Pitch Black for Fifteen Years is my true story. It starts at the age of thirteen and continues through today. I explain why I had to disappear from the life of my kids; how I became persecuted by the Swiss authorities for being a Chilean citizen; my torture by the Switzerland Federal Police; and how the government of Switzerland has controlled other governments including Chilean, Spanish, Canadian, Italian, French, and all European and international institutions. I am a simple man, but a fighter. My enemy, Angelo Valli, a Swiss mobster who started the persecution in 1997, was allied with Boris Yeltsin, Vladimir Putin, Silvio Berlusconi, Mohammad Kaddafi, Italian criminal organizations, and the Vatican and Italian government. This gave him the power to transform a simple marriage between a Chilean and a Swiss woman into a hell. To defend myself, I have used secret information that a criminal organization or secret services put into my hands. Why did I have to have the protection of a criminal organization against governments and international institutions? And how have I survived? I tell all in this book, which is really a "letter to my kids." About the Author Originally from Chile, Pedro Antonio Leon Rubio now resides in Berlin, Germany. "I am being persecuted by the institutions created to protect the society, protect the family, and protect the people. Instead, the Switzerland government is persecuting me to protect and keep intact the human rights reputation of Switzerland." The author wrote this book to express his love for his children and to protect them. Publisher's website: <http://sbprabooks.com/PedroAntonioLeonRubio>
