Whatever Happened to the World of Tomorrow?, the long-awaited follow-up to Mom's Cancer, is a unique graphic novel that tells the story of a young boy and his relationship with his father. Spanning the period from the 1939 New York World's Fair to the last Apollo space mission in 1975, it is told through the eyes of a boy as he grows up in an era that was optimistic and ambitious, fueled by industry, engines, electricity, rockets, and the atom bomb. An insightful look at relationships and the promise of the future, award-winning author Brian Fies presents his story in a way that only comics and graphic novels can. Interspersed with the comic book adventures of Commander Cap Crater (created by Fies to mirror the styles of the comics and the time periods he is depicting), and mixing art and historical photographs, this groundbreaking graphic novel is a lively trip through a half century of technological evolution. It is also a perceptive look at the changing moods of our nation- and the enduring promise of the future. Praise for Whatever Happened to the World of Tomorrow? "A graphic novel that looks like TV's "Futurama" bred with The Golden Age of Comic Books, Whatever Happened to the World of Tomorrow? is at times charming, at times sad and foreboding, and always thought provoking." —Air & Space Smithsonian "A hopelessly optimistic moon-age daydream"—The Village Voice "An exceptional and highly engaging experience." —The Miami Herald "Whatever Happened To The World Of Tomorrow is a very special book that will speak to you on so many levels. And at the end of it, when you sit there and think on what you've just read, it may even make you, like it did me, realise that Fies' vision of our past and his hope for the future is something we can all share in. Quite brilliant."—Richard Bruton, forbiddenplanet.co.uk F&P level: Y

John was once described by a friend as a man who looked like he had a party going on in his head all the time. In Duck Butts: Seasons With God he invites you to that party. In this, his first collection of writings, he shares his somewhat askew humor with short essays like If I Were the Pope. He takes us on an imaginative flight in Astronaut, and then brings us soberly back home with Walking For Groceries. Within these pages you'll also find experiments in poetry and a few song lyrics, some of which have forgotten melodies and have come to stand as statements that punctuate a journey of faith and grace. This book can be read straight through but also allows the reader to go slow and experience the change of seasons. John's voice can be irreverent, silly, and painfully honest but always returns to grace--as all seasons with God do.

As Ruben Wells kneels with a gun pointed at his head all he can do is reflect on the life he spoiled. What has led him here? Was it his willingness to always try to do the right thing that has him staring at the barrel of a gun? Or was that he was too much of a people pleaser having a hard time saying no that has led to him begging for his life? Every thing begins and ends with a choice. The moment a choice is made it only takes a second for a life to change. Ruben made a

choice to initiate a relationship with the alluring Bianca Jones. She makes heads turn and every man's dream. She is beautiful as a gazelle, but as dangerous as a lioness, as she's unavailable due to being unhappily married with children. Being married doesn't keep her from wanting to pursue Ruben as well as being pursued by him. Getting involved with Bianca changes Ruben's life in ways he never could have imagined. Choices are a gift constantly given to everyone. The choices made lead to different paths. We all have to choose this day what we're going to do with our own lives not knowing what the end result will be. What kind of impact will Ruben's choices have on his life?

From the seventeenth century to the early years of the twentieth, the population of Martha's Vineyard manifested an extremely high rate of profound hereditary deafness. In stark contrast to the experience of most deaf people in our own society, the Vineyarders who were born deaf were so thoroughly integrated into the daily life of the community that they were not seen—and did not see themselves—as handicapped or as a group apart. Deaf people were included in all aspects of life, such as town politics, jobs, church affairs, and social life. How was this possible? On the Vineyard, hearing and deaf islanders alike grew up speaking sign language. This unique sociolinguistic adaptation meant that the usual barriers to communication between the hearing and the deaf, which so isolate many deaf people today, did not exist.
