First published in 1943, *The Little Prince* by Antoine de Saint-Exupéry has been translated into more than 250 languages, becoming a global phenomenon. The Sahara desert is the scenery of Little Prince's story. The narrator's plane has crashed there and he has scarcely some food and water to survive. Trying to comprehend what caused the crash, the Little Prince appears. The serious blonde little boy asks to draw him a sheep. The narrator consents to the strange fellow's request. They soon become friends and the Little Prince informs the pilot that he is from a small planet, the asteroid 325, talks to him about the baobabs, his planet volcanoes and the mysterious rose that grew on his planet. He also talks to him about their friendship and the lie that evoked his journey to other planets. Often puzzled by the grown-ups' behavior, the little traveler becomes a total and eternal symbol of innocence and love, of responsibility and devotion. Through him we get to see how insightful children are and how grown-ups aren't. Children use their heart to feel what's really important, not the eyes. Heart-breaking, funny and thought-provoking, it is an enchanting and endlessly wise fable about the human condition and the power of imagination. A book about both childhood and adulthood, it can be read as a parable, a war story, a classic children's fairy-tale, and many more things besides: *The Little Prince* is a book for everyone; after all, all grown-ups were children once.

A deeply-reported examination of why "doing what you love" is a recipe for exploitation, creating a new tyranny of work in which we cheerily acquiesce to doing jobs that take over our lives. You're told that if you "do what you love, you'll never work a day in your life." Whether it's working for "exposure" and "experience," or enduring poor treatment in the name of "being part

of the family," all employees are pushed to make sacrifices for the privilege of being able to do what we love. In *Work Won't Love You Back*, Sarah Jaffe, a preeminent voice on labor, inequality, and social movements, examines this "labor of love" myth -- the idea that certain work is not really work, and therefore should be done out of passion instead of pay. Told through the lives and experiences of workers in various industries -- from the unpaid intern, to the overworked teacher, to the nonprofit worker and even the professional athlete -- Jaffe reveals how all of us have been tricked into buying into a new tyranny of work. As Jaffe argues, understanding the trap of the labor of love will empower us to work less and demand what our work is worth. And once freed from those binds, we can finally figure out what actually gives us joy, pleasure, and satisfaction.

Are you tired of people knowing who you are but no one really knowing you? As the star of the twentieth season of *The Bachelor*, Ben Higgins looked like he had it all together. Instead, Ben felt dissatisfied, fearful, and deeply alone. Like so many of us, he thought of himself as the kid who never got picked for the game, the person always on the outside of the joke, the friend who knew a lot of people but was never truly known. He wondered if he mattered at all. In *Alone in Plain Sight*, Ben vulnerably shares how he found authentic connection with himself, with others, and with God. As Ben helps us name our own yearning for meaning, he explores ways to understand ourselves more deeply so that we are free to connect with others; how shared pain can bridge even the widest gaps between two very different people; why we must deconstruct our culture's fairy-tale view of love; and how the God who longs for relationship with us is the answer to our need for connection. As Ben discovered, in a disconnected world, it is still possible to have lasting purpose and peace. You are already known. You are already loved. You are already seen. Discover how to live out how much you matter as you embrace the true meaning of your one incredible life.

"Fascinating.... Lays a foundation for understanding human history."—Bill Gates In this "artful, informative, and delightful" (William H. McNeill, *New York Review of Books*) book, Jared Diamond convincingly argues that geographical and environmental factors shaped the modern world. Societies that had had a head start in food production advanced beyond the hunter-gatherer stage, and then developed religion --as well as nasty germs and potent weapons of war --and adventured on sea and land to conquer and decimate preliterate cultures. A major advance in our understanding of human societies, *Guns, Germs, and Steel* chronicles the way

that the modern world came to be and stunningly dismantles racially based theories of human history. Winner of the Pulitzer Prize, the Phi Beta Kappa Award in Science, the Rhone-Poulenc Prize, and the Commonwealth club of California's Gold Medal.

The classic guide to working from home and why we should embrace a virtual office, from the bestselling authors of *ReWork* “A paradigm-smashing, compulsively readable case for a radically remote workplace.”—Susan Cain, *New York Times* bestselling author of *Quiet* Does working from home—or anywhere else but the office—make sense? In *Remote*, Jason Fried and David Heinemeier Hansson, the founders of Basecamp, bring new insight to the hotly debated argument. While providing a complete overview of remote work’s challenges, Jason and David persuasively argue that, often, the advantages of working “off-site” far outweigh the drawbacks. In the past decade, the “under one roof” model of conducting work has been steadily declining, owing to technology that is rapidly creating virtual workspaces. Today the new paradigm is “move work to the workers, rather than workers to the workplace.” Companies see advantages in the way remote work increases their talent pool, reduces turnover, lessens their real estate footprint, and improves their ability to conduct business across multiple time zones. But what about the workers? Jason and David point out that remote work means working at the best job (not just one that is nearby) and achieving a harmonious work-life balance while increasing productivity. And those are just some of the perks to be gained from leaving the office behind. *Remote* reveals a multitude of other benefits, along with in-the-trenches tips for easing your way out of the office door where you control how your workday will unfold. Whether you’re a manager fretting over how to manage workers who “want out” or a worker who wants to achieve a lifestyle upgrade while still being a top

performer professionally, this book is your indispensable guide.

Country Connell and Marianne grew up in the same small town, but the similarities end there.

At school, Connell is popular and well liked, while Marianne is a loner. But when the two strike

up a conversation—awkward but electrifying—something life changing begins. A year later,

they’re both studying at Trinity College in Dublin. Marianne has found her feet in a new social

world while Connell hangs at the sidelines, shy and uncertain. Throughout their years at

university, Marianne and Connell circle one another, straying toward other people and

possibilities but always magnetically, irresistibly drawn back together. And as she veers into

self-destruction and he begins to search for meaning elsewhere, each must confront how far

they are willing to go to save the other. *Normal People* is the story of mutual fascination,

Definitive leadership strategy for fixing the American economy, drawn from Gallup's unmatched global polling and written by the company's chairman. What everyone in the world wants is a good job. "This is one of the most important discoveries Gallup has ever made," says the company's Chairman, Jim Clifton. In *The Coming Jobs War*, Clifton makes the bold assertion that job creation and successful entrepreneurship are the world's most pressing issues right now, outpacing runaway government spending, environmental degradation and even the threat of global terrorism. The book is grounded in findings from Gallup's World Poll,

which reveals the implications of the jobs war on everything from economics to foreign policy to nothing less than America's moral authority in the world. And it offers a prescription for attacking the jobs issue head-on. Clifton argues that the solution to creating good jobs must be found in cities, not in the federal government. Promoting entrepreneurship and job creation must be the sole mission and purpose of cities' business leaders, government officials and philanthropists. Clifton says that the next big breakthrough will come from the combination of the forces within big cities, great universities and powerful local leaders. Their combined effect is the most reliable, controllable and predictable solution to America's biggest problem. Strong leadership teams and a natural order are already in place within cities — in governments and local business and philanthropic entities, with caring leaders working on initiatives to fuel local economic growth and to create good jobs. The feat these leaders have to pull off is doubling their entrepreneurial energy by aligning their local forces: local tribal leaders, super mentors and universities. Winning the jobs war will require all hands on deck, and failure is not an option, especially for the United States, which has been the global leader in promoting freedom and entrepreneurship. America's place in the world is at stake, and there are other countries poised to surpass a sputtering U.S. economy that is currently growing at only 2% annually. The biggest threat? China, with a GDP that is increasing at nearly 10% annually — a pace that will make it the world's leading and most influential economy within the next 30 years. While the statistics are dire, Clifton remains optimistic about America's ability to win the jobs war because America has been here before. "The Greatest Generation saved America by beating the Japanese and Germans at [World War II]. The Baby Boomers saved America a second time by beating the same foes, Japan and Germany, in an economic war that determined the

leadership of the free world, again,” he says. The Coming Jobs War offers a clear, brutally honest look at America’s biggest problem and a cogent prescription for solving it.

NEW YORK TIMES BESTSELLER • “A beautifully written, extraordinary quest in which two ordinary, overlooked women embark on an unlikely scientific expedition to the South Seas.”—Helen Simonson, author of *Major Pettigrew’s Last Stand* **WINNER OF THE WILBUR SMITH ADVENTURE WRITING PRIZE** • From the bestselling author of *The Unlikely Pilgrimage of Harold Fry* comes an uplifting, irresistible novel about two women on a life-changing adventure, where they must risk everything, break all the rules, and discover their best selves—together. She’s going too far to go it alone. It is 1950. London is still reeling from World War II, and Margery Benson, a schoolteacher and spinster, is trying to get through life, surviving on scraps. One day, she reaches her breaking point, abandoning her job and small existence to set out on an expedition to the other side of the world in search of her childhood obsession: an insect that may or may not exist—the golden beetle of New Caledonia. When she advertises for an assistant to accompany her, the woman she ends up with is the last person she had in mind. Fun-loving Enid Pretty in her tight-fitting pink suit and pom-pom sandals seems to attract trouble wherever she goes. But together these two British women find themselves drawn into a cross-ocean adventure that exceeds all expectations and delivers something neither of them expected to find: the transformative power of friendship. "You can be lonely anywhere, but there is a particular flavor to the loneliness that comes from living in a city, surrounded by thousands of strangers. The Lonely City is a roving cultural history of urban loneliness, centered on the ultimate city: Manhattan, that teeming island of gneiss, concrete, and glass. What does it mean to be lonely? How do we live, if we're not intimately involved with another human being? How do we connect with other people, particularly if our sexuality or physical body is considered deviant or damaged? Does technology draw us closer together or trap us behind screens? Olivia Laing explores these questions by travelling deep into the work and lives of some of the century's most original artists, among them Andy Warhol, David Wojnarowicz, Edward Hopper, Henry Darger and Klaus Nomi. Part memoir, part biography, part dazzling work of cultural criticism, The Lonely City is not just a map, but a celebration of the state of loneliness. It's a voyage out to a strange and sometimes lovely island, adrift from the larger continent of human experience, but visited by many - millions, say - of souls"--

economist Anne Case and Nobel Prize winner Angus Deaton, a groundbreaking account of how the flaws in capitalism are fatal for America's working class Deaths of despair from suicide, drug overdose, and alcoholism are rising dramatically in the United States, claiming hundreds of thousands of American lives. Anne Case and Angus Deaton explain the overwhelming surge in these deaths and shed light on the social and economic forces that are making life harder for the working class. As the college educated become healthier and wealthier, adults without a degree are literally dying from pain and despair. Case and Deaton tie the crisis to the weakening position of labor, the growing power of corporations, and a rapacious health-care sector that redistributes working-class wages into the pockets of the wealthy. This critically important book paints a troubling portrait of the American dream in decline, and provides solutions that can rein in capitalism's excesses and make it work for everyone.

Read the Wall Street Journal Bestseller for "cultivating intense focus" for fast, powerful performance results for achieving success and true meaning in one's professional life (Adam Grant, author of Give and Take). Deep work is the ability to focus without distraction on a cognitively demanding task. It's a skill that allows you to quickly master complicated information and produce better results in less time. Deep Work will make you better at what you do and provide the sense of true fulfillment that comes from craftsmanship. In short, deep work is like a super power in our increasingly competitive twenty-first century economy. And yet, most people have lost the ability to go deep-spending their days instead in a frantic blur of e-mail and social media, not even realizing there's a better way. In Deep Work, author and professor Cal Newport flips the narrative on impact in a connected age. Instead of arguing

distraction is bad, he instead celebrates the power of its opposite. Dividing this book into two parts, he first makes the case that in almost any profession, cultivating a deep work ethic will produce massive benefits. He then presents a rigorous training regimen, presented as a series of four "rules," for transforming your mind and habits to support this skill. 1. Work Deeply 2. Embrace Boredom 3. Quit Social Media 4. Drain the Shallows A mix of cultural criticism and actionable advice, *Deep Work* takes the reader on a journey through memorable stories—from Carl Jung building a stone tower in the woods to focus his mind, to a social media pioneer buying a round-trip business class ticket to Tokyo to write a book free from distraction in the air—and no-nonsense advice, such as the claim that most serious professionals should quit social media and that you should practice being bored. *Deep Work* is an indispensable guide to anyone seeking focused success in a distracted world. In today's challenging job-market, as recent grads face a shifting economic landscape and seek work that pays and inspires, as workers are laid off mid-

career, and as people search for an inspiring work-life change, the time-tested advice of *What Color Is Your Parachute?* is needed more than ever. This new edition has been fully revised for 2021 by Vanderbilt University Career Center Director Katharine Brooks, EdD, with modern advice on the job hunt strategies that are working today, such as building an online resume, making the most of social media tools, and acing Skype interviews. Building on the wisdom of original author Richard N. Bolles, this edition updates the famed Flower Exercise (which walks job seekers through the seven ways of thinking about themselves) and demystifies the entire job-search process, from writing resumes to interviewing and networking. With the unique and authoritative guidance of *What Color Is Your Parachute?*, job-hunters and career changers will have all the tools they need to discover--and land--their dream job.

From the sewers to the skyscrapers, this book takes younger readers to the heart of the city. Perforated flaps let you see what's going on behind closed doors, and big gatefolds reveal what's going on under the street, plus other surprising city spaces. With illustrations from James Gulliver Hancock, it's the city like you've never seen it before!

In an unorthodox approach, Georgetown University professor Cal Newport debunks the long-held belief that "follow your passion" is good advice, and sets

out on a quest to discover the reality of how people end up loving their careers. Not only are pre-existing passions rare and have little to do with how most people end up loving their work, but a focus on passion over skill can be dangerous, leading to anxiety and chronic job hopping. Spending time with organic farmers, venture capitalists, screenwriters, freelance computer programmers, and others who admitted to deriving great satisfaction from their work, Newport uncovers the strategies they used and the pitfalls they avoided in developing their compelling careers. Cal reveals that matching your job to a pre-existing passion does not matter. Passion comes after you put in the hard work to become excellent at something valuable, not before. In other words, what you do for a living is much less important than how you do it. With a title taken from the comedian Steve Martin, who once said his advice for aspiring entertainers was to "be so good they can't ignore you," Cal Newport's clearly written manifesto is mandatory reading for anyone fretting about what to do with their life, or frustrated by their current job situation and eager to find a fresh new way to take control of their livelihood. He provides an evidence-based blueprint for creating work you love, and will change the way you think about careers, happiness, and the crafting of a remarkable life.

"An economist takes on the most urgent social issue of our time, exploring the evolution of the global loneliness crisis, the sweeping impact of social isolation during the coronavirus, and the opportunities a post-Covid world presents to reverse these trends-by finding new ways to reconnect with each other, our communities, and even our democracy"--

If you loved *A Man Called Ove*, then prepare to be delighted as Jamaican immigrant Hubert rediscovers the world he'd turned his back on this "warm, funny" novel (*Good Housekeeping*). In weekly phone calls to his daughter in Australia, widower Hubert Birdpaints a picture of the perfect retirement, packed with fun, friendship, and fulfillment. But it's a lie. In reality, Hubert's days are all the same, dragging on without him seeing a single soul. Until he receives some good news—good news that in one way turns out to be the worst news ever, news that will force him out again, into a world he has long since turned his back on. The news that his daughter is coming for a visit. Now Hubert faces a seemingly impossible task: to make his real life resemble his fake life before the truth comes out. Along the way Hubert stumbles across a second chance at love, renews a cherished friendship, and finds himself roped into an audacious community scheme that seeks to end loneliness once and for all . . . Life is certainly beginning to happen to Hubert Bird. But with the origin of his earlier isolation

always lurking in the shadows, will he ever get to live the life he's pretended to have for so long?

ONE OF BARACK OBAMA'S FAVORITE BOOKS OF THE YEAR NAMED A BEST BOOK OF THE YEAR BY NPR, PARADE, REAL SIMPLE, and BUZZFEED AN INSTANT NEW YORK TIMES BESTSELLER A GOOD MORNING AMERICA BOOK CLUB PICK "[Moore's] careful balance of the hard-bitten with the heartfelt is what elevates Long Bright River from entertaining page-turner to a book that makes you want to call someone you love." – The New York Times Book Review "This is police procedural and a thriller par excellence, one in which the city of Philadelphia itself is a character (think Boston and Mystic River). But it's also a literary tale narrated by a strong woman with a richly drawn personal life – powerful and genre-defying." – People "A thoughtful, powerful novel by a writer who displays enormous compassion for her characters. Long Bright River is an outstanding crime novel... I absolutely loved it." —Paula Hawkins, #1 New York Times-bestselling author of *The Girl on the Train* Two sisters travel the same streets, though their lives couldn't be more different. Then one of them goes missing. In a Philadelphia neighborhood rocked by the opioid crisis, two once-inseparable sisters find themselves at odds. One, Kacey, lives on the streets in the vise of addiction. The other, Mickey, walks those same blocks

on her police beat. They don't speak anymore, but Mickey never stops worrying about her sibling. Then Kacey disappears, suddenly, at the same time that a mysterious string of murders begins in Mickey's district, and Mickey becomes dangerously obsessed with finding the culprit--and her sister--before it's too late. Alternating its present-day mystery with the story of the sisters' childhood and adolescence, *Long Bright River* is at once heart-pounding and heart-wrenching: a gripping suspense novel that is also a moving story of sisters, addiction, and the formidable ties that persist between place, family, and fate.

In Kristin Hannah's *The Great Alone*, a desperate family seeks a new beginning in the near-isolated wilderness of Alaska only to find that their unpredictable environment is less threatening than the erratic behavior found in human nature. #1 New York Times Instant Bestseller (February 2018) A People "Book of the Week" BuzzFeed's "Most Anticipated Women's Fiction Reads of 2018" Seattle Times's "Books to Look Forward to in 2018" Alaska, 1974. Ernt Allbright came home from the Vietnam War a changed and volatile man. When he loses yet another job, he makes the impulsive decision to move his wife and daughter north where they will live off the grid in America's last true frontier. Cora will do anything for the man she loves, even if means following him into the unknown. Thirteen-year-old Leni, caught in the riptide of her parents' passionate, stormy

relationship, has little choice but to go along, daring to hope this new land promises her family a better future. In a wild, remote corner of Alaska, the Allbrights find a fiercely independent community of strong men and even stronger women. The long, sunlit days and the generosity of the locals make up for the newcomers' lack of preparation and dwindling resources. But as winter approaches and darkness descends, Ernt's fragile mental state deteriorates. Soon the perils outside pale in comparison to threats from within. In their small cabin, covered in snow, blanketed in eighteen hours of night, Leni and her mother learn the terrible truth: they are on their own.

NEW YORK TIMES BEST SELLER • A Best Book of 2021: Entertainment Weekly, Good Morning America, Wall Street Journal, and more From the indie rockstar of Japanese Breakfast fame, and author of the viral 2018 New Yorker essay that shares the title of this book, an unflinching, powerful memoir about growing up Korean American, losing her mother, and forging her own identity. In this exquisite story of family, food, grief, and endurance, Michelle Zauner proves herself far more than a dazzling singer, songwriter, and guitarist. With humor and heart, she tells of growing up one of the few Asian American kids at her school in Eugene, Oregon; of struggling with her mother's particular, high expectations of her; of a painful adolescence; of treasured months spent in her grandmother's tiny apartment in Seoul, where she and her mother would bond, late at night, over heaping plates of food. As she grew up, moving to the East Coast for college, finding work in the restaurant industry, and

performing gigs with her fledgling band--and meeting the man who would become her husband--her Koreanness began to feel ever more distant, even as she found the life she wanted to live. It was her mother's diagnosis of terminal cancer, when Michelle was twenty-five, that forced a reckoning with her identity and brought her to reclaim the gifts of taste, language, and history her mother had given her. Vivacious and plainspoken, lyrical and honest, Zauner's voice is as radiantly alive on the page as it is onstage. Rich with intimate anecdotes that will resonate widely, and complete with family photos, *Crying in H Mart* is a book to cherish, share, and reread.

Loneliness has reached the levels of an epidemic. From the bullied child to the new parent, from the pensioner who has outlived friends and family members to teenagers who manage their social lives through the glow of a mobile phone, it can - and does - affect anyone and everyone, irrespective of age, race or class. Many suffer in silence, convinced it's a confession too far, a sign of too much vulnerability, a shameful failing. But the human condition is not a failing. What's it like when loneliness descends? How does it announce itself, and how do you recognise it? Do you discuss it, or conceal it? From where can you seek help? *A Life Less Lonely* shares stories of loneliness and social isolation, and looks for ways in which we can help one another to future-proof ourselves against this most insidious affliction. By talking to those who suffer from it, and by highlighting the work of those who fight to combat it, the book offers guidance on how to spot the symptoms in yourself and in others, how to connect with those around you, and how, by understanding it all better, we might just set ourselves free from it. In this way, what is an epidemic today might not be one tomorrow.

An instant #1 New York Times bestseller. The definitive behind-the-scenes story of Trump's final year in office, by Phil Rucker and Carol Leonnig, the Pulitzer-Prize winning reporters and authors of A Very Stable Genius. “Chilling.” – Anderson Cooper “Jaw-dropping.” – John Berman “Shocking.” – John Heilemann “Explosive.” – Hallie Jackson “Blockbuster new reporting.” – Nicolle Wallace “Bracing new revelations.” – Brian Williams “Bombshell reporting.” – David Muir The true story of what took place in Donald Trump’s White House during a disastrous 2020 has never before been told in full. What was really going on around the president, as the government failed to contain the coronavirus and over half a million Americans perished? Who was influencing Trump after he refused to concede an election he had clearly lost and spread lies about election fraud? To answer these questions, Phil Rucker and Carol Leonnig reveal a dysfunctional and bumbling presidency’s inner workings in unprecedented, stunning detail. Focused on Trump and the key players around him—the doctors, generals, senior advisers, and Trump family members— Rucker and Leonnig provide a forensic account of the most devastating year in a presidency like no other. Their sources were in the room as time and time again Trump put his personal gain ahead of the good of the

country. These witnesses to history tell the story of him longing to deploy the military to the streets of American cities to crush the protest movement in the wake of the killing of George Floyd, all to bolster his image of strength ahead of the election. These sources saw firsthand his refusal to take the threat of the coronavirus seriously—even to the point of allowing himself and those around him to be infected. This is a story of a nation sabotaged—economically, medically, and politically—by its own leader, culminating with a groundbreaking, minute-by-minute account of exactly what went on in the Capitol building on January 6, as Trump’s supporters so easily breached the most sacred halls of American democracy, and how the president reacted. With unparalleled access, Rucker and Leonnig explain and expose exactly who enabled—and who foiled—Trump as he sought desperately to cling to power. A classic and heart-racing work of investigative reporting, this book is destined to be read and studied by citizens and historians alike for decades to come.
