

## World History Semester 1 Final Exam Study Guide

Presents a history of the ancient world, from 6000 B.C. to 400 A.D.

A short, thoughtful piece by Virginia Woolf on reading. 'I have sometimes dreamt, at least, that when the Day of Judgement dawns and the great conquerors and lawyers and statesmen come to receive their rewards – their crowns, their laurels, their names carved indelibly upon imperishable marble – the Almighty will turn to Peter and will say, not without a certain envy when he sees us coming with our books under our arms, 'Look, these need no reward. We have nothing to give them here. They have loved reading.'

A presentation of the pivotal 1519 debate between Martin Luther and John Eck in its historical and theological context, showing its significance for the subsequent course of the Reformation.

Plagues in World History provides a concise, comparative world history of catastrophic infectious diseases, including plague, smallpox, tuberculosis, cholera, influenza, and AIDS. John Aberth considers not only their varied impact but also the many ways in which people have been able to influence diseases simply through their cultural attitudes. Our ability to alter disease, even without modern medical treatments, is even more crucial lesson now that AIDS, swine flu, multidrug-resistant tuberculosis, and other seemingly incurable illnesses have raged worldwide. The author's comparative analysis of how different societies have responded in the past to disease illuminates what cultural approaches have been and may continue to be most effective in combating the plagues of today.

A History of the Muslim World to 1750 traces the development of Islamic civilization from the career of the Prophet Muhammad to the mid-eighteenth century. Encompassing a wide range of significant events within the period, its coverage includes the creation of the Dar al-Islam (the territory ruled by Muslims), the fragmentation of society into various religious and political groups including the Shi'ites and Sunnis, the series of catastrophes in the twelfth and thirteenth centuries that threatened to destroy the civilization, and the rise of the Ottoman, Safavid, and Mughal empires. Including the latest research from the last ten years, this second edition has been updated and expanded to cover the fifteenth to eighteenth centuries. Fully refreshed and containing over sixty images to highlight the key visual aspects, this book offers students a balanced coverage of the Muslim world from the Iberian Peninsula to South Asia, and detailed accounts of all cultures. The use of maps, primary sources, timelines, and a glossary further illuminates the fascinating yet complex world of the pre-modern Middle East. Covering art, architecture, religious institutions, theological beliefs, popular religious practice, political institutions, cuisine, and much more, A History of the Muslim World to 1750 is the perfect introduction for all students of the history of Islamic civilization and the Middle East.

Chronicles the rollicking misadventures of Forrest Gump, an idiot savant college football player whose mathematical genius does not prevent his flunking out and who finds himself drafted for Vietnam.

For fans of the movie Gladiator comes this bloody account of the clashing of civilizations, as Attila the Hun, "The Scourge of God," struggles to overthrow the Roman Empire. The Roman Empire is weakening. In 367 AD, approximately eight years after the great battle at Hadrian's Wall, Roman garrisons begin to hear rumors of barbarian tribes massing to the north. By 449 AD, Attila, the ruler of the Huns, has become the continent's most powerful monarch, his reputation in battle earning him the title "The Scourge of God." Anticipating an imminent attack by the Huns, Roman leaders negotiate with one of Attila's lieutenants, convincing him to play the part of assassin. He is joined on his mission by a Roman citizen, Jonas, an ambassador dispatched to negotiate a peace treaty with the Huns. When the plot is discovered, Jonas becomes

a hostage, forced to fight for his captors if he wishes to remain alive. But he soon learns that Attila intends to conquer Rome itself, and is caught between two mighty empires, both poised for one of the greatest conflicts the world has ever seen. Jonas, knowing his life could be forfeit, has the potential to tip the battle in either direction—and his decision will alter the face of Western civilization. For readers of historically nuanced thrillers and adventure stories by authors like Bernard Cornwell and Colleen McCullough. For readers interested in Roman and Barbarian culture and warfare.

Textbooks are symbols of centuries-old education. They're often outdated as soon as they hit students' desks. Acting "by the textbook" implies compliance and a lack of creativity. It's time to ditch those textbooks--and those textbook assumptions about learning In Ditch That Textbook, teacher and blogger Matt Miller encourages educators to throw out meaningless, pedestrian teaching and learning practices. He empowers them to evolve and improve on old, standard, teaching methods. Ditch That Textbook is a support system, toolbox, and manifesto to help educators free their teaching and revolutionize their classrooms.

The New World History is a comprehensive volume of essays selected to enrich world history teaching and scholarship in this rapidly expanding field. The forty-four articles in this book take stock of the history, evolving literature, and current trajectories of new world history. These essays, together with the editors' introductions to thematic chapters, encourage educators and students to reflect critically on the development of the field and to explore concepts, approaches, and insights valuable to their own work. The selections are organized in ten chapters that survey the history of the movement, the seminal ideas of founding thinkers and today's practitioners, changing concepts of world historical space and time, comparative methods, environmental history, the "big history" movement, globalization, debates over the meaning of Western power, and ongoing questions about the intellectual premises and assumptions that have shaped the field.

This American history explores the country's role as a globalizing force from the arrival of Columbus to the 21st century. The twenty-first century may be the age of globalization, but America has been at the cutting edge of globalization since Columbus landed here five centuries ago. In *America and the World*, Lawrence A. Peskin and Edmund F. Wehrle explore America's evolving connections with Europe, Africa, and Asia in the three areas that historically have been indicators of global interaction: trade and industry, diplomacy and war, and the "soft" power of ideas and culture. Divided into four historical phases of globalization, this book considers how international events and trends influenced American as well as how America exerted its own influence—whether economic, cultural, or military—on the world. The authors demonstrate how technology and disease enabled Europeans to subjugate the New World, how colonial American products transformed Europe and Africa, and how post-revolutionary American ideas helped foment revolutions in Europe and elsewhere. Peskin and Wehrle also explore America's rise to global superpower, and how this power alienated people around the world and bred dissent at home. During the civil rights movement, America borrowed much from the world as it addressed the social issues of the day. At the same time, Americans—especially African Americans—offered a global model for change as the country grappled with racial and gender inequality.

Now in paperback, Paine's essential American writings in authoritative Library of America texts: After a life of obscurity and failure in England, Thomas Paine came to America in 1774 at age 37. Within fourteen months he published *Common Sense*, the most influential pamphlet of the American Revolution, and began a career that would see him hailed and reviled in the American nation he helped create. In *Common Sense*, Paine sets forth an inspiring vision of an independent America as an asylum for freedom and an example of popular self-government in a world oppressed by despotism and hereditary privilege. *The American Crisis*, begun during "the times that try men's souls" in 1776, is a masterpiece of popular pamphleteering in which Paine vividly reports current developments, taunts and ridicules British adversaries, and enjoins his readers to remember the immense stakes of their struggle. They are joined in this invaluable reader by a selection of Paine's other American pamphlets and his letters to George Washington, Thomas Jefferson, and others.

Hannibal invaded Italy with the hope of raising widespread rebellions among Rome's subordinate allies. Yet even after crushing the Roman army at Cannae, he was only partially successful. Why did some communities decide to side with Carthage and others to side with Rome? This is the fundamental question posed in this book, and consideration is given to the particular political, diplomatic, military and economic factors that influenced individual communities' decisions. Understanding their motivations reveals much, not just about the war itself, but also about Rome's relations with Italy during the prior two centuries of aggressive expansion. The book sheds new light on Roman imperialism in Italy, the nature of Roman hegemony, and the transformation of Roman Italy in the period leading up to the Social War. It is informed

throughout by contemporary political science theory and archaeological evidence, and will be required reading for all historians of the Roman Republic.

"A World in the Making is a kind of anthropological journey taken by four historians that assumes all societies are "hot," and all people make history and always have. We argue in our emphasis on lives and livelihoods for a world constructed, altered, renovated, remade by ordinary people even as we acknowledge the genius of individual innovators, disruptors who broke the mold or struck out in some new direction."--Provided by publisher.

Presents a multifaceted model of understanding, which is based on the premise that people can demonstrate understanding in a variety of ways.

Here is a book as joyous and painful, as mysterious and memorable, as childhood itself. *I Know Why the Caged Bird Sings* captures the longing of lonely children, the brute insult of bigotry, and the wonder of words that can make the world right. Maya Angelou's debut memoir is a modern American classic beloved worldwide. Sent by their mother to live with their devout, self-sufficient grandmother in a small Southern town, Maya and her brother, Bailey, endure the ache of abandonment and the prejudice of the local "powhitetrash." At eight years old and back at her mother's side in St. Louis, Maya is attacked by a man many times her age—and has to live with the consequences for a lifetime. Years later, in San Francisco, Maya learns that love for herself, the kindness of others, her own strong spirit, and the ideas of great authors ("I met and fell in love with William Shakespeare") will allow her to be free instead of imprisoned. Poetic and powerful, *I Know Why the Caged Bird Sings* will touch hearts and change minds for as long as people read. "I Know Why the Caged Bird Sings liberates the reader into life simply because Maya Angelou confronts her own life with such a moving wonder, such a luminous dignity."—James Baldwin From the Paperback edition.

This resource book is designed to assist teachers in implementing California's history-social science framework at the 10th grade level. The models support implementation at the local level and may be used to plan topics and select resources for professional development and preservice education. This document provides a link between the framework's course descriptions and teachers' lesson plans by suggesting substantive resources and instructional strategies to be used in conjunction with textbooks and supplementary materials. The resource book is divided into eight units: (1) "Unresolved Problems of the Modern World"; (2) "Connecting with Past Learnings: The Rise of Democratic Ideas"; (3) "The Industrial Revolution"; (4) "The Rise of Imperialism and Colonialism: A Case Study of India"; (5) "World War I and Its Consequences"; (6) "Totalitarianism in the Modern World: Nazi Germany and Stalinist Russia"; (7) "World War II: Its Causes and Consequences"; and (8) "Nationalism in the Contemporary World." Each unit contains references. (EH)
