Can a cat be an accessory to a prison break? (It can.) Would your precious pet turn violent? Yes--a couple in Seattle had to call the police to save them from their ferocious feline. From cat burglars to terrorizing tabbies, meet the funniest furry felons in the Purrlitzer Prize-winning Cats Gone Bad. Each spread features a photograph or photomontage of an erring kitty.

Escape into a world of cat closeups, meme humor, and kitty-centric trivia that will have you twirling your whiskers. Ever wonder what cats are thinking behind their gaze? So do we, and despite our best efforts, this book won't answer that question. But it will make you smile, laugh, and squeeze your kitty a little tighter. A must-have for every cat lover, Cat Selfies blends hilarious cat closeups and surprising feline trivia. Can a single litter of kittens have multiple fathers? Was a Connecticut cat once placed under house arrest? Do cats really hold grudges? All these questions and many, many more are answered within, plus buckets of cuteness and cattitude behind every page turn. And did we mention that all fifty-plus cats featured were rescued? At the time they were photographed, each of these beauties was either in search of a forever home or recently placed in one, reinforcing what we all know—Adoption is Always the Best Option. So, let your curiosity be your guide and escape into the funny and delightful world of Cat Selfies.

A humorous collection of dozens of photos of funny and adorable cats as they play with, roll in, and chow down their favorite snack of choice -- catnip. Cats love catnip. Whether it's eating it, playing with it, or rolling around in it, catnip turns our domestic feline friends into hilarious balls of activity. Carefree and unconstrained, they are free to be silly, exceptionally playful, and downright gnarly. Professional pet photographer and self-confessed crazy cat man Andrew Marttila (the photographer behind Shop Cats of New York) captures a range of the cats' silly and expressive personalities as they react to their catnip trip. Delightful, elegant Fluffy transforms into a hell-bent renegade. Shy, reserved Mittens becomes a free-loving acrobat. In the blink of an eye, a cat's expression transforms from bored to inquisitive to playful to curious to bizarre . . . to utterly unhinged. A fun and delightful look at our furry companions, this gift book is perfect for every cat lover.

GIDEON Guide to Surveys summarizes the status of all published epidemiological surveys. 79,602 surveys are included of which 49,392 are Prevalence surveys and 30,194 are Seroprevalence surveys. Charts are designed to allow users to quickly scan and compare surveys according to year, region, setting, study population and other parameters. Linked

references are also displayed where available. Chapters are arranged alphabetically, by disease, and include: Disease name Disease synonyms Survey summary: total numbers of surveys for disease Worldwide: Surveys which encompass a group of countries or regions Country: Survey lists by country including details and references This is one in a series of GIDEON ebooks which explore all individual infectious diseases, drugs, vaccines, outbreaks, surveys and pathogens in every country of the world. Data are based on the GIDEON web application ([www.gideononline.com](http://www.gideononline.com)) which relies on standard textbooks and peer-review journals, supplemented by an ongoing search of the medical literature.

In 2016, \$4.6 trillion of merchandise was left in abandoned e-commerce shopping carts. Every year, the U.S. economy loses \$3 trillion dollars in productivity due to excess bureaucracy. Red tape and over-complicated licenses have contributed to China's GDP exceeding India's by \$82 trillion over the span of just three decades. If you're a business leader, these statistics should give you nightmares. According to science-based marketing and business expert Roger Dooley, they illustrate the real and growing threat of "friction," which he defines as the unnecessary expenditure of time, effort, or money in performing a task. In today's high-speed, customer-empowered world, the levels of swiftness and efficiency of business transactions will determine ultimate success or failure. In this groundbreaking guide, Dooley helps you spot the inevitable points of friction in your organization, and he provides the tools and insight you need to eliminate them. By truly understanding the impact friction can have, you'll be able to establish positive habits and eliminate negative ones—all with the end result of building a company that's the envy of your industry. Friction takes you step-by-step through the process of: •Empowering frank conversations•Guiding individual and team behaviors•Getting ahead of friction •Optimizing the customer experience •Building a frictionless corporate culture Combining scientific research with real-life examples of leaders who have conquered business friction, Dooley teaches you how to identify roadblocks, alter them for the benefit of both business and customer, and create positive, lasting change. If you're in a leadership position, now is the time to declare war on friction—before your competitors do. Stamp out ridiculous rules, pointless procedures, and meaningless meetings. Become a relentless advocate for the customer and for minimizing customer effort. Lubricate every point of friction and make your company run like a well-oiled machine. Friction provides the know-how you need to lead your company to industry dominance.

Lizards and snakes (squamate reptiles) are the most diverse vertebrate group in Australia, with approximately 1000 described species, representing about 10% of the global squamate diversity. Squamates are a vital part of the Australian ecosystem, but their conservation has been hindered by a lack of knowledge of their diversity, distribution, biology and key threats. The Action Plan for Australian Lizards and Snakes 2017 provides the first comprehensive assessment of the conservation status of Australian squamates in 25 years. Conservation assessments are provided for 986 species of Australian lizards and snakes (including sea snakes). Over the past 25 years there has been a substantial increase in the number of species and families recognised within Australia. There has also been an increase in the range and magnitude of threatening processes with the potential to impact squamates. This has resulted in an increase in the proportion of the Australian squamate fauna that is considered Threatened. Notably over this period, the first known extinction (post-European settlement) of an Australian reptile species occurred – an indication of the increasingly urgent need for better knowledge and management of this fauna. Six key recommendations are presented to improve the conservation management and plight of Australian squamates. This Action Plan represents an essential resource for research scientists, conservation biologists, conservation managers, environmental consultants, policy makers from Commonwealth and State/Territory governments, and the herpetological community.

Cats have been popular household pets for thousands of years, and their numbers only continue to rise. Today there are three cats for every dog on the planet, and yet cats remain more mysterious, even to their most adoring owners. Unlike dogs, cats evolved as solitary hunters, and, while many have learned to live alongside humans and even feel affection for us, they still don't quite "get us" the way dogs do, and perhaps they never will. But cats have rich emotional lives that we need to respect and understand if they are to thrive in our company. In *Cat Sense*, renowned anthrozoologist John Bradshaw takes us further into the mind of the domestic cat than ever before, using cutting-edge scientific research to dispel the myths and explain the true nature of our feline friends. Tracing the cat's evolution from lone predator to domesticated companion, Bradshaw shows that although cats and humans have been living together for at least eight thousand years, cats remain independent, predatory, and wary of contact with their own kind, qualities that often clash with our modern lifestyles. Cats still have three out of four paws firmly planted in the wild, and within only a few generations can easily revert back to the independent way of life that was the exclusive preserve of their predecessors some 10,000 years ago. Cats are astonishingly flexible, and given the right environment they can adapt to a life

of domesticity with their owners—but to continue do so, they will increasingly need our help. If we're to live in harmony with our cats, Bradshaw explains, we first need to understand their inherited quirks: understanding their body language, keeping their environments—however small—sufficiently interesting, and becoming more proactive in managing both their natural hunting instincts and their relationships with other cats. A must-read for any cat lover, *Cat Sense* offers humane, penetrating insights about the domestic cat that challenge our most basic assumptions and promise to dramatically improve our pets' lives—and ours.

The international phenomenon that has sold over a million copies in Japan, *If Cats Disappeared from the World* is a funny, heartwarming, and profound meditation on the meaning of life. The postman's days are numbered. Estranged from his family, living alone with only his cat Cabbage to keep him company, he was unprepared for the doctor's diagnosis that he has only months to live. But before he can tackle his bucket list, the Devil appears to make him an offer: In exchange for making one thing in the world disappear, our narrator will get one extra day of life. And so begins a very bizarre week... With each object that disappears the postman reflects on the life he's lived, his joys and regrets, and the people he's loved and lost. Genki Kawamura's timeless tale is a moving story of loss and reconciliation, of one man's journey to discover what really matters most in life.

A *New York Times* Bestseller "I have to hand it to Bradshaw and Ellis: Once you suss out their basic cat-training philosophy, their methods totally work." --Slate We often assume that cats can't be trained, and don't need to be. But in *The Trainable Cat*, bestselling anthrozoologist John Bradshaw and cat expert Sarah Ellis show that cats absolutely must be trained in order to enrich the bond between pet and owner. Full of training tips and exercises--from introducing your cat to a new baby to helping them deal with visits to the vet--*The Trainable Cat* is the essential cat bible for cat owners

and lovers. "I doubt you'll find a more well-informed or scientific book on cats that better shows you how feline thinking works."--Times (UK)

Have you ever wondered what your cat is saying? Cats do not meow randomly, nor do they growl or hiss because they have nothing better to do. Cat sounds have a purpose, and they can carry important messages, whether for us or other cats. Susanne Schötz is hard at work on breaking the cat code. She is a professor at Lund University in Sweden, where a long-standing research program is proving that cats do actually use vocal communication—with each other and with their human caretakers. Understanding the vocal strategies used in human-cat communication will have profound implications for how we communicate with our pets, and has the potential to improve the relationship between animals and humans within several fields, including animal therapy, veterinary medicine and animal sheltering. In *The Secret Language of Cats*, Schötz offers a crash course in the phonetic study of cat sounds. She introduces us to the full range of feline vocalizations and explains what they can mean in different situations, and she gives practical tips to help us understand our cats better.

A book that “speak[s] volumes about our need for connection—human, feline or otherwise” (The San Francisco Chronicle), *The Travelling Cat Chronicles* is a life-affirming anthem to kindness and self-sacrifice that shows how the smallest things can provide the greatest joy—the perfect gift for cat lovers and travellers! We take journeys to explore exotic new places and to return to the comforts of home, to visit old acquaintances and to make new friends. But the most important journey is the one that shows us how to follow our hearts... An instant international bestseller and indie bestseller, *The Travelling Cat Chronicles* has charmed readers around the world. With simple yet descriptive prose, this novel gives voice to Nana the cat and his owner, Satoru, as they take to the road on a journey with no other purpose than to visit three of Satoru's longtime friends. Or so Nana is led to believe... With his crooked tail—a sign of good fortune—and adventurous spirit, Nana is the perfect companion for the man who took him in as a stray. And as they travel in a silver van across Japan, with its ever-changing scenery and seasons, they will learn the true meaning of courage and gratitude, of loyalty and love. There are many things cats can do which children can't, such as lap up milk and use their tongues as combs. There are also a number of things that cats can't do, like sing children to sleep, or get down from trees... Abner Graboff combines the voice of childhood innocence with a wonderful sense of fun in his quirky book about the mysteries of cats and their secret lives, told from the point of view of a young child. Playful and bold illustrations complement the simple text, inspired by a much-loved family feline. In 1989 a woman fishing in Texas on a quiet stretch of the Colorado River snagged a body. Her “catch” was the corpse of Johnny Jenkins, shot in the head. His death was as dramatic as the rare book dealer's life, which read, as the *Austin American-Statesman* declared, “like a bestseller.” In 1975 Jenkins had staged the largest rare book coup of the twentieth century—the purchase, for more than two million dollars, of the legendary Eberstadt inventory of rare Americana, a feat noted in the *New York Times* and the *Wall Street Journal*. His undercover work for the FBI, recovering rare books stolen by mafia figures, had also earned him headlines coast to coast, as had his exploits as “Austin Squatty,” playing high stakes poker in Las Vegas. But beneath such public triumphs lay darker secrets. At the time of his death, Jenkins was about to be indicted by the ATF for the arson of his rare books, warehouse, and offices. Another investigation implicated Jenkins in forgeries of historical documents, including the Texas Declaration of Independence. Rumors of million-dollar gambling debts at mob-connected casinos circulated, along with the rumblings of irate mafia figures he'd fingered and eccentric Texas collectors he'd cheated. Had he been murdered? Or was his death a suicide, staged to look like a murder? How Jenkins, a onetime president of the Antiquarian Booksellers Association of America, came to such an unseemly end is one of the mysteries Michael Vinson pursues in this spirited account of a tragic American life. Entrepreneur, con man, connoisseur, forger, and self-made hero, Jenkins was a Texan who knew how to bluff but not when to fold.

A man who can't pronounce “anonymous” In high office, seems rather ominous. We don't have to get all Deuteronomous: Brains and power are rarely synonymous. "I love every word Mark Childress writes, including this new compilation of his great political writing. He is brilliant and hilarious. " – Anne Lamott "You, sir, are a libtard!" – Glenn Beck New York Times bestselling author Mark

Childress was like many liberal Americans whose life veered off the tracks as Donald Trump rose to power. In his day-by-day journal, Childress tirelessly pursues the funny side of America's descent into Trumpism. From Viet Nam to New Orleans to the Women's March and beyond, the author spins variations on all the absurd, ridiculous, head-exploding, enraging, unbelievable moments of the Trump Years. The book includes photos, tweets, teets, doggerel, lyrics, fake news, and all manner of hijinks, twaddle, & flimflamery. If Trump & Company drive you crazy, but you're almost ready to laugh - this is the book for you. Jesus Rollerblading Christ--another helping of TheOatmeal! Mrow, MOAR kitty comics. Mr. Oats delivers a sidesplitting serving of cat humor in his new book, How to Tell If Your Cat Is Plotting to Kill You. If your cat is kneading you, that's not a sign of affection. Your cat is actually checking your internal organs for weakness. If your cat brings you a dead animal, this isn't a gift. It's a warning. How to Tell If Your Cat Is Plotting to Kill You is a hilarious, brilliant offering of comics, facts, and instructional guides about crazy cat behaviors from the creative wonderland at TheOatmeal.com. How to Tell If Your Cat Is Plotting to Kill You presents fan favorites, such as "Cat vs. Internet," "How to Pet a Kitty," and "The Bobcats," plus 17 brand-new, never-before-seen cat-themed comic strips. This Oatmeal collection is a must-have for cat-lovers from Mr. Oats!

Across the world, cats are loved as pets or are kept or tolerated for their role in controlling some animal pests. But cats, both pets and feral, also kill many native animals and this toll can be enormous. Cats have been remarkably successful in Australia, spreading pervasively across the continent and many islands, occurring in all environments, and proving to be adept and adaptable hunters. A large proportion of Australia's distinctive fauna is threatened and recent research highlights the significant role that cats play in the decline and extinction of native species. Cats in Australia brings this research together, documenting the extent to which cats have subverted, and are continuing to subvert, Australia's biodiversity. But the book does much more than spotlight the impacts of cats on Australian nature. It describes the origins of cats and their global spread, their long-standing and varying relationship with people, their global impacts and their ecology. It also seeks to describe the challenge of managing cats, and the options available to constrain their impacts.
