#1 NEW YORK TIMES BESTSELLER • OPRAH'S BOOK CLUB PICK The heartrending story of a midcentury American family with twelve children, six of them diagnosed with schizophrenia, that became science's great hope in the quest to understand the disease. "Reads like a medical detective journey and sheds light on a topic so many of us face: mental illness." —Oprah Winfrey Don and Mimi Galvin seemed to be living the American dream. After World War II, Don's work with the Air Force brought them to Colorado, where their twelve children perfectly spanned the baby boom: the oldest born in 1945, the youngest in 1965. In those years, there was an established script for a family like the Galvins--aspiration, hard work, upward mobility, domestic harmony--and they worked hard to play their parts. But behind the scenes was a different story: psychological breakdown, sudden shocking violence, hidden abuse. By the mid-1970s, six of the ten Galvin boys, one after another, were diagnosed as schizophrenic. How could all this happen to one family? What took place inside the house on Hidden Valley Road was so extraordinary that the Galvins became one of the first families to be studied by the National Institute of Mental Health. Their story offers a shadow history of the science of schizophrenia, from the era of institutionalization, lobotomy, and the schizophrenogenic mother to the search for genetic markers for the disease, always amid profound disagreements about the nature of the illness itself. And unbeknownst to the Galvins, samples of their DNA informed decades of genetic research that continues today, offering paths to treatment,

prediction, and even eradication of the disease for future generations. With clarity and compassion, bestselling and award-winning author Robert Kolker uncovers one family's unforgettable legacy of suffering, love, and hope.

Following the successful model of *Me on the Map*, Sweeney demystifies an abstract concept by presenting it from a child's point of view. In *Me and My Family Tree*, a young girl uses simple language, her own childlike drawings, and diagrams to explain how the members of her family are related to each other and to her. Clear, colorful, detailed artwork and a fill-in family tree in the back help make the parts of the family--from siblings to grandparents to cousins-- understandable to very young readers.

Escaping Nazi Germany on the kindertransport changes one girl's life forever At the start of World War II, ten-year-old Franziska Mangold is torn from her family when she boards the kindertransport in Berlin, the train that secretly took nearly 10,000 children out of Nazi territory to safety in England. Marie-Louise Gay and David Homel combine their writing and illustrating talents with their own family memories to produce a very unique travelogue. Family vacations are supposed to be something to look forward to. Unless, that is, your parents have a habit of turning every outing into a risky proposition -- by accident, of course. So instead of dream vacations to Disney World and motels with swimming pools, these parents are always looking for that out-of-the-way destination where other tourists don't go. Their adventures involve eating grasshoppers in Mexico, forgetting the tide schedule while collecting sand dollars off the coast of Georgia, and mistaking alligators for logs in the middle of Okefenokee Swamp. Travels with My Family is told from the point of view of a long-suffering big brother who must fulfill many roles in this eccentric family: keep little brother out of trouble, humor artist Mom, and discourage Dad from pulling out the road map to search for yet another off-the-beaten-track destination. Husband-and-wife team Marie-Louise Gay and David Homel and have combined their prodigious writing and illustrating talents with their own family memories to produce a very different travelogue. "Rags to riches to rags" - that saying has endured for centuries through many cultures because family success, whether fame, fortune, or otherwise, rarely survives through the third generation. In the United States, only 30 percent of family

businesses make it through the second generation, while only 12 percent make it through the third. "You Can't Spend Pride" tells the story of one family business, Mister Kleen, that has defied the odds. Not only are three generations of the family working in the company, but Mister Kleen has grown to be a multi-million-dollar operation that ranks among the top 10 percent of businesses in its industry. Narrated as a first-person account by the co-founder, Mary Ann Clark, and her son and current company president, Ernie Clark Jr., "You Can't Spend Pride" tells the improbable story of how the family built their business from cleaning one client's office in the evenings to maintaining millions of square feet of high-security and commercial space throughout the Washington, D.C. area. And success certainly didn't happen overnight. The family fought through financial challenges, health issues, and many bad economic times over the course of decades to get the business on solid ground—now employing more than 400 people. "You Can't Spend Pride" is a must-read for anyone looking to start their own company, having difficulty growing their current company, and most certainly for anyone running a family business. Filled with stories and solid entrepreneurial advice, you'll find yourself immersed in the inspirational history of Mister Kleen as it rises from a home-based business in 1976 to the trusted leader in high-security and commercial cleaning in the Nation's Capital. All proceeds from the sale of this book go to the Cancer Research Institute. For a minimum of one year, beginning May 20, 2014, Mister Kleen will donate to the Cancer Research Institute 100 percent of the proceeds (\$3.53 for each paperback copy, \$2.40 for each Kindle copy) of "You Can't Spend Pride" sold on Amazon.com. In this revelatory, authoritative portrait of Donald J. Trump and the toxic family that made him, Mary L. Trump, a trained clinical psychologist and Donald's only niece, shines a bright light on the dark history of their family in order to explain how her uncle became the man who now threatens the world's health, economic security, and social fabric. Mary Trump spent much of her childhood in her grandparents' large, imposing house in the heart of Queens, New York, where Donald and his four siblings grew up. She describes a nightmare of traumas, destructive relationships, and a tragic combination of neglect and abuse. She explains how specific events and general family patterns created the damaged man who currently occupies the Oval Office, including the strange and harmful relationship between Fred Trump and his two oldest sons, Fred Jr. and Donald. A firsthand witness to countless holiday meals and interactions, Mary brings an incisive wit and unexpected humor to sometimes grim, often confounding family events. She recounts in unsparing detail everything from her uncle Donald's place in the family spotlight and Ivana's penchant for regifting to her grandmother's frequent injuries and illnesses and the appalling way Donald, Fred Trump's favorite son, dismissed and derided him when he began to succumb to Alzheimer's. Numerous pundits, armchair psychologists, and journalists have sought to parse Donald J. Trump's lethal flaws. Mary L. Trump has the education, insight, and intimate familiarity needed to reveal what makes Donald, and the rest of her clan, tick. She alone can recount this fascinating, unnerving saga, not just because of her insider's perspective but also because she is the only Trump willing to tell the truth about one of the world's most powerful and dysfunctional families.
