Compiled by a team of Cruising Association regional editors and Imray, the Cruising Almanac is an annual publication first published over 100 years ago and long regarded as the perfect on board companion for cruising yachts. Each year, a well-known cruising sailor writes the Preface, and this year's is by Tom Cunliffe. The Almanac covers Northwest Europe from the Shetlands and southern Norway to Gibraltar and West Ireland to the Baltic. Based on first-hand experience and official data, all sections – text, plans, tidal data – are checked and updated annually. With over 750 port entries alongside passage notes (easily identified by their pale blue background colour), it's a vital tool for both planning and whilst at sea. 2021 tide tables for 47 standard ports are included in a separate booklet. The main Almanac contains tidal stream diagrams: full tidal details for secondary ports are included with the text for the relevant port. Updating of the Almanac continues throughout the year, with corrections published monthly on the Cruising Association website [Almanac corrections page](#).

"Have you ever been embarrassed by the bons mots that some people toss casually into conversation, or wished that you had a clever retort?" "Faux Pas offers insight into hundreds of these phrases that readers will (or might not) want to use in writing or conversation once they know their correct meanings and usage. Entries include both familiar terms and phrases that are new, curious, or even just amusing. Each expression is "translated" and denotes the language of origin, pronunciation, and usefulness. A Pretentiousness Index is included for many expressions to assist you in avoiding inappropriate usage." Whether you are a linguaphile or a professional wordsmith, or just want to impress your friends with a few well-chosen apercus, Philip Gooden's guide can rescue you from potential language land mines and help you to maintain your sangfroid. Full of examples drawn from everyday contexts, Faux Pas will make sure that you don't upset any honchos with your chutzpah.

the Douro and Tejo with Lisbon, the Algarve and then the coast of Andalucia down to Gibraltar. It's the essential companion for yachts making passage to the Mediterranean or onwards to the Canaries before an Atlantic crossing and also a comprehensive cruising companion for anyone visiting the delightful cruising grounds of Galicia and beyond. There are new photos and most of the plans incorporate changes accumulated over the four years since the last edition was published. The fact that this guide is now in its eighth edition shows how popular it has become with cruising folk... all right up to Imray's normal standards and it would make no sense to cruise the area without this book by the navigator's hand. Beautiful, secluded anchorages, picturesque canals, bustling marinas, dramatic cities - all await those considering a Baltic cruise. The nine countries bordering the Baltic Sea offer an immense variety of cruising grounds, people and cultures. There are thousands of harbours and innumerable anchorages, and it would take an entire bookshelf, to cover them all in detail. The information contained in this book has therefore been chosen for its value both at the planning stages - preparing the yacht, choosing the most suitable route, timing and communications etc - and again on arrival, when a general overview of each individual country is followed by specific harbour information. Where detailed cruising

information is readily available - effectively Germany, Denmark, Sweden and Finland - only selected harbours are covered, chosen, with a few exceptions, as fulfilling certain key needs. Where cruising information is more limited - Poland, Kaliningrad, Lithuania, Latvia, Estonia and Russia - many smaller harbours are also featured in detail. In addition to comprehensive suggestions for further reading (and sources in each country from which they may be ordered) more than 200 websites are listed, again chosen for their relevance both at the planning stages and en route. Details of internet access points are included for most major harbours. This 4th edition (2017) has been produced by a team from the Royal Cruising Club and contains substantial changes. Apart from the routine updating of the text and plans - many newly drawn for this edition - and the addition of new photos, there are also some major changes. In particular coverage of Finland has been reorganized, and reflecting the fast pace of change since the last edition, the Baltic States and Poland sections have been improved significantly.

Business language around the world in the 21st century is in a state of rapid change. This creates the need for new business dictionaries that are not tied to the past but rather reflect the new global economy. This is particularly true in regard to an English-Chinese business dictionary, which brings together two economic systems that are far from identical. This dictionary provides translations of American business terms. It covers many areas of business, such as banking, insurance, real estate, export-import, stock market and more. In addition, several hundred business-related computer and Internet terms have been included.

For the first time, and long awaited, we have the view from the gun deck of the wide world that opened to the Elizabethans on the Spanish Main and among the islands of the Caribbean. The tang of salt air stings the story. So does fearsome reality, the diseases and storms that wreaked havoc on sailors and ships alike and, more often than not, ruined the ambitions of many a financier. With the seapower of Imperial Spain still dominant, England's private adventurers could "sing the beards" of the haughty Spaniards but wherever possible still evaded Iberian naval firepower and the dreaded Inquisition. *Tropics Bound*, rich in documentary research, reveals in triumph and failure the lives of privateers who deserve to be remembered – of wealth acquired, of health forsaken, and of risks so often surprisingly achieved.'

Most people at some point long to escape - from the weather, the commute, the routine. Sailing off in a forty-foot boat called *Voyager* comes at a price, however. Indeed, for David and Sandra Clayton it meant selling their house and possessions with a lifetime's collection of memories and emotions attached to them. But the result proved life-enhancing. With her eye for detail and vivid descriptions, Sandra carries the reader with her through some of the Mediterranean's loveliest islands. Charmed by tranquil anchorages, ancient harbours and the people they meet, they also develop a fascination with the sea and its wildlife. And, whilst questioning the things we value and the nature of happiness, this book reveals the growing and sometimes amusing inter-dependence of two people alone at sea. This is the sequel to the popular *Dolphins under my Bed*, which charted Sandra and David's first long journey: a 2,000-mile voyage from England, down the Atlantic coast and into the warm waters of the

Idiomantics is a unique exploration of the world of idiomatic phrases. The very etymology of the word 'idiom' reveals what's so endlessly fascinating about the wide range of colourful phrases we use in everyday speech: their peculiarity. They're peculiar both in the sense of being particular or unique to the culture from which they originate, and in the sense of being downright odd. To cite three random examples - from American English, Dutch and Italian - what on Earth are a snow job, a monkey sandwich story, and Mr Punch's secret? Fascinating and illuminating, Idiomantics explains all... The ideal gift for word buffs and in fact, anyone who enjoys a good yarn, this playful book looks at 12 groups of idioms around the world, looking at subjects such as fun and games, gastronomic delights and the daily grind.

Using the debates over the denial of the Holocaust and the story of the Alamo as illustrations, the author explores the forces that shape how history is understood

In August 1979, 303 yachts began the 600-mile Fastnet Race from the Isle of Wight off the southwest coast of England to Fastnet Rock off the Irish coast and back. It began in fine weather, then suddenly became a terrifying ordeal. A Force 10, sixty-knot storm swept across the North Atlantic with a speed that confounded forecasters, slamming into the fleet with epic fury. For twenty hours, 2,500 men and women were smashed by forty-foot breaking waves, while rescue helicopters and lifeboats struggled to save them. By the time the race was over, fifteen people had died, twenty-four crews had abandoned ship, five yachts had sunk, 136 sailors had been rescued, and only 85 boats had finished the race. John Rousmaniere was there, and he tells the tragic story of the greatest disaster in the history of yachting as only one who has sailed through the teeth of a killer storm can. With a new introduction by the author.
