

William I Penguin Monarchs Englands Conqueror

She ascended the thrones of England, Scotland and Ireland in 1702, at age thirty-seven, Britain's last Stuart monarch, and five years later united two of her realms, England and Scotland, as a sovereign state, creating the Kingdom of Great Britain. She had a history of personal misfortune, overcoming ill health (she suffered from crippling arthritis; by the time she became Queen she was a virtual invalid) and living through seventeen miscarriages, stillbirths, and premature births in seventeen years. By the end of her comparatively short twelve-year reign, Britain had emerged as a great power; the succession of outstanding victories won by her general, John Churchill, the Duke of Marlborough, had humbled France and laid the foundations for Britain's future naval and colonial supremacy. While the Queen's military was performing dazzling exploits on the continent, her own attention—indeed her realm—rested on a more intimate conflict: the female friendship on which her happiness had for decades depended and which became for her a source of utter torment. At the core of Anne Somerset's riveting new biography, published to great acclaim in England (“Definitive”—London Evening Standard; “Wonderfully pacy and absorbing”—Daily Mail), is a portrait of this deeply emotional, complex bond

Download Free William I Penguin Monarchs Englands Conqueror

between two very different women: Queen Anne—reserved, stolid, shrewd; and Sarah Churchill, Duchess of Marlborough, wife of the Queen’s great general—beautiful, willful, outspoken, whose acerbic wit was equally matched by her fearsome temper. Against a fraught background—the revolution that deposed Anne’s father, James II, and brought her to power . . . religious differences (she was born Protestant—her parents’ conversion to Catholicism had grave implications—and she grew up so suspicious of the Roman church that she considered its doctrines “wicked and dangerous”) . . . violently partisan politics (Whigs versus Tories) . . . a war with France that lasted for almost her entire reign . . . the constant threat of foreign invasion and civil war—the much-admired historian, author of *Elizabeth I* (“Exhilarating”—*The Spectator*; “Ample, stylish, eloquent”—*The Washington Post Book World*), tells the extraordinary story of how Sarah goaded and provoked the Queen beyond endurance, and, after the withdrawal of Anne’s favor, how her replacement, Sarah’s cousin, the feline Abigail Masham, became the ubiquitous royal confidante and, so Sarah whispered to growing scandal, the object of the Queen’s sexual infatuation. To write this remarkably rich and passionate biography, Somerset, winner of the Elizabeth Longford Prize for Historical Biography, has made use of royal archives, parliamentary records, personal correspondence and previously

Download Free William I Penguin Monarchs Englands Conqueror

unpublished material. Queen Anne is history on a large scale—a revelation of a centuries-overlooked monarch.

Compares the historical kings with their portrayal in Shakespeare's plays
The acclaimed Penguin Monarchs series: short, fresh, expert accounts of England's rulers - now in paperback William III (1689-1702) & Mary II (1689-94) (Britain's only ever 'joint monarchs') changed the course of the entire country's history, coming to power through a coup (which involved Mary betraying her own father), reestablishing parliament on a new footing and, through committing Britain to fighting France, initiating an immensely long period of warfare and colonial expansion. Jonathan Keates' wonderful book makes both monarchs vivid, the cold, shrewd 'Dutch' William and the shortlived Mary, whose life and death inspired Purcell to write some of his greatest music.

Edward the Confessor, the last great king of Anglo-Saxon England, canonized nearly 100 years after his death, is in part a figure of myths created in the late middle ages. In this revealing portrait of England's royal saint, David Woodman traces the course of Edward's twenty-four-year-long reign through the lens of contemporary sources, from the Anglo-Saxon Chronicle and the Vita Ædwardi Regis to the Bayeux Tapestry, to separate myth from history and uncover the complex politics of his life. He shows Edward to be a shrewd politician who,

Download Free William I Penguin Monarchs Englands Conqueror

having endured a long period of exile from England in his youth, ascended the throne in 1042 and came to control a highly sophisticated and powerful administration. The twists and turns of Edward's reign are generally seen as a prelude to the Norman Conquest in 1066. Woodman explains clearly how events unfolded and personalities interacted but, unlike many, he shows a capable and impressive king at the centre of them.

On Christmas Day 1066, William, duke of Normandy was crowned in Westminster, the first Norman king of England. It was a disaster: soldiers outside, thinking shouts of acclamation were treachery, torched the surrounding buildings. To later chroniclers, it was an omen of the catastrophes to come. During the reign of William the Conqueror, England experienced greater and more seismic change than at any point before or since. Marc Morris's concise and gripping biography sifts through the sources of the time to give a fresh view of the man who changed England more than any other, as old ruling elites were swept away, enemies at home and abroad (including those in his closest family) were crushed, swathes of the country were devastated and the map of the nation itself was redrawn, giving greater power than ever to the king. When, towards the end of his reign, William undertook a great survey of his new lands, his subjects compared it to the last judgement of God, the Domesday Book. England had

been transformed forever.

Foremost medieval historian Anne Curry offers a new reinterpretation of Henry V and the battle that defined his kingship: Agincourt Henry V's invasion of France, in August 1415, represented a huge gamble. As heir to the throne, he had been a failure, cast into the political wilderness amid rumours that he planned to depose his father. Despite a complete change of character as king - founding monasteries, persecuting heretics, and enforcing the law to its extremes - little had gone right since. He was insecure in his kingdom, his reputation low. On the eve of his departure for France, he uncovered a plot by some of his closest associates to remove him from power. Agincourt was a battle that Henry should not have won - but he did, and the rest is history. Within five years, he was heir to the throne of France. In this vivid new interpretation, Anne Curry explores how Henry's hyperactive efforts to expunge his past failures, and his experience of crisis - which threatened to ruin everything he had struggled to achieve - defined his kingship, and how his astonishing success at Agincourt transformed his standing in the eyes of his contemporaries, and of all generations to come. 'Æthelred's reign of nearly thirty-eight years was the longest of any Anglo-Saxon ruler. If he had died in AD 1000, history would have remembered him more kindly' Few monarchs of the Middle Ages have had a worse popular reputation

than Æthelred II, 'the Unready', remembered as the king who lost England to Viking invaders. But, as Richard Abels shows, the failure to defend his realm was not entirely his alone. Æthelred was in many ways an innovative ruler but one whose challenges - a divided court, a fragile nascent kingdom, a voracious, hydra-headed enemy - were ultimately too great to overcome.

James's reign marked one of the very rare major breaks in England's monarchy. Already James VI of Scotland and a highly experienced ruler who had established his authority over the Scottish Kirk, he marched south on Elizabeth I's death to become James I of England and Ireland, uniting the British Isles for the first time and founding the Stuart dynasty which would, with several lurches, reign for over a century. Indeed his descendant still occupies the throne. A complex, curious man and great survivor, James drastically changed court life in London and presided over such major projects as the Authorized Version of the Bible and the establishment of English settlements in Virginia, Massachusetts, Gujarat and the Caribbean. Although he failed to unite England and Scotland, he insisted that ambassadors acknowledge him as King of Great Britain and that vessels from both countries display a version of the current Union Flag. He was often accused of being too informal and insufficiently regal - but when his son, Charles I, decided to redress these criticisms in his own reign he was destroyed.

Download Free William I Penguin Monarchs Englands Conqueror

How much of the roots of this disaster were to be found in James's reign is one of the many problems dramatized in Thomas Cogswell's brilliant and highly entertaining new book.

A sweeping and original history of the Anglo-Saxons by national bestselling author Marc Morris. Sixteen hundred years ago Britain left the Roman Empire and swiftly fell into ruin. Grand cities and luxurious villas were deserted and left to crumble, and civil society collapsed into chaos. Into this violent and unstable world came foreign invaders from across the sea, and established themselves as its new masters. The Anglo-Saxons traces the turbulent history of these people across the next six centuries. It explains how their earliest rulers fought relentlessly against each other for glory and supremacy, and then were almost destroyed by the onslaught of the vikings. It explores how they abandoned their old gods for Christianity, established hundreds of churches and created dazzlingly intricate works of art. It charts the revival of towns and trade, and the origins of a familiar landscape of shires, boroughs and bishoprics. It is a tale of famous figures like King Offa, Alfred the Great and Edward the Confessor, but also features a host of lesser known characters - ambitious queens, revolutionary saints, intolerant monks and grasping nobles. Through their remarkable careers we see how a new society, a new culture and a single unified nation came into

Download Free William I Penguin Monarchs Englands Conqueror

being. Drawing on a vast range of original evidence - chronicles, letters, archaeology and artefacts - renowned historian Marc Morris illuminates a period of history that is only dimly understood, separates the truth from the legend, and tells the extraordinary story of how the foundations of England were laid.

William I (Penguin Monarchs)England's ConquerorPenguin UK

'Stephen risked being seen as a man who never quite transcended the essential flawed-ness of his claim to be king. His actions betrayed uneasiness in his new skin' Remembered as a time in which 'Christ and his saints slept', Stephen's troubled reign plunged England into anarchy. Without clear rules of succession in the Norman monarchy, conflict within William the Conqueror's family was inevitable. But, as this resonant portrait shows, there was another problem too: Stephen himself, unable to make good the transition from nobleman to king. Fifteen years in the making, a landmark reinterpretation of the life of a pivotal figure in British and European history In this magisterial addition to the Yale English Monarchs series, David Bates combines biography and a multidisciplinary approach to examine the life of a major figure in British and European history. Using a framework derived from studies of early medieval kingship, he assesses each phase of William's life to establish why so many trusted William to invade England in 1066 and the consequences of this on the

Download Free William I Penguin Monarchs Englands Conqueror

history of the so-called Norman Conquest after the Battle of Hastings and for generations to come. A leading historian of the period, Bates is notable for having worked extensively in the archives of northern France and discovered many eleventh- and twelfth-century charters largely unnoticed by English-language scholars. Taking an innovative approach, he argues for a move away from old perceptions and controversies associated with William's life and the Norman Conquest. This deeply researched volume is the scholarly biography for our generation.

Richard I's reign is both controversial and seemingly contradictory. One of England's most famous medieval monarchs and a potent symbol of national identity, he barely spent six months on English soil during a ten-year reign and spoke French as his first language. Contemporaries dubbed him the 'Lionheart', reflecting a carefully cultivated reputation for bravery, prowess and knightly virtue, but this supposed paragon of chivalry butchered close to 3,000 prisoners in cold blood on a single day. And, though revered as Christian Europe's greatest crusader, his grand campaign to the Holy Land failed to recover the city of Jerusalem from Islam. Seeking to reconcile this conflicting evidence, Thomas Asbridge's incisive reappraisal of Richard I's career questions whether the Lionheart really did neglect his kingdom, considers why he devoted himself to the

Download Free William I Penguin Monarchs Englands Conqueror

cause of holy war and asks how the memory of his life came to be interwoven with myth. Richard emerges as a formidable warrior-king, possessed of martial genius and a cultured intellect, yet burdened by the legacy of his dysfunctional dynasty and obsessed with the pursuit of honour and renown.

This first comprehensive biography of Henry I, the youngest son of William the Conqueror and an elusive figure for historians, offers a rich and compelling account of his tumultuous life and reign. Judith Green argues that although Henry's primary concern was defence of his inheritance this did not preclude expansion where circumstances were propitious, notably into Welsh territory. His skilful dealings with the Scots permitted consolidation of Norman rule in the northern counties of England, while in Normandy every sinew was strained to defend frontiers through political alliances and stone castles. Green argues that although Henry's own outlook was essentially traditional, the legacy of this fascinating and ruthless personality included some fundamentally important developments in governance. She also sheds light on Henry's court, suggesting that it made an important contribution to the flowering of court culture throughout twelfth-century Europe.

The first major biography of a truly formidable king, whose reign was one of the most dramatic and important of the entire Middle Ages, leading to war and

Download Free William I Penguin Monarchs Englands Conqueror

conquest on an unprecedented scale. Edward I is familiar to millions as "Longshanks," conqueror of Scotland and nemesis of Sir William Wallace (in "Braveheart"). Yet this story forms only the final chapter of the king's action-packed life. Earlier, Edward had defeated and killed the famous Simon de Montfort in battle; travelled to the Holy Land; conquered Wales, extinguishing forever its native rulers and constructing a magnificent chain of castles. He raised the greatest armies of the Middle Ages and summoned the largest parliaments; notoriously, he expelled all the Jews from his kingdom. The longest-lived of England's medieval kings, he fathered fifteen children with his first wife, Eleanor of Castile, and, after her death, he erected the Eleanor Crosses—the grandest funeral monuments ever fashioned for an English monarch. In this book, Marc Morris examines afresh the forces that drove Edward throughout his relentless career: his character, his Christian faith, and his sense of England's destiny—a sense shaped in particular by the tales of the legendary King Arthur. He also explores the competing reasons that led Edward's opponents (including Robert Bruce) to resist him. The result is a sweeping story, immaculately researched yet compellingly told, and a vivid picture of medieval Britain at the moment when its future was decided.

'James was a king tragically trapped by principle. Yet was it wise to attempt to

Download Free William I Penguin Monarchs Englands Conqueror

change the national religion?' The short reign of James II is generally seen as one of the most catastrophic in British history, ending in his exile after he unsuccessfully tried to convert England to Catholicism, a crisis that would haunt the monarchy for generations. Ultimately, David Womersley's biography shows, James was a man whose blindness to subtlety and political reality brought about his ruinous downfall.

'After my death,' George V said of his eldest son and heir, 'the boy will ruin himself within twelve months.' The forecast proved uncannily accurate. Edward VIII came to the throne in January 1936, provoked a constitutional crisis by his determination to marry the American divorcée Wallis Simpson, and abdicated in December. He was never crowned king. In choosing the woman he loved over his royal birthright, Edward shook the monarchy to its foundations. Given the new title 'Duke of Windsor' and essentially sent into exile, he remained a visible skeleton in the royal cupboard until his death in 1972 and he haunts the house of Windsor to this day. Drawing on unpublished material, notably correspondence with his most loyal (though much tried) supporter Winston Churchill, Piers Brendon's superb biography traces Edward's tumultuous public and private life from bright young prince to troubled sovereign, from wartime colonial governor to sad but glittering expatriate. With pace and panache, it cuts through the myths that still surround this most controversial of modern British monarchs.

Although he styled himself 'His Highness', adopted the court ritual of his royal predecessors, and lived in the former royal palaces of Whitehall and Hampton Court, Oliver Cromwell was not

Download Free William I Penguin Monarchs Englands Conqueror

a king - in spite of the best efforts of his supporters to crown him. Yet, as David Horspool shows in this illuminating new portrait of England's Lord Protector, Cromwell, the Puritan son of Cambridgeshire gentry, wielded such influence that it would be a pretence to say that power really lay with the collective. The years of Cromwell's rise to power, shaped by a decade-long civil war, saw a sustained attempt at the collective government of England; the first attempts at a real Union of Britain; the beginnings of empire; a radically new solution to the idea of a national religion; atrocities in Ireland; and the readmission to England of the Jews, a people officially banned for over three and a half centuries. At the end of it, Oliver Cromwell had emerged as the country's sole ruler: to his enemies, and probably to most of his countrymen, his legacy looked as likely to last as that of the Stuart dynasty he had replaced.

'He seems to have laboured under an almost child-like misapprehension about the size of his world. Had greatness not been thrust upon him, he might have lived a life of great harmlessness.' The reign of Edward II was a succession of disasters. Unkingly, inept in war, and in thrall to favourites, he preferred digging ditches and rowing boats to the tedium of government. His infatuation with a young Gascon nobleman, Piers Gaveston, alienated even the most natural supporters of the crown. Hoping to lay the ghost of his soldierly father, Edward I, he invaded Scotland and suffered catastrophic defeat at the Battle of Bannockburn. After twenty ruinous years, betrayed and abandoned by most of his nobles and by his wife and her lover, Edward was imprisoned in Berkeley Castle and murdered - the first English king since the Norman Conquest to be deposed.

The future William II was born in the late 1050s the third son of William the Conqueror. The younger William, - nicknamed Rufus because of his ruddy cheeks - at first had no great

Download Free William I Penguin Monarchs Englands Conqueror

expectations of succeeding to the throne. This biography tells the story of William Rufus, King of England from 1087-1100 and reveals the truth behind his death.

The formation of England occurred against the odds: an island divided into rival kingdoms, under savage assault from Viking hordes. But, after King Alfred ensured the survival of Wessex and his son Edward expanded it, his grandson Athelstan inherited the rule of both Mercia and Wessex, conquered Northumbria and was hailed as Rex totius Britanniae: 'King of the whole of Britain'. Tom Holland recounts this extraordinary story with relish and drama, transporting us back to a time of omens, raven harbingers and blood-red battlefields. As well as giving form to the figure of Athelstan - devout, shrewd, all too aware of the precarious nature of his power, especially in the north - he introduces the great figures of the age, including Alfred and his daughter Aethelflaed, 'Lady of the Mercians', who brought Athelstan up at the Mercian court. Making sense of the family rivalries and fractious conflicts of the Anglo-Saxon rulers, Holland shows us how a royal dynasty rescued their kingdom from near-oblivion and fashioned a nation that endures to this day.

King John is one of those historical characters who needs little in the way of introduction. If readers are not already familiar with him as the tyrant whose misgovernment gave rise to Magna Carta, we remember him as the villain in the stories of Robin Hood. Formidable and cunning, but also cruel, lecherous, treacherous and untrusting. Twelve years into his reign, John was regarded as a powerful king within the British Isles. But despite this immense early success, when he finally crosses to France to recover his lost empire, he meets with disaster. John returns home penniless to face a tide of criticism about his unjust rule. The result is Magna Carta – a ground-breaking document in posterity, but a worthless piece of parchment in

Download Free William I Penguin Monarchs Englands Conqueror

1215, since John had no intention of honoring it. Like all great tragedies, the world can only be put to rights by the tyrant's death. John finally obliges at Newark Castle in October 1216, dying of dysentery as a great gale howls up the valley of the Trent.

'The experience of insecurity, it turned out, would shape one of the most remarkable monarchs in England's history' In the popular imagination, as in her portraits, Elizabeth I is the image of monarchical power. But this image is as much armour as a reflection of the truth. In this illuminating account of England's iconic queen, Helen Castor reveals her reign as shaped by a profound and enduring insecurity that was a matter of both practical politics and personal psychology.

The elder daughter of Henry VIII, Mary I (1553-58) became England's ruler on the unexpected death of her brother Edward VI. Her short reign is one of the great potential turning points in the country's history. As a convinced Catholic and the wife of Philip II, king of Spain and the most powerful of all European monarchs, Mary could have completely changed her country's orbit, making it a province of the Habsburg Empire and obedient again to Rome. These extraordinary possibilities are fully dramatized in John Edward's superb short biography. The real Mary I has almost disappeared under the great mass of Protestant propaganda that buried her reputation during her younger sister, Elizabeth I's reign. But what if she had succeeded? For a man with such conventional tastes and views, George V had a revolutionary impact. Almost despite himself he marked a decisive break with his flamboyant predecessor Edward VII, inventing the modern monarchy, with its emphasis on frequent public appearances, family values and duty. George V was an effective war-leader and

Download Free William I Penguin Monarchs Englands Conqueror

inventor of 'the House of Windsor'. In an era of ever greater media coverage--frequently filmed and initiating the British Empire Christmas broadcast--George became for 25 years a universally recognised figure. He was also the only British monarch to take his role as Emperor of India seriously. While his great rivals (Tsar Nicolas and Kaiser Wilhelm) ended their reigns in catastrophe, he plodded on. David Cannadine's sparkling account of his reign could not be more enjoyable, a masterclass in how to write about Monarchy, that central--if peculiar--pillar of British life.

A BOOK OF THE YEAR 2021, AS CHOSEN BY THE TIMES, NEW STATESMAN AND TIMES LITERARY SUPPLEMENT 'A big historical advance. Ours, it turns out, is a very un-insular "Island Story". And its 17th-century chapter will never look quite the same again' John Adamson, Sunday Times A ground-breaking portrait of the most turbulent century in English history Among foreign observers, seventeenth-century England was known as 'Devil-Land': a diabolical country of fallen angels, torn apart by seditious rebellion, religious extremism and royal collapse. Clare Jackson's dazzling, original account of English history's most turbulent and radical era tells the story of a nation in a state of near continual crisis. As an unmarried heretic with no heir, Elizabeth I was regarded with horror by Catholic Europe, while her Stuart successors, James I and Charles I, were seen as impecunious and incompetent, unable to manage their three kingdoms of England, Scotland and Ireland. The traumatic civil wars, regicide and a republican Commonwealth were followed by the floundering, foreign-leaning rule of

Download Free William I Penguin Monarchs Englands Conqueror

Charles II and his brother, James II, before William of Orange invaded England with a Dutch army and a new order was imposed. Devil-Land reveals England as, in many ways, a 'failed state': endemically unstable and rocked by devastating events from the Gunpowder Plot to the Great Fire of London. Catastrophe nevertheless bred creativity, and Jackson makes brilliant use of eyewitness accounts - many penned by stupefied foreigners - to dramatize her great story. Starting on the eve of the Spanish Armada's descent in 1588 and concluding with a not-so 'Glorious Revolution' a hundred years later, Devil-Land is a spectacular reinterpretation of England's vexed and enthralling past.

The youngest of William the Conqueror's sons, Henry I (1100-35) was never meant to be king, but he was destined to become one of the greatest of all medieval monarchs, both through his own ruthlessness and intelligence and through the dynastic legacy of his daughter Matilda, who began the Plantagenet line that would rule England until 1485. A self-consciously diligent and thoughtful king, his rule was looked back on as the real post-invasion re-founding of England as a new realm, integrated into the continent, wealthy and stable. Edmund King's wonderful portrait of Henry shows him as a strikingly charismatic and thoughtful man. His life was dogged by a single great disaster, the death of his teenage heir William in the White Ship disaster. Despite astonishing numbers of illegitimate sons, Henry was now left with only a daughter. This fact would shape the rest of the 12th century and beyond.

Download Free William I Penguin Monarchs Englands Conqueror

King of Britain for sixty years and the last king of what would become the United States, George III inspired both hatred and loyalty and is now best known for two reasons: as a villainous tyrant for America's Founding Fathers, and for his madness, both of which have been portrayed on stage and screen. In this concise and penetrating biography, Jeremy Black turns away from the image-making and back to the archives, and instead locates George's life within his age: as a king who faced the loss of key colonies, rebellion in Ireland, insurrection in London, constitutional crisis in Britain and an existential threat from Revolutionary France as part of modern Britain's longest period of war. Black shows how George III rose to these challenges with fortitude and helped settle parliamentary monarchy as an effective governmental system, eventually becoming the most popular monarch for well over a century. He also shows us a talented and curious individual, committed to music, art, architecture and science, who took the duties of monarchy seriously, from reviewing death penalties to trying to control his often wayward children even as his own mental health failed, and became Britain's longest reigning king.

In the first volume of an exciting new series, bestselling author Alison Weir brings the dramatic reigns of England's medieval queens to life. The lives of England's medieval queens were packed with incident—love, intrigue, betrayal, adultery, and warfare—but their stories have been largely obscured by centuries of myth and omission. Now esteemed biographer Alison Weir provides a fresh perspective and restores these

Download Free William I Penguin Monarchs Englands Conqueror

women to their rightful place in history. Spanning the years from the Norman conquest in 1066 to the dawn of a new era in 1154, when Henry II succeeded to the throne and Eleanor of Aquitaine, the first Plantagenet queen, was crowned, this epic book brings to vivid life five women, including: Matilda of Flanders, wife of William the Conqueror, the first Norman king; Matilda of Scotland, revered as “the common mother of all England”; and Empress Maud, England’s first female ruler, whose son King Henry II would go on to found the Plantagenet dynasty. More than those who came before or after them, these Norman consorts were recognized as equal sharers in sovereignty. Without the support of their wives, the Norman kings could not have ruled their disparate dominions as effectively. Drawing from the most reliable contemporary sources, Weir skillfully strips away centuries of romantic lore to share a balanced and authentic take on the importance of these female monarchs. What emerges is a seamless royal saga, an all-encompassing portrait of English medieval queenship, and a sweeping panorama of British history. Praise for *Queens of the Conquest* “Best-selling author [Alison] Weir pens another readable, well-researched English history, the first in a proposed four-volume series on England’s medieval queens. . . . Weir’s research skills and storytelling ability combine beautifully to tell a fascinating story supported by excellent historical research. Fans of her fiction and nonfiction will enjoy this latest work.”—*Library Journal* (starred review) “Another sound feminist resurrection by a seasoned historian . . . Though Norman queens were largely unknowable, leave it to this prolific historical

Download Free William I Penguin Monarchs Englands Conqueror

biographer to bring them to life. . . . As usual, Weir is meticulous in her research.”—Kirkus Reviews

Written by Philip Ziegler, one of Britain's most celebrated biographers, George VI is part of the Penguin Monarchs series: short, fresh, expert accounts of England's rulers in a collectible format If Ethelred was notoriously 'Unready' and Alfred 'Great', King George VI should bear the title of 'George the Dutiful'. Throughout his life, George dedicated himself to the pursuit of what he thought he ought to be doing rather than what he wanted to do. Inarticulate and loathing any sort of public appearances, he accepted that it was his destiny to figure conspicuously in the public eye, gritted his teeth, battled his crippling stammer and got on with it. He was not born to be king, but he made an admirable one, and was the figurehead of the nation at the time of its greatest trial, the Second World War. This is a brilliant, touching and sometimes funny book about this reluctant public figure, and the private man. Philip Ziegler is the author of the authorised biographies of Mountbatten, Harold Wilson and Edward Heath. His other books include The Duchess of Dino, William IV, The Black Death and most recently Olivier. Initially a diplomat, he worked for many years in book publishing before becoming a full-time writer.

The acclaimed Penguin Monarchs series: short, fresh, expert accounts of England's rulers - now in paperback Edward I (1272-1307) is one of the most commanding of all English rulers. He fought in southwest France, in Wales, In Scotland and in northern

Download Free William I Penguin Monarchs Englands Conqueror

France, he ruled with ruthlessness and confidence, undoing the chaotic failure of his father, Henry III's reign. He reshaped England's legal system and came close to bringing the whole island of Great Britain under his rule. He promoted the idea of himself as the new King Arthur, his Round Table still hanging in Winchester Castle to this day. His greatest monuments are the extraordinary castles - Caernarfon, Beaumaris, Harlech and Conwy - built to ensure his rule of Wales and some of the largest of all medieval buildings. Andy King's brilliant short biography brings to life a strange, complex man whose triumphs raise all kinds of questions about the nature of kingship - how could someone who established so many key elements in England's unique legal and parliamentary system also have been such a harsh, militarily brutal warrior?

Henry VI, son of the all-conquering Henry V, was one of the least able and least successful of English kings. His long reign, which started when he was only nine months old, ended in catastrophe, with the loss of England's territories in France and a bankrupt England's long decline into civil war: the wars of the Roses. Yet, failure though Henry undoubtedly was, he remains an enigma. Was he always, as he became in the last disastrous years of his rule, a holy fool, simple-minded to the point of insanity and prey to the ambitions of others? Or was he more active and, as some have suggested, actively malign? In this groundbreaking new portrait, James Ross shows a king whose priorities diverged sharply from what England expected of its monarchs, and whose

Download Free William I Penguin Monarchs Englands Conqueror

fitful engagement with government was directly, though not solely, responsible for the disasters that engulfed the kingdom during his reign.

King John ruled England for seventeen and a half years, yet his entire reign is usually reduced to one image: of the villainous monarch outmanoeuvred by rebellious barons into agreeing to Magna Carta at Runnymede in 1215. Ever since, John has come to be seen as an archetypal tyrant. But how evil was he? In this perceptive short account, Nicholas Vincent unpicks John's life through his deeds and his personality. The youngest of four brothers, overlooked and given a distinctly unroyal name, John seemed doomed to failure. As king, he was reputedly cruel and treacherous, pursuing his own interests at the expense of his country, losing the continental empire bequeathed to him by his father Henry and his brother Richard and eventually plunging England into civil war. Only his lordship of Ireland showed some success. Yet, as this fascinating biography asks, were his crimes necessarily greater than those of his ancestors - or was he judged more harshly because, ultimately, he failed as a warlord? William II (1087-1100), or William Rufus, will always be most famous for his death: killed by an arrow while out hunting, perhaps through accident or perhaps murder. But, as John Gillingham makes clear in this elegant book, as the son and successor to William the Conqueror it was William Rufus who had to establish permanent Norman rule. A ruthless, irascible man, he frequently argued acrimoniously with his older brother Robert over their father's inheritance - but he also handed out effective justice, leaving

Download Free William I Penguin Monarchs Englands Conqueror

as his legacy one of the most extraordinary of all medieval buildings, Westminster Hall. Charismatic, insatiable and cruel, Henry VIII was, as John Guy shows, a king who became mesmerized by his own legend - and in the process destroyed and remade England. Said to be a 'pillager of the commonwealth', this most instantly recognizable of kings remains a figure of extreme contradictions: magnificent and vengeful; a devout traditionalist who oversaw a cataclysmic rupture with the church in Rome; a talented, towering figure who nevertheless could not bear to meet people's eyes when he talked to them. In this revealing new account, John Guy looks behind the mask into Henry's mind to explore how he understood the world and his place in it - from his isolated upbringing and the blazing glory of his accession, to his desperate quest for fame and an heir and the terrifying paranoia of his last, agonising, 54-inch-waisted years.

From the celebrated historian and author of *Europe: A History*, a new life of George II George II, King of Great Britain and Ireland and Elector of Hanover, came to Britain for the first time when he was thirty-one. He had a terrible relationship with his father, George I, which was later paralleled by his relationship to his own son. He was short-tempered and uncultivated, but in his twenty-three-year reign he presided over a great flourishing in his adoptive country - economic, military and cultural - all described with characteristic wit and elegance by Norman Davies. (George II so admired the Hallelujah chorus in Handel's *Messiah* that he stood while it was being performed - as modern audiences still do.) Much of his attention remained in Hanover and on continental

Download Free William I Penguin Monarchs Englands Conqueror

politics, as a result of which he was the last British monarch to lead his troops into battle, at Dettingen in 1744.

This riveting and authoritative USA Today and Wall Street Journal bestseller is “a much-needed, modern account of the Normans in England” (The Times, London). The Norman Conquest was the most significant military—and cultural—episode in English history. An invasion on a scale not seen since the days of the Romans, it was capped by one of the bloodiest and most decisive battles ever fought. Language, law, architecture, and even attitudes toward life itself—from the destruction of the ancient ruling class to the sudden introduction of castles and the massive rebuilding of every major church—were altered forever by the coming of the Normans. But why was this revolution so total? Reassessing original evidence, acclaimed historian and broadcaster Marc Morris goes beyond the familiar story of William the Conqueror, an upstart French duke who defeated the most powerful kingdom in Christendom. Morris explains why England was so vulnerable to attack; why the Normans possessed the military cutting edge though they were perceived as less sophisticated in some respects; and why William’s hopes of a united Anglo-Norman realm unraveled, dashed by English rebellions, Viking invasions, and the insatiable demands of his fellow conquerors. Named one of the best books of the year by the Kansas City Star, who called the work “stunning in its action and drama,” and the Providence Journal, who hailed it “meticulous and absorbing,” this USA Today and Wall Street Journal bestseller is a
