Every page has TWO word searches on it, each with a cool theme, like "File Extensions" and "Fountains" or "Jelly Beans" and "Letter Order." See how many "Movie Stars" (Damon, Diesel, Streep) catch your eye or fun "Onomatopoeia" words you can circle—boom, buzz, clang, click, gurgle, hiccup, honk. Experts who want something really challenging will find what they want here, too. "Conifer" includes such tree names as bristlecone, loblolly, and tamarack, while "Quantum Mechanics" offers bosons, fermions, and isobar. And for something a little unusual, there's even a "Minnesota Zip Code" puzzle, where you look for groups of numbers. But the truly brain-busting ones come at the end of the book, when the puzzles veer from the standard to the really challenging, and some even have no word list at all. They're hard, they're tough . . . and they're wildly entertaining!

This book has 108 word searches which are silly in one way or another. For example, a word might be a combination of two different animals, like "rhinophant," which is part rhinoceros and part elephant. Some words sound funny (like "phooey"), some words are a play on the English language (like "gooder" and "badder"), and some words include a name as part of the word (like "banJoe"). Other words are silly in yet other ways. All of the words in the same word search puzzle have something in common. A brief note at the bottom of the word search puzzle explains what is silly about each word list. In some cases, if you read the words of the word list in order they will form a wacky sentence. Solve these silly word searches the same way that ordinary word searches are solved – by finding and circling each word in the word list. Words read horizontally, vertically, and diagonally, forward and backward. Solutions are included in the back of the book so that you can check your answers. May you or your children enjoy solving these silly word search puzzles.
