But just when it looks as though nothing can ever touch them again, their lives are shattered by a freakish accident and a betrayal that will reverberate into the life of their American daughter. In its portrait of the immigrant experience, and of the tragic gulf between generations, The Oriental Wife illuminates the collision of American ideals of freedom and happiness with certain sterner old world virtues.

The Elders and Maliyan's parents become very disappointed and soon the local billabong becomes a mess. The silly birds do not care for anyone and seem to have eaten all the food. Maliyan begins to see the error of his ways and tries to talk to Wagun and the other birds about their actions. No one listens. So Maliyan flies away and begins the journey of listening again. Maliyan soon becomes a proud leader and all the silly birds begin to follow his example. They all help clean up the messes they have made. All except one ... In this quintessential Australian fable, Silly Birds combines richly textured and striking illustrations of Australian animals with the gentle humour of an Aussie truism that it is hard to soar like an eagle when you are, in fact, surrounded by turkeys.

This book covers the complete development history of those variants of the Focke-Wulf Fw 190 powered by inline engines. The first Fw 190 equipped with a Daimler Benz liquid-cooled engine took to the air in early 1942, followed six months later by another powered by a Jumo 213. Production of the Fw 190 C, Fw 190 D and Ta 153 was delayed by the German air ministry. Not until 1944, by which time Germany had lost control of the air, did the Fw 190 D-9, an interim fighter powered by the Jumo 213 A, enter production. The Fw 190 D-9 proved an immediate success, largely due to an excellent prototype test program under Dipl.Ing. Hans Sander. The type quickly entered service with the Luftwaffe and more than 1,700 examples were completed by the end of the war. The Fw 190 D-9 gave rise to a number of improved variants with the more powerful Jumo 213 F engine and a heavier armament, however only a handful of the D-11 and D-13 versions were completed. With a maximum speed of 750 km/h, the Fw 190 D-12 powered by the new Jumo 213 EB would have represented the apex of Fw 190 development.

The proposed Fw 190 D-14 and D-15, both powered by improved versions of the dive-bombers 603, came too late to see service with the Luftwaffe.

Nostalgia is a funny thing, isn't it? Sometimes it reminds us of a period in the past that makes us so very unhappy but sometimes brings to mind, things that gave us the most happiness. These memories, good or bad, are the only things we will be carrying with us, no matter where life takes us. These memories are what make us who we are. I am eighteen years old and going off to college and even though the world would call me an "adult," I still feel like I have so much left to see and learn. Join me, Alisha, as I take a walk down memory lane to a time when teenage drama was at its peak, hashtags were not "cool," the battle with acne was never-ending, feelings for a boy wavered more than an opera singer's voice, when friends and family did not mean two different things, and every single problem seemed to be the end of the world. Stand with me as I recollect every blunder I committed and be sure to smile with me as I remember all the high moments in life. For all you know, you might even be able to relate to a thing or two. So sit back, relax, and forget all about your drama as you read about mine. Love, Just Another Teenage Girl.
