early fascination with animals to her landmark, but controversial, studies of chimps in the wild and conservation efforts.

Learn about the life of Jane Goodall, a pioneering scientist who became the world expert on chimpanzees, in this early reader biography. Jane Goodall was the first person to study wild chimpanzees up close in a rain forest. She befriended the chimps and discovered amazing facts about their behaviors. What she learned forever changed how people look at these animals. Beginning readers will learn about the milestones in Jane Goodall's life in this Level Two I Can Read biography. This biography includes a timeline and photos all about the life of this inspiring scientist. This biography reader includes a timeline and historical photos all about the life of this inspiring figure. Jane Goodall: A Champion of Chimpanzees is a Level Two I Can Read, geared for kids who read on their own but still need a little help. Whether shared at home or in a classroom, the engaging stories, longer sentences, and language play of Level Two books are proven to help kids take their next steps toward reading success.

Jane Goodall recounts the thirty years she spent in the company of chimpanzees and describes the dynamics of a chimpanzee family.

"Who is Jane Goodall? A scientist. An animal rights activist. A conservationist. From the creators of the #1 New York Times best-selling Who Was? series comes this engaging empowering board book biography for the youngest animal lovers."--

Patrick McDonnell-beloved, bestselling author-artist and creator of the Mutts syndicated comic strip--shares the inspiring story of young Jane Goodall, the legendary and inspiring conservationist featured in the hit documentary film Jane. In his characteristic heartwarming style, Patrick McDonnell tells the story of the young Jane Goodall and her special childhood toy chimpanzee named Jubilee. As the young Jane observes the natural world around her with wonder, she dreams of "a life living with and helping all animals," until one day she finds that her dream has come true. With anecdotes taken directly from Jane Goodall's autobiography, McDonnell makes this very true story accessible for the very young--and young at heart. One of the world's most inspiring women, Dr. Jane Goodall is a renowned humanitarian, conservationist, animal activist, environmentalist, and United Nations Messenger of Peace. In 1977 she founded the Jane Goodall Institute (JGI), a global nonprofit organization that empowers people to make a difference for all living things.

## Get Free Who Is Jane Goodall Who Was

This essential biography of one of the most influential women of the past century shows how truly remarkable Jane Goodall's accomplishments have been. Goodall was a secretarial school graduate when Louis Leakey, unable to find someone with more fitting credentials, first sent her to Gombe to study chimpanzees. In this acclaimed work, Dale Peterson details how this young woman of uncommon resourcefulness and pluck would go on to set radically new standards in the study of animal behavior. He vividly captures the triumphs and setbacks of her dramatic life, including the private quest that led to her now-famous activism. Peterson, a longtime Goodall collaborator, has a unique knowledge of his subject. Candid and illuminating, this work will be a revelation even to readers who are familiar with the public Goodall as presented in her own writing.

Discover the life and work of Jane Goodall. This book explores her amazing research on chimpanzees and the advances she has made in human-animals relationships. Readers will be provided with important vocabulary related to animals, scientific research, and African culture.

From New York Times bestselling author and world-renowned scientist Jane Goodall, as seen in the National Geographic documentary Jane, comes a fascinating examination of the critical role that trees and plants play in our world. Seeds of Hope takes us from Goodall's home in England to her home-away-from-home in Africa, deep inside the Gombe forest, where she and the chimpanzees are enchanted by the fig and plum trees they encounter. She introduces us to botanists around the world, as well as places where hope for plants can be found, such as The Millennium Seed Bank. She shows us the secret world of plants with all their mysteries and potential for healing our bodies as well as Planet Earth. Looking at the world as an adventurer, scientist, and devotee of sustainable foods and gardening--and setting forth simple goals we can all take to protect the plants around us--Goodall delivers an enlightening story of the wonders we can find in our own backyards.

From world-renowned scientist Jane Goodall, as seen in the new National Geographic documentary Jane, comes an inspiring message about the future of the animal kingdom. With the insatiable curiosity and conversational prose that have made her a bestselling author, Goodall - along with Cincinnati Zoo Director Thane Maynard - shares fascinating survival stories about the American Crocodile, the California Condor, the Black-Footed Ferret, and more; all formerly endangered species and species once on the verge of extinction whose populations are now being regenerated. Interweaving her own first-hand experiences in the field with the compelling research of premier scientists, Goodall illuminates the heroic efforts of dedicated environmentalists and the truly critical need to protect the habitats of these beloved species. At once a celebration of the animal kingdom and a passionate call to arms, HOPE FOR ANIMALS THEIR WORLD presents an uplifting, hopeful message for the future of animal-human coexistence. PRAISE FOR HOPE FOR ANIMALS AND THEIR WORLD "Goodall's intimate writing style and sense of wonder pull the reader into each account...The mix of personal and scientific makes for a compelling read." -Booklist "These accounts of conservation success are inspirational." - Publishers Weekly
