Colombia International Monetary Fund. Western Hemisphere Dept.,2015-06-08 This 2015 Article IV Consultation highlights that Colombia has enjoyed strong growth over the past several years, among the highest in Latin America. Credible fiscal and inflation targeting frameworks have supported sound macroeconomic policy management, which underpinned robust economic performance during the last decade. Social indicators have improved steadily over this period. Public debt remained low. The current account deficit widened to 5.2 percent in 2014, but capital inflows were buoyant. Growth is expected to gradually rise toward its potential over the medium term, supported by the government's public-private partnership-based infrastructure program and a gradual recovery in oil prices and external demand.

Modeling the Effects of a Mountain Pine Beetle Outbreak and Potential Management Responses in Alberta's Eastern Slopes Richard Roland Schneider,2009 We used a simulation model and two management scenarios to investigate possible effects of a severe mountain pine beetle (*Dendroctonus ponderosae* Hopkins) epidemic in Alberta, Canada. Our simulated outbreak was based on the current epidemic in British Columbia, which may kill close to 80% of the province's pine volume. Our two management scenarios were conventional harvest and a pine-reduction strategy modeled on a component of Alberta's Mountain Pine Beetle Management Strategy. The pine strategy seeks to reduce the number of susceptible pine stands by 75% over the next 20 years through targeted harvesting by the forest industry. Our simulations showed that the pine strategy could not be effectively implemented, even if the beetle outbreak was delayed for 20 years. Even though we increased mill capacity by 20% and directed all harvesting to high volume pine stands during the pine strategy's surge cut, the amount of highly susceptible pine was reduced by only 43%. Additional pine volume remained within mixed stands that were not targeted by the pine strategy. When the outbreak occurred in each scenario, sufficient pine remained on the landscape for the beetle to cause the timber supply to collapse. Alternative management approaches and avenues for future research are discussed.

Asthma, COPD, and Overlap Jonathan A. Bernstein, Louis-Philippe Boulet, Michael E. Wechsler, MD, MMSc, 2018-03-22 Using illustrative case examples, this book thoroughly reviews similarities and differences between asthma, chronic obstructive pulmonary disease (COPD) and the overlap syndrome. It is important to highlight the distinctions because these commonly encountered conditions in respiratory and primary care share many similarities but have important differences often mistaken for each other. This can have serious implications for treatment, particularly as new treatments are targeted at specific phenotypes of the diseases. This practical guide shows how to distinguish between the diseases on a pathological and clinical basis so that appropriate management and treatment may be pursued.

The Evolution and Extinction of the Dinosaurs David E. Fastovsky, David B. Weishampel, 2005-02-07 This 2005 edition of *The Evolution and Extinction of the Dinosaurs* is a unique, comprehensive treatment of this fascinating group of organisms. It is a detailed survey of dinosaur origins, their diversity, and their eventual extinction. The book can easily be used as a teaching textbook for a class, but it is also written as a series of readable, entertaining essays covering important and timely topics appealing to non-specialists and all dinosaur enthusiasts: birds as 'living dinosaurs', the new feathered dinosaurs from China, 'warm-bloodedness'. Along the way, the reader learns about dinosaur functional morphology, physiology, and systematics using cladistic methodology - in short, how professional paleontologists and dinosaur experts go about their work, and why they find it so rewarding. The book is spectacularly illustrated by John Sibbick, a world-famous illustrator of dinosaurs, commissioned exclusively for this book.

Computer Architecture Gerrit A. Blaauw, Frederick Phillips Brooks, 1997 In this remarkable book on computer design, long-known in the field and widely used in manuscript form, Gerrit A. Blaauw and Frederick P. Brooks, Jr. provide a definitive guide and reference for practicing computer architects and for students. The book complements Brooks' recently updated classic, *The Mythical Man-Month*, focusing here on the design of hardware and there on software, here on the content of computer architecture and there on the process of architecture design. The book's focus on architecture issues complements Blaauw's early work on implementation techniques. Having experienced most of the computer age, the authors draw heavily on their first-hand knowledge, emphasizing timeless insights and observations. Blaauw and Brooks first develop a conceptual framework for understanding computer architecture. They then describe not only what present architectural practice is, but

how it came to be so. A major theme is the early divergence and the later reconvergence of computer architectures. They examine both innovations that survived and became part of the standard computer, and the many ideas that were explored in real machines but did not survive. In describing the discards, they also address why these ideas did not make it. The authors' goals are to analyze and systematize familiar design alternatives, and to introduce you to unfamiliar ones. They illuminate their discussion with detailed executable descriptions of both early and more recent computers. The designer's most important study, they argue, is other people's designs. This book's computer zoo will give you a unique resource for precise information about 30 important machines. Armed with the factors pro and con on the various known solutions to design problems, you will be better able to determine the most fruitful architectural course for your own design.

The Nehrus and the Gandhis Tariq Ali,2005 The Nehrus are a dynasty without precedent in the modern world; nowhere else and at no other time in recent history has a single family wielded such enduring and pervasive power over the country - and the electorate - they serve. From Jawaharlal Nehru to his daughter, Indira Gandhi, and from there, via Sanjay and Rajiv to - most recently - Sonia, this remarkable family have consistently established both the parameters and rhetoric of India's political development. In the eighties, Tariq Ali made several trips to India, meeting a wide range of political and public figures, including Mrs Gandhi, and leaders of both the Congress and Opposition parties. The Nehrus and the Gandhis, first published in 1985, was the result. Now updated to include the most recent chapters in India's political history, it remains as relevant as ever, offering an intricate and revealing portrait of power, seen through the continued rise - and eyes - of one family.

The Stream & the Sapphire: Selected Poems on Religious Themes Denise Levertov,1997-05-17 Conceived as a convenience to those readers concerned with doubt and faith, Denise Levertov's 34 selected poems originally were published in seven separate volumes. The poet presents a selection of thirty-four of her own poems culled from previously published volumes, tracing her movement from agnosticism to Christian faith and her oscillation from doubt to affirmation along the way.

Sinatra J. Randy Taraborrelli,2015-08-13 In this freshly revised edition of his classic biography, bestselling author J Randy Taraborrelli takes Frank Sinatra's vast audience where it has never been before: deep inside the private life and affairs of this complex, emotional man. The reality of the Sinatra story is all here - rife with sex, danger, inspiration and show-business politics. The author provides astonishing details of Sinatra's many tempestuous romances, including those with Ava Gardner, Mia Farrow, Juliet Prowse and Marilyn Monroe. The reader will learn about his romantic, platonic, and at times even volatile relationship with Elizabeth Taylor; the sad and touching story of Sinatra's relationship with Nancy Reagan; the long-term feud between Frank and his daughter Nancy and how his loss of memory in his final years affected his performance. Drawing on hundreds of interviews with Sinatra's closest friends and associates, and on scores of legal documents, the author explains Frank Sinatra's often tortured but always rewarding life and career in a balanced, informed and honest manner.

Letters from Uncle Dave Phil Rosenkrantz, 2020-10-04 Follow the story of Russian Jewish immigrants who sent five sons off to World War II and the Occupation Forces. Four returned. Sadly, their middle son, Army Staff Sergeant David Rosie Rosenkrantz, an 82nd Airborne Paratrooper--who served heroically in Sicily, Italy, and Holland--went missing during a German counterattack at the end of Operation Market Garden. This well documented and timely story chronicles the 73-year journey to find Dave and bring him home. This book is special and unique because of the bizarre journey that finally led to identifying his remains in 2018 and richness of dozens of surviving letters he wrote home. Inspired by the movie Saving Private Ryan, Dave's nephew, Phil Rosenkrantz, began a 20-year quest to find out what happened to his uncle. Although he never knew his Uncle Dave personally, Phil got to know him through the letters and conversations with people who knew him. The journey included many trips to Europe to visit the places where his uncle fought and died...and becoming friends with a young Dutchman and others who searched for 35 years to locate Dave's remains. Through 49 surviving letters, you will get to know Dave and enjoy his engaging personality and sense of humor. You will learn about World War II through Dave's story and his family's struggles. This book is more than just a chronicle of war--see how the many dimensions of war intertwine: Using many of his own words, follow the story of a highly regarded paratrooper who served his country heroically. Learn how paratroopers are specially trained and prepared for airborne combat. Learn why Dave and his fellow paratroopers of the 504 Parachute Infantry Regiment earned the name those Devils in Baggy Pants. Follow the mystery of what happened to S/Sgt David Rosenkrantz as it unfolded over many decades. Appreciate the impact of grief, loss, and the agonizing search for closure when someone is MIA. Appreciate the rich legacy of the American paratrooper in World War II as they established a new kind of soldier--someone who jumps out of a plane at night into the unknown--and to quote one of Dave's letters: ...we are prepared for anything and afraid of nothing. The story is supported by 49 letters, 106 photos/maps/documents, a timeline, references, endnotes, glossary, index, and several appendices.

Sands of the Well Denise Levertov, 1998 Denise Levertov was born in England in 1923. She published her first book of poems in 1946 and moved to America in 1948. Breathing the Water Denise Levertov, 1987 Levertov's master--more than mastery, because she is one of the originators--of contemporary poetic form, informed with a fierce, generous intelligence, can be frightening. --Ursula Le Guin, Washington Post
