The *Essential Guide to Writing History Essays* is a step-by-step guide to the typical assignments of any undergraduate or master's-level history program in North America. Effective writing is a process of discovery, achieved through the continual act of making choices--what to include or exclude, how to order elements, and which style to choose--each according to the author's goals and the intended audience. The book integrates reading and specialized vocabulary with writing and revision and addresses the evolving nature of digital media while teaching the terms and logic of traditional sources and the reasons for citation as well as the styles. This approach to writing not only helps students produce an effective final product and build from writing simple, short essays to completing a full research thesis, it also teaches students why and how an essay is effective, empowering them to approach new writing challenges with the freedom to find their own voice.

This unique collection of twenty-two papers was written by Northrop Frye during his student years. Made public only after Frye's death in 1991, all but one of the essays are published here for the first time.

Classic Books Library presents this brand new edition of "The Federalist Papers", a collection of separate essays and articles compiled in 1788 by Alexander Hamilton. Following the United States Declaration of Independence in 1776, the governing doctrines and policies of the States lacked cohesion. "The Federalist", as it was previously known, was constructed by American statesman Alexander Hamilton, and was intended to catalyse the ratification of the United States Constitution. Hamilton recruited fellow statesmen James Madison Jr., and John Jay to write papers for the compendium, and the three are known as some of the Founding Fathers of the United States. Alexander Hamilton (c. 1755–1804) was an American lawyer, journalist and

highly influential government official. He also served as a Senior Officer in the Army between 1799-1800 and founded the Federalist Party, the system that governed the nation's finances. His contributions to the Constitution and leadership made a significant and lasting impact on the early development of the nation of the United States.

Education professionals interested in understanding student writing will want to read this book. It describes "Generous Reading," a novel method of approaching the writing of culturally and linguistically diverse students. This book addresses the increasing diversity present throughout schools across the U.S. and in other countries. Drawing from current research and theory in linguistics and composition, Spence has developed a way for teachers to tap into the cultural worlds of students and draw upon their linguistic understandings in order to help them improve their writing. The book is based on research projects conducted in the southwest and southeast regions of the United States. The chapters on language variation, culturally relevant instruction, and language transfer will also be of interest to writing teachers. Spence has presented the Generous Reading method across the nation and internationally where audiences have been eager to try out the methods in their classrooms with students of all ages.

University professors have used Generous Reading in teacher education courses. This methodology has potential to change teachers' perspectives on student writing and illuminate writing strengths previously overlooked.

How does one help undergraduate students learn quickly how to produce effectively organized, persuasive, well-reasoned essays? This book offers a straightforward, systematic introduction to some of the key elements of the construction of arguments in essay form. The focus here is on practical advice that will prove immediately useful to students—recommended procedures are emphasized, and detailed examples of academic and student writing are provided throughout. The book introduces the basics of argumentation before moving on to the structure and organization of essays. Planning and outlining the essay, writing strong thesis statements, organizing coherent paragraphs, and writing effective introductions and conclusions are among the subjects discussed. A separate section concisely explores issues specific to essays about literary works.

[Frank Ebersole is a philosopher] "whose contribution to philosophy . . . is the greatest of

anyone this [the 20th] century, especially in the areas of philosophy of language, theory of knowledge, and perception.”—from Wittgenstein, *Empiricism, and Language* by John W. Cook (Oxford University Press, 1999). *Language and Perception* has nine chapters: seven that address philosophical problems about language and two (chapters 2 and 9) that are more metaphilosophical. The metaphilosophical chapters discuss philosophical pictures and some of Frank Ebersole’s basic ideas about philosophy. The other seven essays let you participate in his unique struggles to come to terms with such questions as: What is the meaning of a word? Isn’t Wittgenstein’s idea that things called by the same name have family resemblances significantly flawed? Does language determine what we perceive? Does a thing’s being red cause it to look red (the causal theory of perception)? Must the action of speaking be analyzed into simpler actions such as making sounds? Can a bodily movement be part of an action? Is fatalism implied by “what one might say” about the future? Are “natural-kind” words like proper names?—are they rigid designators? This and its companion volume, *Meaning and Saying*, are not just other philosophy books about the philosophy of language. In both books Ebersole, by carefully using examples, convincingly shows that the problems are the products of philosophical pictures. The examples also make the pictures less compelling. How the Second Edition Differs from the First Edition This edition differs from the first edition (University Press of America, 1979) in several ways. Pictures: Material that was formerly part of a postscript to chapter 1 has been revised and is now its own chapter, chapter 2, “Pictures and Wittgenstein on Pictures.” As a result the following chapters were renumbered. Essay removed: Chapter 7 in the first edition, “Truth and Fate: Future Actions,” has been removed. Essay added: A new essay, entitled “Proper Names and Other Names,” has been added to the volume. It’s a revised version of an essay originally published in *Philosophical Investigations*, Oct., 1982, with the title “Stalking the Rigid Designator.” Postscript: Material that was formerly part of the preface is now revised and placed as chapter 9 at the end, entitled “Postscript.” Improved text: Throughout the book, Ebersole has made corrections, stylistic improvements, and changed the wording to remove ambiguities. Preface The book is concerned with questions about the “relations of language to reality”: Does physical reality predetermine the form of our language? Does it determine the kinds of words in our simple, basic vocabulary? Does our language in basic ways determine the way we perceive reality? Does our language embody the outlines of a certain theory of perception? And does it incorporate a certain view of human actions and of the future? These questions are expressions of the problems in the philosophy of language that people inevitably get themselves into while dealing with other philosophical problems. And these are problems in the philosophy of language that have direct consequences for the way one deals with problems in other branches of philosophy. At

Ready! Action! Write! A student’s writing skill is the single best predictor of success in the first year of college - better than math, vocabulary, grammar, or reading prowess. Unfortunately, while high schools teach students the mechanics of writing, they don’t address issues such as getting unstuck, writing a first draft, brainstorming, finding the thesis that’s hiding in an essay, soliciting useful feedback, or telling a story in pictures. This unique guide does, by capitalizing on what students know a lot about: the movies. Students read inside stories about their favorite films online. They watch behind-the-scenes bonus material on DVDs. They know how films work. What they don’t know is that the writing and filmmaking processes are remarkably similar. In this book, they’ll learn to shift their focus from word counts to process as they move from pre-production, preparing to write, “shooting” their first draft in the production phase, and then running their results through post-production to perfect their work.

This book is a collection of essays on religious thoughts across various religious traditions and belief systems in the world. It covers essays on Hinduism, Buddhism, Christianity, Islam, African Traditional Religion, Mythology, and Philosophy of Religion from a comparative perspective. It offers the reader an insight into the thoughts of these religions, where they

relate to each other and how they differ from each because of many factors, which include cultural background. An understanding of this nature is very important in interfaith, interreligious and intra-religious relationships aimed at fostering better understanding and appreciation of our diversities, towards building harmonious relationships among followers of various religions thereby reducing religious/global tensions occasioned by intolerance, misunderstanding and/or ignorance of other people's religious beliefs and traditions.

Available for the first time in English, Li Zehou's philosophical aesthetics interpret the historical origins and evolution of aesthetic experience and their significance to the intellectual, emotional, and spiritual growth of human beings. Although Li's ideas have been debated in China for more than two decades, his conversations with Jane Cauvel will now allow Western students and philosophers to re-encounter Chinese and Western conceptions of aesthetics, and the way art shapes individuals, societies, technology, and the future of humankind.

Sixty years after its first publication, Sherwood Anderson's *Winesburg, Ohio* continues to stand as a "classic" of modernist American fiction. In original new essays by David H. Stouck, Marcia Jacobson, Clare E. Colquitt, and Thomas Yingling, *Winesburg* is reconsidered in the contexts of the expressionist movement, the American boy-book tradition, the work of Sarah Orne Jewett, and the rise of industrial capitalism. An introduction by John W. Crowley reviews the career of Sherwood Anderson and his assimilation into the literary canon.

The nine articles in this volume cover two areas: "Surveying the Field" and "Music and the Spoken Word". Topics include postmodernism, philosophy, German literary modernism, opera, film, the Lied, radio plays, and "verbal counterpoint". They cover the works of such philosophers, critics, literary figures, and composers as Argento, Beckett, Deleuze, Guattari, Feldman, Glenn Gould, Nietzsche, Schubert, Strauss, Wagner, and Wolfram. Three films are discussed: *Casablanca*, *The Fisher King*, and *Thirty Two Short Films About Glenn Gould*. *Text Structures from the Masters* provides 50 short texts written by famous

The Chinese philosophical text Zhuangzi was written by Zhuangzi in the fourth century BCE. With humor and relentless logic Zhuangzi attacks claims to knowledge about the world, especially evaluative knowledge of what is good and bad or right and wrong. This book is about the man and the text.

Rhetoric, as a general teaching -- while preaching locality of action and guidelines for handling that locality -- has tended from the beginning to serve as a universality. It has offered a generalized techne with only limited categories, appropriate for all discursive situations, at least for those that were not excluded from the realm of rhetoric. Nonetheless, from its beginnings, rhetoric limited its interests to certain activity fields such as law, government, religion, and most important, the educators of leaders in these activity fields. This collection presents landmarks showing where the Writing-Across-the-Curriculum (WAC) and Writing in the Disciplines (WID) movements have gone. They have opened up a number of prospects that were impossible to see when rhetoric and composition confined their gaze to relatively few discursive activities. This suggests that the rhetorical landscape is becoming more complex and interesting, as well as more responsive to life in the complex, differentiated societies that have emerged in the last few centuries. This volume will reveal to scholars and researchers a range of possibilities for the study of disciplinary discourse and its teaching, and suggest to them new prospects for the future -- and for the better.

"Just tell a story," the teacher said. "It will be fun." Yet the student stares at a blank screen, uncertain what to write, and it's far from a fun experience. The narrative essay -- a personal form of storytelling about true experiences -- requires the writer to abandon familiar tools such as topic sentences, thesis statements, and supporting authority. But this doesn't mean the writer should just type words until the pages are filled. Rambling freeform narratives are not what most writing instructors hope to see. There is a better method, and it can be found in this short booklet. This booklet explains everything the writer needs to generate a successful narrative essay in step-by-step fashion. Starting with a story goal, proceeding through a timeline, and finishing with two targeted paragraphs, this booklet will turn a blank screen into a finished paper. Table of Contents How to Use This Booklet What is a narrative essay? Special Note Regarding Use of the Word "Narrative" Assignment Analysis: beginning, middle, end: outline the event on a timeline Thesis: the Goal Beginning: the Setup -Premise/Theme -Characters -Your point of view Middle: Events on a timeline -Action -Dialogue -Description A Special Note About Paragraphing A Special Note About One Exception to the Timeline A Special Note About the Second-to-Last Paragraph End: the Resolution: how you changed/how things changed Proofreading Here's what students have said about this method: "This made it all seem really easy." "I thought I should just write about what happened. If I had done that, I would have left out some important things. Thanks for showing me what was missing!" "Whew! I tried this, and wrote my paper in record time!"
