Trieste Publishing has a massive catalogue of classic book titles. Our aim is to provide readers with the highest quality reproductions of fiction and non-fiction literature that has stood the test of time. The many thousands of books in our collection have been sourced from libraries and private collections around the world. The titles that Trieste Publishing has chosen to be part of the collection have been scanned to simulate the original. Our readers see the books the same way that their first readers did decades or a hundred or more years ago. Books from that period are often spoiled by imperfections that did not exist in the original. Imperfections could be in the form of blurred text, photographs, or missing pages. It is highly unlikely that this would occur with one of our books. Our extensive quality control ensures that the readers of Trieste Publishing's books will be delighted with their purchase. Our staff has thoroughly reviewed every page of all the books in the collection, repairing, or if necessary, rejecting titles that are not of the highest quality. This process ensures that the reader of one of Trieste Publishing's titles receives a volume that faithfully reproduces the original, and to the maximum degree possible, gives them the experience of owning the original work. We pride ourselves on not only creating a pathway to an extensive reservoir of books of the finest quality, but also providing value to every one of our readers. Generally, Trieste books are purchased singly - on demand, however they may also be purchased in bulk. Readers interested in bulk purchases are invited to contact us directly to enquire about our tailored bulk rates.

While researching information for the publication of my 9th book The Flat Earth As Key To Decrypt The Book Of Enoch, I was led to understanding that not only does the Bible support premise that the earth is a flat circular plane but that it is covered by the firmament as a solid transparent dome like canopy. This led me to revisit the canonical and extra Biblical texts such as The Book Of Enoch, The Book Of Jasher, The Book Of Jubilees, and myriad others, to see if not only did they affirm such idea but if they contained other little known insight which might expound upon this matter in some detailed manner. This book is the end result of that search and compilation of all of those source references. And because I include in this study much extra Biblical material which few are familiar with, I doubt one will be able to find a more complete investigation of the firmament as topic than that which is presented here. The seeker

of lost paradise may seem a fool to those whom have never sought the other worlds David Wardlaw Scott examines and criticizes a variety of sources who claim the earth to be round - as a proponent of flat earth theory, Scott argues against this view. A strong supporter of flat earth theory, Scott focuses upon the claims made by a group he terms 'Modern Astronomers'. Their assertions about the Earth's shape, orbit and other characteristics are, in the author's view, incorrect. Drawing on a combination of testimonies from sailors and other voyagers to faraway lands, passages from scripture, and the assertions of fellow flat earth theorists, Scott lists dozens of reasons why the Modern Astronomers are misguided and wrong. To name but a few examples - the characteristics of railways, the positions and apparent motions of the astronomic bodies like the Moon and Sun, and the age of the Earth each receive chapters. Scott posits that the characteristics of these supports the flat earth hypothesis, while Biblical stories such as the Great Flood depicted in the Book of Genesis also contain insights that further qualify the flat earth theory. Citing published works such as Zetetic Astronomy, Scott's lengthy narrative is wide-ranging. In all, this book is a representative summation of the beliefs and arguments used by the flat earth movement.

Zetetic Astronomy is a key work of flat-earth thought, just as Donnelly's Atlantis, the Antediluvian World is still considered required reading on the subject of Atlantis. If you ever have to debate the flat earth pro or con, this book is a complete agenda of each point that you'll have to argue. Rowbotham believed that the earth is flat. The continents float on an infinite ocean which somehow has a layer of fire underneath it. The lands we know are surrounded by an infinite wilderness of ice and snow, beyond the Antarctic Ocean, bordered by an immense circular ice-cliff. What we call the North Pole is in the center of the earth.

This 3rd Edition of Zetetic Astronomy: Earth Not a Globe was written in 1881 By Parallax, who was also known as Samuel Birley Rowbotham. Parallax was a Flat Earth Theorist, and Worked To Educate Others About Why He Believed the Earth Was Flat Instead Of A Planet. In This Book, Parallax Uses Diagrams of Experiments, As Well As Text, to Prove that the Earth Is Flat. Rowbotham was an English inventor who was born in 1816 and Died in 1884. "Rowbotham's method, which he called Zetetic Astronomy, models the Earth as an enclosed plane centered at the North Pole and bounded along its perimeter by a wall of ice, with the Sun, Moon, planets, and stars moving only several hundred miles above the surface of Earth." - Wikipedia Although Written at the Turn of the Century, this Flat Earth Book is Very Relevant for Today. This 2018 Edition Is Updated With A Brief History of the Flat Earth Theory, and Facebook and Website Resources.

Shortly after accepting the flat earth as a model for the world, I decided to revisit the Book of the Courses of the Heavenly Luminaries to see if my new understanding would somehow mirror what Enoch was sharing as a motion for the sun and moon. As I began to read chapters 71-82, I found to my utter amazement that I was able to grasp those passages. I knew then that the vision that the angel Uriel had shown to Enoch could only be deciphered if one were to imagine Enoch's description of the revolution of the sun and the moon. As seen from above the flat circular plane of the earth as described by Isaiah; and that Enoch must have been taken up to perhaps where Polaris is, centered directly above the North Pole, and while looking down at the backdrop of the earth, was instructed on the motions of both the sun and moon. Without such conception, it is in my opinion impossible to apply these descriptions to the model of the earth as a spherical planet.

Opinions of the Press

Samuel Birley Rowbotham advances the Flat Earth theory, which holds that Earth is not
in fact an oblate spheroid planet, but an enclosed plane above which the astronomical
bodies are situated. This premium edition contains all of Rowbotham's original graphs,
charts and drawings. This book began as a pamphlet in the 1840s, explaining the
theory with a few sketches alongside. Rowbotham was already an inventor and author,
and over time theories of Zetetic Astronomy - in which the Earth is flat - became
popular. In 1881 the author expanded and published this book, in part to meet public
and scientific scrutiny. Experiments and demonstrations are conducted in support of the
Earth being flat, with the astronomical bodies situated above, rather than around it.

Most of these are framed with illustrations and diagrams, that the reader understands
Rowbotham's notions. Various chapters concern motion of the heavenly bodies,
sunrises, sunsets, the tidal movements, and distances of the Sun and Moon from Earth.

Wolves in sheep's clothing have pulled the wool over our eyes. For almost 500 years, the masses have been thoroughly deceived by a cosmic fairy-tale of astronomical proportions. We have been taught a falsehood so gigantic and diabolical that it has blinded us from our own experience and common sense, from seeing the world and the universe as they truly are. Through pseudo-science books and programs, mass media and public education, universities and government propaganda, the world has been systematically brain-washed, slowly indoctrinated over centuries into the unquestioning belief of the greatest lie of all time. A multi-generational conspiracy has succeeded, in the minds of the masses, to pick up the fixed Earth, shape it into a ball, spin it in circles, and throw it around the Sun! The greatest cover-up of all time, NASA and Freemasonry's biggest secret, is that we are living on a plane, not a planet, that Earth is the flat, stationary center of the universe.

Contrary to popular belief fostered in countless school classrooms the world over, Christopher Columbus did not discover that the earth was round. The idea of a spherical world had been widely accepted in educated circles from as early as the fourth century B.C. Yet, bizarrely, it was not until the supposedly more rational nineteenth century that the notion of a flat earth really took hold. Even more bizarrely, it persists to this day, despite Apollo missions and widely publicized pictures of the decidedly spherical Earth from space. Based on a range of original sources, Garwood's history of flat-Earth beliefs---from the Babylonians to the present day---raises issues central to the history and philosophy of science, its relationship to religion and the making of human knowledge about the natural world. Flat Earth is the first definitive study of one of history's most notorious and persistent ideas, and it evokes all the intellectual, philosophical, and spiritual turmoil of the modern age. Ranging from ancient Greece, through Victorian England, to modern-day America, this is a story that encompasses religion, science, and pseudoscience, as well as a spectacular array of people and places. Where else could eccentric aristocrats, fundamentalist preachers, and conspiracy theorists appear alongside Copernicus, Newton, and NASA, except in an account of such a legendary

misconception? Thoroughly enjoyable and illuminating, Flat Earth is social and intellectual history at its best.

This is a compilation of books written in the late 19th century. It includes Zetetic Astronomy by Samuel "PARALLAX" Rowbatham and 100 Proofs Earth Not a Globe by William Carpenter along with a Preface, Introduction and commentary throughout, written by Rob Skiba. It is dedicated to those willing to hear the whole matter; to those daring enough to entertain a thought, even without first accepting it and who have the guts to actually take the time to investigate the matter before condemning it. The subject is Flat Earth. If you dare to read this book from cover to cover, you will begin to see why this "taboo" topic is coming to the forefront once again, trending so high on Google and YouTube and why, believe it or not, you may actually know some

This unusual early work on 'Flat Earth Theory' was originally published in 1901. It comprises a comprehensive series of essays which use scripture, reason and fact to (attempt to) prove that the earth is not a planet. The text makes for an entertaining and informative read, providing a wonderful insight into the philosophy of a bygone age. Its chapters include discussions of: The Adamic Creation, The Nebular Hypothesis: Examination of three Alleged Proofs of the World's Globality, The Horizontality of Land and Water Proved, The Sun, according to the Scriptures, The Deluge-Biblical Account, The Great Deep a Proof that the Earth is not a Planet... and much, much more! Many old works such as this are increasingly hard-to-come-by and expensive, and it is with this in mind that this book is being republished now in an affordable, modern edition complete with a specially commissioned new introduction on the subject.

2017 Reprint of 1899 Second Edition. Modern flat Earth hypotheses originated with the English writer Samuel Rowbotham (1816-1884). Based on conclusions derived from the Bedford Level experiment, Rowbotham published Zetetic Astronomy. He later expanded into a book Earth Not a Globe, proposing the Earth is a flat disc centered at the North Pole and bounded along its southern edge by a wall of ice, Antarctica, with the Sun and Moon 3,000 miles and the "cosmos" 3,100 miles above Earth. He also published a leaflet titled "The Inconsistency of Modern Astronomy and its Opposition to the Scriptures!," which argued that the Bible, alongside our senses, supported the idea that the earth was flat and immovable and this essential truth should not be set aside for a system based solely on human conjecture. Rowbotham and followers like T. Winship [Rectangle] gained attention in debates with leading scientists such as Alfred Russel Wallace. Rowbotham created a Zetetic Society in England and New York, shipping over a thousand copies of Zetetic Astronomy.

Completely revised version of the original 1904 edition "The hypothesis of a universal force called Gravitation is based upon, and was indeed invented with a view to support another hypothesis, namely, that the earth and sea together make up a vast globe, whirling away through space, and therefore needing some force or forces to guide it in its mad career, and so control it as to make it conform to what is called its annual orbit round the sun! The theory first of all makes the earth to be a globe; then not a perfect globe, but an oblate spheroid, flattened at the 'poles'; then more oblate, until it was in danger of becoming so flattened that it would be like a cheese; and, passing over minor variations of form, we are finally told that the earth is pear-shaped, and that the 'elipsoid has been replaced by an apoid!' What shape it may assume next we cannot tell; it will depend upon the whim or fancy of some astute and
