Trains to Nowhere is the story of a modern man who searches to uncover his connection to the Holocaust after experiencing waking dreams and nightmares of the fictional Senbruch concentration camp. Also featured in this volume are two short stories set against the chaotic backdrop of World War II. "Barbarossa Diary" is the story of a young man going off to fight on the Eastern Front and "Haarth the Hunter" depicts the struggle between an American recon squadron and a Nazi biological super-weapon. Traces the story of World War II soldier Herman Perry, an African-American G.I. assigned to a segregated labor battalion who sparked the war's most notorious manhunt when he fled into the Indo-Burmese jungle after shooting an unarmed white officer.

Battling blazing sun, gritty dust, dizzying heights, and unfriendly rattlesnakes the windmillers of Burdick & Burdick Company in El Paso crossed the Southwest during the Great Depression bringing windmills and water to the parched land. From 1923 to 1942, Burdick photographed his men at work. Those photos, paired with Baker's text, shape Burdick's memories into a fascinating story.

Seventeen-year-old Erich is a prisoner of war working at a northern Alberta logging camp. Twelve-year-old Max goes to school—reluctantly—in the nearby town. The two would be unlikely friends, except that neither has anyone else to turn to. At the height of World War II, nobody wants to befriend a German. It doesn't matter that Erich was forced into the military by his father, or that Max was proudly born in Canada. They are both easy targets for the locals' grief and anger against the Nazis. The other prisoners

are no more welcoming, distrustful of Erich's perfect English and his dislike for Nazism. Still, when a series of accidents shake the logging camp, they pressure Erich to question the Canadians and find the saboteur—even if his questions get him into trouble. Caught between angry prisoners and suspicious captors, Erich is afraid to take any action at all. It is only when Max's schoolyard tormentors cross a dangerous line that Erich realizes that his real loyalties lie not with a regime or a country, but with his friend. On October 24, 1944, more than two hundred American soldiers realized they were surrounded by German infantry deep in the mountain forest of eastern France. As their dwindling food, ammunition, and medical supplies ran out, the American commanding officer turned to the 442nd Regimental Combat Team to achieve what other units had failed to do. *Honor Before Glory* is the story of the 442nd, a segregated unit of Japanese American citizens, commanded by white officers, that finally rescued the "lost battalion." Their unmatched courage and sacrifice under fire became legend—all the more remarkable because many of the soldiers had volunteered from prison-like "internment" camps where sentries watched their mothers and fathers from the barbed-wire perimeter. In seven campaigns, these young Japanese American men earned more than 9,000 Purple Hearts, 6,000 Bronze and Silver Stars, and nearly two dozen Medals of Honor. The 442nd became the most decorated unit of its size in World War II: its soldiers earned 18,100 awards and decorations, more than one for every man. *Honor Before Glory* is their story—a story of a young generation's fight against both the

enemy and American prejudice—a story of heroism, sacrifice, and the best America has to offer.

The confinement of some 120,000 Japanese Americans during World War II, often called the Japanese American internment, has been described as the worst official civil rights violation of modern U. S. history. Greg Robinson not only offers a bold new understanding of these events but also studies them within a larger time frame and from a transnational perspective. Drawing on newly discovered material, Robinson provides a backstory of confinement that reveals for the first time the extent of the American government's surveillance of Japanese communities in the years leading up to war and the construction of what officials termed "concentration camps" for enemy aliens. He also considers the aftermath of confinement, including the place of Japanese Americans in postwar civil rights struggles, the long movement by former camp inmates for redress, and the continuing role of the camps as touchstones for nationwide commemoration and debate. Most remarkably, *A Tragedy of Democracy* is the first book to analyze official policy toward West Coast Japanese Americans within a North American context. Robinson studies confinement on the mainland alongside events in wartime Hawaii, where fears of Japanese Americans justified Army dictatorship, suspension of the Constitution, and the imposition of military tribunals. He similarly reads the treatment of Japanese Americans against Canada's confinement of 22,000 citizens and residents of Japanese ancestry from British Columbia. *A Tragedy of*

Democracy recounts the expulsion of almost 5,000 Japanese from Mexico's Pacific Coast and the poignant story of the Japanese Latin Americans who were kidnapped from their homes and interned in the United States. Approaching Japanese confinement as a continental and international phenomenon, Robinson offers a truly kaleidoscopic understanding of its genesis and outcomes. A fifth of West Germany's post-1945 population consisted of ethnic German refugees expelled from Eastern Europe, a quarter of whom came from Silesia. As the richest territory lost inside Germany's interwar borders, Silesia was a leading objective for territorial revisionists, many of whom were themselves expellees. The Lost German East examines how and why millions of

Silesian expellees came to terms with the loss of their homeland. Applying theories of memory and nostalgia, as well as recent studies on ethnic cleansing, Andrew Demshuk shows how, over time, most expellees came to recognize that the idealized world they mourned no longer existed. Revising the traditional view that most of those expelled sought a restoration of prewar borders so they could return to the east, Demshuk offers a new answer to the question of why, after decades of violent upheaval, peace and stability took root in West Germany during the tense early years of the Cold War.

A wonderful and enduring tribute to American troops in the Second World War, *Here Is Your War* is Ernie Pyle's story of the soldiers' first campaign against the enemy in North Africa. With unequalled humanity and insight, Pyle tells how people from a cross-section of America—ranches, inner cities, small mountain farms, and college towns—learned to fight a war. The Allied campaign and ultimate victory in North Africa was built on blood, brave deeds, sacrifice and needless loss, exotic vistas, endurance, homesickness, and an unmistakable American sense of humor. It's all here—the suspenseful landing at Oran; the risks taken daily by fighter and bomber pilots; grim, unrelenting combat in the desert and mountains of Tunisia; a ferocious tank battle that ended in defeat for the inexperienced Americans; and the final victory at Tunis. Pyle's keen observations relate the full story of ordinary G.I.s caught up in extraordinary times.

Which is more dangerous, a gun or a swimming pool? What do schoolteachers and sumo wrestlers have in common? How much do parents really matter? These may not sound like typical questions for an economist to ask. But Steven D. Levitt is not a typical economist. He studies the riddles of everyday life—from cheating and crime to parenting and sports—and

reaches conclusions that turn conventional wisdom on its head. Freakonomics is a groundbreaking collaboration between Levitt and Stephen J. Dubner, an award-winning author and journalist. They set out to explore the inner workings of a crack gang, the truth about real estate agents, the secrets of the Ku Klux Klan, and much more. Through forceful storytelling and wry insight, they show that economics is, at root, the study of incentives--how people get what they want or need, especially when other people want or need the same thing.

In this captivating novel, New York Times bestselling author Fiona Davis takes readers into the glamorous lost art school within Grand Central Terminal, where two very different women, fifty years apart, strive to make their mark on a world set against them. For most New Yorkers, Grand Central Terminal is a crown jewel, a masterpiece of design. But for Clara Darden and Virginia Clay, it represents something quite different. For Clara, the terminal is the stepping stone to her future. It is 1928, and Clara is teaching at the lauded Grand Central School of Art. Though not even the prestige of the school can override the public's disdain for a "woman artist," fiery Clara is single-minded in her quest to achieve every creative success—even while juggling the affections of two very different men. But she and her bohemian friends have no idea that they'll soon be blindsided by the looming Great Depression...and that even poverty and hunger will do little to prepare Clara for the greater tragedy yet to come. By 1974, the terminal has declined almost as sharply as Virginia Clay's life. Dilapidated and dangerous, Grand Central is at the center of a fierce lawsuit: Is the once-grand building a landmark to be preserved, or a cancer to be demolished? For Virginia, it is simply her last resort. Recently divorced, she has just accepted a job in the information booth in order to support herself and her college-age daughter, Ruby. But when Virginia stumbles upon an abandoned art school

within the terminal and discovers a striking watercolor, her eyes are opened to the elegance beneath the decay. She embarks on a quest to find the artist of the unsigned masterpiece—an impassioned chase that draws Virginia not only into the battle to save Grand Central but deep into the mystery of Clara Darden, the famed 1920s illustrator who disappeared from history in 1931.

In a revealing study of how digital dossiers are created (usually without our knowledge), the author argues that we must rethink our understanding of what privacy is and what it means in the digital age, and then reform the laws that define and regulate it. Reprint. This free PDF textbook is intended as an upper level undergraduate or introductory graduate textbook in statistical thinking. It is best suited to students with a good knowledge of calculus and the ability to think abstractly. The focus of the text is the ideas that statisticians care about as opposed to technical details of how to put those

ideas into practice. Another unusual aspect is the use of statistical software as a pedagogical tool. That is, instead of viewing the computer merely as a convenient and accurate calculating device, the book uses computer calculation and simulation as another way of explaining and helping readers understand the underlying concepts. The book is written with the statistical language R embedded throughout. R software and accompanying manuals are available for free download from <http://www.r-project.org>

“No man in this war has so well told the story of the American fighting man as American fighting men wanted it told,” wrote Harry Truman. “He deserves the gratitude of all his countrymen.” THIS is the final book of Ernie Pyle’s war reporting. After Africa, Italy, and D-Day on the European continent, Pyle took it the hard way again. There was still the Pacific war to win, and where the fighting was Ernie had to go, soul-sick though he was with the thousands of scenes of death and destruction he had already witnessed. He was attached to the Navy early in 1945. In the Marianas first and then living with the boys who flew the B-29s over the Japanese homeland, Pyle was experiencing a side of the war that was new to him. Next he joined an aircraft carrier on the invasion of Okinawa. He made the landing with the Marines and saw Okinawa secured. Then his luck ran out. A Japanese bullet killed Ernie Pyle on April 17th, 1945 on Ie Shima, and Americans lost their greatest and best-loved correspondent. Millions mourned the going of this modest man who wrote of the war with all honesty and no

pretensions, and whose writings will stand as one of the most vital records of the struggle. LAST CHAPTER is a brief, brave little book to complete that record permanently. There is a sixteen-page picture section and an index of names and places.

The former CEO of a major aerospace innovator shares his rags to riches story while revealing his strategies for success in the world of business.

Told with humor and heart, *The Boy at the Back of the Class* offers a child's perspective on the refugee crisis, highlighting the importance of friendship and kindness in a world that doesn't always make sense. There used to be an empty chair at the back of Mrs. Khan's classroom, but on the third Tuesday of the school year a new kid fills it: nine-year-old Ahmet, a Syrian refugee. The whole class is curious about this new boy--he doesn't seem to smile, and he doesn't talk much. But after learning that Ahmet fled a Very Real War and was separated from his family along the way, a determined group of his classmates bands together to concoct the Greatest Idea in the World--a magnificent plan to reunite Ahmet with his loved ones. This accessible, kid-friendly story about the refugee crisis highlights the community-changing potential of standing as an ally and reminds readers that everyone deserves a place to call home. "This moving and timely debut novel tells an enlightening, empowering, and ultimately hopeful story about how compassion and a willingness to speak out can change the world." --School Library Journal, Starred Review Overall Winner of the 2019 UK Waterstones Children's Book

From Ty McCormick, winner of the Robert F. Kennedy Journalism Award, an epic and timeless story of a family in search of safety, security, and a place to call home. When Asad Hussein was growing up in the world's largest refugee camp, nearly every aspect of life revolved around getting to America—a distant land where anything was possible. Thousands of displaced families like his were whisked away to the United States in the mid-2000s, leaving the dusty encampment in northeastern Kenya for new lives in suburban America. When Asad was nine, his older sister Maryan was resettled in Arizona, but Asad, his parents, and his other siblings were left behind. In the years they waited to join her, Asad found refuge in dog-eared novels donated by American charities, many of them written by immigrants who had come to the United States from poor and war-torn countries. Maryan nourished his dreams of someday writing such novels, but it would be another fourteen years before he set foot in America. The story of Asad, Maryan, and their family's escape from Dadaab refugee camp is one of perseverance in the face of overwhelming adversity. It is also a story of happenstance, of long odds and impossibly good luck, and of uncommon generosity. In a world where too many young men are forced to make dangerous

sea crossings in search of work, are recruited into extremist groups, and die at the hands of brutal security forces, Asad not only made it to the United States to join Maryan, but won a scholarship to study literature at Princeton—the first person born in Dadaab ever admitted to the prestigious university. Beyond the Sand and Sea is an extraordinary and inspiring book for anyone searching for pinpricks of light in the darkness. Meticulously reported over three years, it reveals the strength of a family of Somali refugees who never lost faith in America—and exposes the broken refugee resettlement system that kept that family trapped for more than two decades and has turned millions into permanent exiles.
