In the “literary territory of Tony Parsons and Nick Hornby†? (Guardian) Shtum is drawn from Jem Lester’s experience of raising an autistic child. In this darkly funny and emotive debut, Ben Jewell has hit a breaking point. His profoundly autistic ten-year-old son, Jonah, has never spoken, and Ben and his wife Emma are struggling to cope. When Ben and Emma fake a separation—a strategic, yet ill-advised, decision to further Jonah’s case in an upcoming tribunal to determine the future of his education—father and son are forced to move in with Georg, Ben’s elderly and cantankerous father. In a small house in north London, three generations of men— one who can’t talk; two who won’t—are thrown together. As Ben confronts single fatherhood, he must battle a string of well-meaning social workers and his own demons to advocate for his son, learning some harsh lessons about accountability from his own father along the way. As the tribunal draws near, Jonah, blissful in his innocence, becomes the prism through which all the complicated strands of personal identity, family history, and misunderstanding are finally untangled. This “fiercely funny†? (The Times) debut examines the complexities of family and human emotion and gives profound insight into an often-misunderstood disorder. The Brazos Theological Commentary on the Bible advances the assumption that the Nicene creedal tradition, in all its diversity, provides the proper basis for the interpretation of the Bible as Christian scripture. The series volumes, written by leading theologians, encourage Christians to extend the vital roots of the ancient Christian tradition to our day. In this addition to the acclaimed series, two respected scholars offer a theological exegesis of Esther and Daniel. As with other volumes in the series, this book is ideal for those called to ministry, serving as a rich resource for preachers, teachers, students, and study groups.

A little more than seventy-five years ago, Kate L. Turabian drafted a set of guidelines to help students understand how to write, cite, and formally submit research writing. Seven editions and more than nine million copies later, the name Turabian has become synonymous with best practices in research writing and style. Her *Manual for Writers* continues to be the gold standard for generations of college and graduate students in virtually all academic disciplines. Now in its eighth edition, *A Manual for Writers of Research Papers, Theses, and Dissertations* has been fully revised to meet the needs of today’s writers and researchers. The Manual retains its familiar three-part structure, beginning with an overview of the steps in the research and writing process, including formulating questions, reading critically, building arguments, and revising drafts. Part II provides an overview of citation practices with detailed information on the two main scholarly citation styles (notes-bibliography and author-date), an array of source types with contemporary examples, and detailed guidance on citing online resources. The final section treats all matters of editorial style, with advice on punctuation, capitalization, spelling, abbreviations, table formatting, and the use of quotations. Style and citation recommendations have been revised throughout to reflect the sixteenth edition of *The Chicago Manual of Style*. With an appendix on paper

format and submission that has been vetted by dissertation officials from across the country and a bibliography with the most up-to-date listing of critical resources available, *A Manual for Writers* remains the essential resource for students and their teachers.

Social work practitioners write for a variety of publications, and they are expected to show fluency in a number of related fields. Whether the target is a course instructor, scholarly journal, fellowship organization, or general news outlet, social workers must be clear, persuasive, and comprehensive in their writing, especially on provocative subjects. This first-of-its-kind guide features top scholars and educators providing a much-needed introduction to social work writing and scholarship. Foregrounding the process of social work writing, the coeditors particularly emphasize how to think about and approach one's subject in a productive manner. The guide begins with an overview of social work writing from the 1880s to the present, and then follows with ideal strategies for academic paper writing, social work journal writing, and social work research writing. A section on applied professional writing addresses student composition in field education, writing for and about clinical practice, the effective communication of policy information to diverse audiences, program and proposal development, advocacy, and administrative writing. The concluding section focuses on specific fields of practice, including writing on child and family welfare, contemporary social issues, aging, and intervention in global contexts. Grounding their essays in systematic observations, induction and deduction, and a wealth of real-world examples, the contributors describe the conceptualization, development, and presentation of social work writing in ways that better secure its power and relevance.
