From iconic paintings by Vincent van Gogh to their much-spat seeds at baseball games, the massive, golden blossoms of sunflowers have become a part of our literary and visual cultures and daily lives, inspiring artists and poets and used by advertisers to promote countless products. But sunflowers are only the most recognizable members of the world's largest family of plants, Asteraceae, which includes lettuce, chrysanthemums, asters, dahlias, and weeds. And in this book, Stephen A. Harris unearths the extraordinary history of this entire sunflower bouquet. Unraveling the interplay between human cultures and the biology of these spectacular blooms over the last six thousand years, Sunflowers explores our persistent fascination with this family and how our uses of the plants have changed over millennia. Found in almost all habitats, from the driest deserts and tallest mountains to grasslands and urban wastelands, the sunflower family includes more than 32,000 species. It produces hugely popular and economically valuable ornamental flowers, as well as familiar flavorings such as tarragon and artemesia, and its members are also used in the production of antimalarial drugs, artificial sweeteners, insecticide, and fish poisons. Illustrated with many rarely seen images of the sunflower family, this beautiful volume sheds surprising new light on these familiar, sunniest of flowers.

The myths and legends of Scotland are full of what is called "local colour". They afford us not only glimpses of ancient times and of old habits of thought and life, but also of the country itself at different times of the year. Stories like that of Beira and the Bride of Spring. Because so many old stories were passed on orally by storytellers, with the advent of the industrial revolution printed books became more common and these stories became "lost" as less attended the once popular storytelling sessions. Then in 1870 the UK Education Act undertook to teach all children how to read and the art of storytelling all but died out altogether.

However in this volume, Donald Mackenzie has saved 16 of these precious remnants of old Scotland and put them into print for us. The stories in this volume are: \* Beira, Queen Of Winter \* The Coming Of Angus And Bride \* Combats That Never End \* The Princess Of Land-Under-Waves \* Nimble Men, Blue Men, And Green Ladies \* Conall And The Thunder Hag \* Story Of Finlay And The Giants \* Heroes On The Green Isle \* A Vision Of The Dead \* The Story Of Michael Scott \* In The Kingdom Of Seals \* Story Of Thomas The Rhymer \* The Maid-Of-The-Wave \* Exiles From Fairyland \* Friends And Foes Of Man \* The Land Of Green Mountains The old people believed that somewhere to the West of Scotland, the spirit of Spring had its hiding-place, and they imagined this hiding-place to be a green floating island on which the sun always shone and flowers were always blooming. During the reign of Beira, Queen of Winter, the spirit of Spring, they thought, was always trying to visit Scotland, and they imagined that Beira raised the storms of January and February to prolong her reign by keeping the grass from growing. This volume is sure to keep you enchanted for hours, if only not because of the content, but because of their quality, and will have you and your young wards coming back for more. ===== TAGS: folklore, fairy tales, myths, legends, children's stories, bedtime, fables, wonder tales, Scottish, scots, scotch, Scotland, myth, legend, Beira, Queen Of Winter, King, Coming of, Angus And Bride, Combats, Never End, Princess Land Under the Waves, Nimble Men, Blue Men, Green Ladies, lady, Conall, Thunder Hag, Finlay, Giants, Heroes, Green Isle, Vision Of The Dead, Michael Scott, story, Kingdom Of Seals, Thomas The Rhymer, Maid-Of-The-Wave, maiden, Exiles, Fairyland, Friend And Foe, Land, Green Mountains

Wildflowers and the Call to the Altar is a fascinating story of the history of the St. Francis Altar Society, embedded within the tri-cultural nexus of Santa Fe, New Mexico. For close to a hundred years, the society responded to the call that the church, established in 1610, required a formal Altar Society to care for the sanctuary needs, yet also to address the personal sanctification of the members. Since its inception, the society has served the altar of the church and extended its vision to “the altar of the world” through works of social justice, which are more urgent than ever, along with the care of the altar and the laundry. There is room for the holiness and fidelity of women to serve the church. Under the mantle of humility, and the commitment to mission, the women of the St. Francis Altar Society have persisted like the women at the foot of the cross. They have embraced the call to ministry and discipleship extended to all in the Gospels. Service to the altar extends into the world, where the reality of the love of Christ intersects with everyday life.
