Deception It's not how good you are. It's how well you tell your story. Big corporations might have huge marketing and advertising budgets but you've got a story. Your brand story isn't just what you tell people. It's what they believe about you based on the signals your brand sends. The Fortune Cookie Principle is a brand building framework and communication strategy consisting of 20 keys that enable you to begin telling your brand's story from the inside out. It's the foundation upon which you can differentiate your brand and make emotional connections with the kind of clients and customers you want to serve. The most successful brands in the world don't behave like commodities and neither should you. A great brand story will make you stand out, increase brand awareness, create customer loyalty and power profits. Isn't it time to gave your customers a story to tell? The Fortune Cookie Principle will show you how.

ADVANCE PRAISE FOR THE FORTUNE COOKIE PRINCIPLE "It's so easy to overcomplicate what great brands and new businesses need to do to resonate with their consumers. The simple questions asked in this book help you to de-mystify that process. It encourages you to think beyond what you do to why you do it and why that matters to your customers. Had this been available when I was driving Sales and Marketing Capabilities in my past corporate life at Cadbury Schweppes, this would have been recommended reading. Now I'm an entrepreneur I simply apply these principles each and every day." Wendy Wilson Bett—Co-Founder Peter's Yard "Yes, you need a great product, but without a compelling story, success is improbable.

become much more productive and less stressful. It provides a framework for small businesses to structure their sales process. It strips away all the "fluff" and confusion that you encounter with most expensive sales training courses. The simple 12 step system provides a "nuts and bolts" approach to selling. It allows you to enter every sales situation with a purpose for closing the sale and gets you away from the deadly "sales visit" dilemma that most business owners and sales professionals fall into. In a just a few hours, you can literally gather the information that system introduces you to and make the most powerful sales presentation your company has ever encountered. When this system becomes part of your selling culture, it will provide you with improved sales, greater margins, and eliminate the competition. Author, Buzz Glover, after quietly reviewing and critiquing the sales people that called on him in his own businesses for over 15 years, became disillusioned with the fact that the great majority of salespeople were ill-prepared to sell their products or services. He knew that if he could introduce them to a system that he had developed and refined as a salesperson (and later as a sales manager), they could easily become much more effective at closing more sales faster! The system became a reality when he wrote this book as a companion to his system's website, www.goodbyesellingproblems.com. Through this sales system he is confident that he can change the way small businesses sell and make fundamental cultural changes in their approach to marketing their products and services.
