In *War, Wine, and Taxes*, John Nye debunks the myth that Britain was a free-trade nation during and after the industrial revolution, by revealing how the British used tariffs--notably on French wine--as a mercantilist tool to politically weaken France and to respond to pressure from local brewers and others. The book reveals that Britain did not transform smoothly from a mercantilist state in the eighteenth century to a bastion of free trade in the late nineteenth. This boldly revisionist account gives the first satisfactory explanation of Britain's transformation from a minor power to the dominant nation in Europe. It also shows how Britain and France negotiated the critical trade treaty of 1860 that opened wide the European markets in the decades before World War I. Going back to the seventeenth century and examining the peculiar history of Anglo-French military and commercial rivalry, Nye helps us understand why the British drink beer not wine, why the Portuguese sold liquor almost exclusively to Britain, and how liberal, eighteenth-century Britain managed to raise taxes at an unprecedented rate--with government revenues growing five times faster than the gross national product. *War, Wine, and Taxes* stands in stark contrast to standard interpretations of the role tariffs played in the economic development of Britain and France, and sheds valuable new light on the joint role of commercial and fiscal policy in the rise of the modern state.

This is a collection of true stories of France's five prominent wine-making families who risked their lives to protect their most precious wines from Nazi plunder during World War II.

The author of the "engrossing" (People) international bestseller *The Room on Rue Amélie* returns with a moving story set amid the champagne vineyards of France during the darkest days of World War II, perfect for fans of Heather Morris's *The Tattooist of Auschwitz*. *Champagne, 1940: Inès* has just married Michel, the owner of storied champagne house *Maison Chauveau*, when the Germans invade. As the danger mounts, Michel turns his back on his marriage to begin hiding munitions for the Résistance. Inès fears they'll be exposed, but for Céline, the French-Jewish wife of Chauveau's chef de cave, the risk is even greater—rumors abound of Jews being shipped east to an unspeakable fate. When Céline recklessly follows her heart in one desperate bid for happiness, and Inès makes a dangerous mistake with a Nazi collaborator, they risk the lives of those they love—and the vineyard that ties them together. New York, 2019:

Recently divorced, Liv Kent is at rock bottom when her feisty, eccentric French grandmother shows up unannounced, insisting on a trip to France. Amazon Best Book of the Month, July 2014 Journalist Maximilian Potter uncovers a fascinating plot to destroy the vines of *La Romanée-Conti*, Burgundy's finest and most expensive wine. In January 2010, Aubert de Villaine, the famed proprietor of the *Domaine de la Romanée-Conti*, the tiny, storied vineyard that produces the most expensive, exquisite wines in the world, received an anonymous note threatening the destruction of his priceless vines by poison—a crime that in the world of high-end wine is akin to murder—unless he paid a one million euro ransom. Villaine believed it to be a sick joke, but that proved a fatal miscalculation and the crime shocked this fabled region of France. The sinister story that *Vanity Fair* journalist Maximilian Potter uncovered would lead to a sting operation by some of France's top detectives, the primary suspect's suicide, and a dramatic investigation. This botanical crime threatened to destroy the fiercely traditional culture surrounding the world's greatest wine. *SHADOWS IN THE VINEYARD* takes us deep into a captivating world full of fascinating characters, small-town French politics, an unforgettable narrative, and a local culture defined by the twinned veins of excess and vitality and the deep reverent attention to the land that runs through it.

Under French rule, majority Muslim Algeria became one of the world's largest wine producers. Owen White explores the impact of the wine industry on what was France's most important possession--and on the Algerians for whom grapevines became a hated symbol of colonial exploitation.

This comprehensive wine atlas leaves no centimeter of terroir unexplored. After a thorough introduction to France, French winemaking and the concept of terroir, Jefford (*Wine Tastes Wine Styles*) gets to the heart of the matter with lengthy chapters on each of France's 14 regions. Each of these consists of an overview of the region and its history, profiles of the area's major winemakers, a description of the land and listings and descriptions of the local wineries. Some of the latter are lengthy, while others are brief, but all include an address and phone number, making this book useful as a guidebook as well. Jefford is refreshingly opinionated: the Loire Valley is in the throes of a "long and refined stone age," while Zind-Humbrecht in Alsace is the domain "most emblematic of the New France as a whole." The effort here is encyclopedic, but the writing rises above the usual dry discussion, comparing the quest to understand Burgundy to

doing crossword puzzles. Even the most matter-of-fact information is presented with a certain flair: in a description of the Rhone Valley, Jefford explains that the area's mistral wind is both destructive and useful, in that it blows away "fugs and fungal diseases." Numerous maps and photographs—including portraits of the winemakers profiled—and a full list of vintages round out this entertaining addition to its field.

"This sharp critique of French winemakers, and Bordeaux's Saint Emilion region in particular, caused quite a stir when it was published in France in 2014" (Publishers Weekly). Already provoking debate and garnering significant attention across France and within the wine world, *Vino Business* is a "truly eye-opening exposé" of the dark side of French wine by acclaimed investigative journalist Isabelle Saporta (Booklist). In recent decades, Bordeaux has come under the influence of large-scale international investors. Unafraid to name names, Saporta sheds a harsh light on how this influence has corrupted the region's centuries-old traditions of winemaking excellence. She uncovers how the classification system was manipulated in 2012 to ensure that the wines of Saint-Émilion—Bordeaux's most prestigious appellation—were certified premier grand cru classé A. Giving extra points to a chateau for the size of its parking lot, the quality of the wine itself counts for only thirty percent of that coveted rank. In other chapters, Saporta investigates issues of wine labeling and pesticides, and draws comparisons to Champagne, Burgundy, and the rest of the wine world. "This fast-paced, provocative read" is a *cri de coeur* for the lost values of traditional winemaking (Dave DeSimone, Pittsburgh Tribune Review).

Provides a comprehensive guide to the wines of France, describes the wine-growing regions, and recommends classic dishes to match the wines

The remarkable untold story of France's courageous, clever vintners who protected and rescued the country's most treasured commodity from German plunder during World War II. "To be a Frenchman means to fight for your country and its wine." —Claude Terrail, owner, Restaurant La Tour d'Argent In 1940, France fell to the Nazis and almost immediately the German army began a campaign of pillaging one of the assets the French hold most dear: their wine. Like others in the French Resistance, winemakers mobilized to oppose their occupiers, but the tale of their extraordinary efforts has remained largely unknown—until now. This is the thrilling and harrowing story of the French wine producers who undertook ingenious, daring measures to save their cherished crops and bottles as the Germans closed in on them. *Wine and War* illuminates a compelling, little-known chapter of history, and stands as a tribute to extraordinary individuals who waged a battle that, in a very real way, saved the spirit of France.

Her book will get you started! Journalists Don and Petie Kladstrup show how this sparkling wine, born of bloodshed, became a symbol of glamour, good times, and celebration. It's a story filled with larger-than-life characters: Dom Pérignon, the father of champagne, who, contrary to popular belief, worked his entire life to keep bubbles out of champagne; the Sun King, Louis XIV, who rarely drank anything but; and Charles-Camille Heidsieck, known as "Champagne Charlie," who popularized champagne in America and ended up being imprisoned as a spy during the Civil War. World War I would be Champagne's greatest test of all, a four-year nightmare in which German bombardment drove thousands of people underground to seek refuge in the huge cellars of the champagne houses, where among the bottles you would find schools, hospitals, shops, municipal offices, and troops.—From publisher description.

Looks at an event held in 1976 in which French judges, during a blind taste-test, chose unknown California wines to be superior to France's best wines. Reprint. 50,000 first printing.

An intoxicating memoir of an American who discovers a passion for French wine and gambles everything to chase a dream of owning a vineyard in Burgundy Ray Walker had a secure career in finance until a wine-tasting vacation ignited a passion he couldn't stifle. He quit his job and moved to France to start a winery—with little money, limited command of the French language, and no winemaking experience. He immersed himself in the extraordinary history of Burgundy's vineyards and began honing his skills. Ray shares his journey to secure the region's most coveted grapes. *The Road to Burgundy* is a glorious celebration of finding one's true path in life and taking a chance—whatever the odds.

"Fascinating. Detailed, well-written, and controversial, Lucand's history of France and its wine during the Nazi Occupation is an unexpected treat." —*The Wine Economist* During the Second World War, French wine was hardly a trivial product. Indeed, following the Fall of France, it proved to be one of the most valuable French commodities in the eyes of the Nazi leaders. In 1940, "Weinführer" (official delegates and wine experts appointed by Berlin), were sent to all the wine regions of France to coordinate the most intense looting that the country had ever seen. Alongside the very ambiguous relationship of the Vichy Regime and the collaboration of many French professionals with the occupiers, this immense program of wine collection was a drama that many would prefer to forget. Now, more than seventy years after the end of the conflict, the time has come to tell the story of what really happened. Following a meticulous investigation and relying exclusively on previously unpublished sources, Christophe Lucand reveals the history of the world of French wine that was subjected to the tests of war, occupation and of all the compromises this entails. "The author has walked the line with sensitivity and provided a balanced review of this very painful time for French winemakers." —*Firetrench*

This work explains how nationhood emerges by viewing countries as cultural artifacts, a product of "invented traditions." In the case of France, scholars disagree, not only over the nature of French national identity but also over the extent to which diverse and sometimes hostile provincial communities became integrated into the nation. The author offers a new perspective by looking at one of the central

elements in French national culture -- luxury wine -- and the rural communities that profited from its production.

All that Professor Claire Somerset expects when she arrives in Provence during the summer of 1978 is a restful visit with friends as she finishes sabbatical research on Surrealist poets involved in WWII resistance. Instead, the attraction between her and vineyard owner Maurice Laurent sets off a series of events that turn her life upside down. Claire is given an anonymous journal that describes a family whose members played different roles during the Occupation: pacifist, collaborator, member of the Resistance, prisoner of war, Nazi officer's lover....and murderer of a fellow family member. The codes and initials used in the journal match the Laurent family. Did the Laurents know of their quiet, simple cousin's part in the Resistance? Did the murderer ever confess what happened? How many more secrets is Maurice's family hiding? Fictional characters and their activities revolve among real people and events leading up to the liberation of Southern France. Each is influenced by writers who kept the idea of liberty alive under the threat of capture, torture and death--such as Albert Camus, Samuel Beckett, Andr Malraux, Louis Aragon and Ren Char, the Surrealist poet who organized parachute drops around Mont Ventoux. The importance of the wine industry--war or no war--is woven throughout as the Laurents' disguised cellar hides both refugees and barrels of their best vintages.

Fulfilling a promise made to his mother when he was a child and she was losing her battle against cancer, Jacques Besnainou tells her story as a "hidden" child in France during World War II. He chronicles the struggles and survival of two families: his mother's and his mother-in-law's. Both lived through a terrifying ordeal provoked by the willful blindness of a government gone mad. And both were rescued thanks to the miraculous intervention of courageous people who listened to their conscience and challenged the established order, often at the expense of their own lives. In 1940, about 330,000 Jews lived in France, and three-quarters survived thanks to the exemplary altruism of ordinary French people. This book pays homage to them. Every story and location, as well as most of the dates and names, are true. Some details have been slightly romanticized to add texture and readability to this novelized history.

Explores how workers in the local wine industry helped shape local politics and turn back Protestantism in early modern Burgundy.

On October 12, 2005, a massive fire broke out in the Wines Central wine warehouse in Vallejo, California. Within hours, the flames had destroyed 4.5 million bottles of California's finest wine worth more than \$250 million, making it the largest destruction of wine in history. The fire had been deliberately set by a passionate oenophile named Mark Anderson, a skilled con man and thief with storage space at the warehouse who needed to cover his tracks. With a propane torch and a bucket of gasoline-soaked rags, Anderson annihilated entire California vineyard libraries as well as bottles of some of the most sought-after wines in the world. Among the priceless bottles destroyed were 175 bottles of Port and Angelica from one of the oldest vineyards in California made by Frances Dinkelspiel's great-great grandfather, Isaias Hellman, in 1875. Sadly, Mark Anderson was not the first to harm the industry. The history of the California wine trade, dating back to the 19th Century, is a story of vineyards with dark and bloody pasts, tales of rich men, strangling monopolies, the brutal enslavement of vineyard workers and murder. Five of the wine trade murders were associated with Isaias Hellman's vineyard in Rancho Cucamonga beginning with the killing of John Rains who owned the land at the time. He was shot several times, dragged from a wagon and left off the main road for the coyotes to feed on. In her new book, Frances Dinkelspiel looks beneath the casually elegant veneer of California's wine regions to find the obsession, greed and violence lying in wait. Few people sipping a fine California Cabernet can even guess at the Tangled Vines where its life began.

Champagne Charlie tells the history of champagne and the thrilling tale of how the go-to celebratory drink of our time made its way to the United States, thanks to the controversial figure of Charles "Champagne Charlie" Heidsieck.

The wine world can be intimidating to people who are just starting out. French wines can add an additional layer of complexity given the different, and less familiar, ways the wines are classified. Decoding French Wine: A Beginner's Guide to Enjoying the Fruits of the French Terroir is a short, almost pocketbook guide, written to help early stage wine drinkers navigate the world of French wine so they feel comfortable opening up a French wine list and understand exactly what they are ordering and why. This new second edition of the book covers the prominent areas of Bordeaux, Loire, Burgundy, Alsace, Rhone, Languedoc-Roussillon and Champagne in a short, concise and clear manner, covering the necessary geography, history and practices of each region for readers to gain a fundamental understanding of wine growing throughout the country and begin to explore, and build a familiarity with, wines from each of these areas.

The remarkable saga of the wine and people of Beaujolais and Georges Duboeuf, the peasant lad who brought both world recognition. Every third week of November, wine shops around the world announce "Le Beaujolais Nouveau est arrivé" and in a few short weeks, over seven million bottles are sold and drunk. Although often scorned by the wine world's snob set, the annual delivery of each year's new Beaujolais wine brings a welcome ray of sunshine to a morose November from New York to Tokyo. The surprising Cinderella tale behind the success of Beaujolais Nouveau captures not just the story of a wine but also the history of a fascinating region. At the heart of this fairy tale is the peasant wine grower named Georges Duboeuf, whose rise as the undisputed king of Beaujolais reads like a combination of suspenseful biography and luscious armchair travel. I'll Drink to That transports us to the unique corner of France where medieval history still echoes and where the smallholder peasants who made Beaujolais wines on their farms battled against the contempt of the entrenched Burgundy and Bordeaux establishment. With two bottles of wine in his bike's saddlebag, young Duboeuf set out to revolutionize the stodgy wine business, becoming the richest and most famous individual wine dealer in France. But this is more than one man's success story. As The Perfectionist used Bernard Loiseau to tell the layered history of French haute cuisine, here Chelminski uses Duboeuf's story to paint the portrait of the often endearing, sometimes maddening but always interesting inhabitants of a little-known corner of France, offering at the same time a witty, panoramic view of the history of French winemaking.

A tour of the French winemaking regions to illustrate how the soil, underlying bedrock, relief, and microclimate shape the personality of a wine. For centuries, France has long been the world's greatest wine-producing country. Its wines are the global gold standard, prized by collectors, and its winemaking regions each offer unique tasting experiences, from the spice of Bordeaux to the berry notes of the Loire Valley. Although grape variety, climate, and the skill of the winemaker are essential in making good wine, the foundation of a wine's character is the soil in which its grapes are grown. Who could better guide us through the relationship between the French land and the wine than a geologist, someone who deeply understands the science behind the soil? Enter scientist Charles Frankel. In *Land and Wine*, Frankel takes readers on a tour of the French winemaking regions to illustrate how the soil, underlying bedrock, relief, and microclimate shape the personality of a wine. The book's twelve chapters each focus in-depth on a different region, including the Loire Valley, Alsace, Burgundy, Champagne, Provence, the Rhône valley, and Bordeaux, to explore the full meaning of terroir. In this approachable guide, Frankel describes how Cabernet Franc takes on a completely different character depending on whether it is grown on gravel or limestone; how Sauvignon yields three different products in the hills of Sancerre when rooted in limestone, marl, or flint; how Pinot Noir will give radically different wines on a single hill in Burgundy as the vines progress upslope; and how the soil of each château in Bordeaux has a say in the blend ratios of Merlot and Cabernet-Sauvignon. *Land and Wine* provides a detailed understanding of the variety of French wine as well as a look at the geological history of France, complete with volcanic eruptions, a parade of dinosaurs, and a menagerie of evolution that has left its fossils flavoring the vineyards. Both the uninitiated wine drinker and the confirmed oenophile will find much to savor in this fun guide that Frankel has spiked with anecdotes about winemakers and historic wine enthusiasts—revealing which kings, poets, and philosophers liked which wines best—while offering travel tips and itineraries for visiting the wineries today.

In the vineyards, wine caves, and cellars of France as war and occupation came to the country winemakers acted heroically not only to save the best wines but to defend their way of life. These are the true stories of vigneron who sheltered Jewish refugees in their cellars and of winemakers who risked their lives to aid the resistance. They made chemicals in secret laboratories to fuel the resistance and fled from the Gestapo when arrests became imminent. There were treacheries too, as some of the nation's winemakers supported the Vichy regime or the Germans themselves and collaborated. Donald Kladstrup is a retired American network correspondent. He and his wife Petie have accumulated these fascinating stories, told with the pace and action that will fascinate fiction and non-fiction readers alike.

Winemaking is as old as civilization itself and wine has always been more than just a drink. For thousands of years, from its origins in ancient Mesopotamia to its current status as a vast global industry, the history of wine has been directly related to major social, cultural, religious and economic changes. This fascinating and entertaining book takes a look at 100 bottles that mark a significant change in the evolution of wine and winemaking and captures the innovations and discoveries that have had the biggest impact on the history of 'bottled poetry'.

"A curated collection of the New York Times' travel column, "Footsteps," exploring classic authors' relationships to landmarks and cities around the world Before The Sun Also Rises, Ernest Hemingway roamed the streets of Madrid, eager for the heady scent of blood emanating from the nearby bullrings. Before spunky, red-headed Anne Shirley stole readers' hearts in *Anne of Green Gables*, L.M. Montgomery was captivated by the sunset sky of Prince Edward Island. And before readers were terrified by a tentacled dragon-man called Cthulhu, H.P. Lovecraft was enthralled by the Industrial Trust tower-- the 26-story skyscraper that makes up the skyline of Providence, Rhode Island. Based on the popular New York Times travel column, Footsteps is an anthology of literary pilgrimages, exploring the geographic muses behind some of history's greatest writers. From the "dangerous, dirty and seductive" streets of Naples, the setting for Elena Ferrante's famous Neapolitan novels, to the "stone arches, creaky oaken doors, and riverside paths" of Oxford, the backdrop for Alice's adventures in *Wonderland*, Footsteps takes a fresh approach to literary tourism, appealing to readers and travel enthusiasts alike"--

"If you enjoyed Sarah's Key and Kristin Hannah's *The Nightingale*, then this wonderful book by Ann Mah is for you." -- Tatiana de Rosnay *Sweetbitter* meets *The Nightingale* in this page-turning novel about a woman who returns to her family's ancestral vineyard in Burgundy and unexpectedly uncovers a lost diary, an unknown relative, and a secret her family has been keeping since World War II. To become one of only a few hundred certified wine experts in the world, Kate must pass the notoriously difficult Master of Wine examination. She's failed twice before; her third attempt will be her last chance. Suddenly finding herself without a job and with the test a few months away, she travels to Burgundy to spend the fall at the vineyard estate that has belonged to her family for generations. There she can bolster her shaky knowledge of Burgundian vintages and reconnect with her cousin Nico and his wife, Heather, who now oversee day-to-day management of the grapes. The one person Kate hopes to avoid is Jean-Luc, a talented young winemaker and her first love. At the vineyard house, Kate is eager to help her cousin clean out the enormous basement that is filled with generations of discarded and forgotten belongings. Deep inside the cellar, behind a large armoire, she discovers a hidden room containing a cot, some Resistance pamphlets, and an enormous cache of valuable wine. Piqued by the secret space, Kate begins to dig into her family's history—a search that takes her back to the dark days of World War II and introduces her to a relative she never knew existed, a great-half aunt who was a teenager during the Nazi occupation. As she learns more about her family, the line between resistance and collaboration blurs, driving Kate to find the answers to two crucial questions: Who, exactly, did her family aid during the difficult years of the war? And what happened to six valuable bottles of wine that seem to be missing from the cellar's collection?
