From Cradle to Stage Virginia Hanlon Grohl,2017-04-18 Written by Virginia Grohl, the mother of Dave Grohl—former Nirvana drummer and current frontman for the Foo Fighters—*From Cradle to Stage* shares stories and exclusive photos featuring mothers of rock icons, the icons themselves, and their Behind the Music-style relationships While the Grohl family had always been musical—the family sang together on long car trips, harmonizing to Motown and David Bowie—Virginia never expected her son to become a musician, let alone a rock star. But when she saw him perform in front of thousands of screaming fans for the first time, she knew that rock stardom was meant to be for her son. And as Virginia watched her son's star rise, she often wondered about the other mothers who raised sons and daughters who became rock stars. Were they as surprised as she was about their children's fame? Did they worry about their children's livelihood and wellbeing in an industry fraught with drugs and other dangers? Did they encourage their children's passions despite the odds against success, or attempt to dissuade them from their grandiose dreams? Do they remind their kids to pack a warm coat when they go on tour? Virginia decided to seek out other rock star mothers to ask these questions, and so began a two-year odyssey in which she interviewed such women as Verna Griffin, Dr. Dre's mother; Marianne Stipe, Michael Stipe of REM's mother; Janis Winehouse, Amy Winehouse's mother; Patsy Noah, Adam Levine's mother; Donna Haim, mother of the Haim sisters; Hester Diamond, Mike D of The Beastie Boys' mother. With exclusive family photographs and a foreword by Dave Grohl, *From Cradle to Stage* will appeal to mothers and rock fans everywhere.

Zumbo Files Adriano Zumbo,2015-11-01 The *Zumbo Files* reveals the recipe secrets of master patissier Adriano Zumbo, dubbed the Sweet Assassin. This collection of 50 new recipes includes Adriano's latest creations, zonut (his pimped-up croissant-donut), plus some astonishing new flavor combinations for his signature zumbarons (think lavender, thyme &

strawberry, burnt toast and banana, caramel & balsamic). There's also a chapter of savory recipes to round out your pastry repertoire--try the fish & chips pie or the pork, earl grey & lemon sausage rolls. For the first time, Adriano provides photographic step-by-step instructions for the master recipes in each style of patisserie, deconstructing the process and making these culinary works of art achievable for the home baker. The Zumbo Files is Adriano's third book and his most ambitious yet. Open it up and step inside--it'll blow your mind.

Cooked Michael Pollan, 2014-04-29 Michael Pollan, the bestselling author of *The Omnivore's Dilemma*, *Food Rules*, *How to Change Your Mind*, and *This is Your Mind on Plants* explores the previously uncharted territory of his own kitchen in *Cooked*. Having described what's wrong with American food in his best-selling *The Omnivore's Dilemma* (2006), New York Times contributor Pollan delivers a more optimistic but equally fascinating account of how to do it right. . . . A delightful chronicle of the education of a cook who steps back frequently to extol the scientific and philosophical basis of this deeply satisfying human activity. —Kirkus (starred review) *Cooked* is now a Netflix docuseries based on the book that focuses on the four kinds of transformations that occur in cooking. Directed by Oscar-winning filmmaker Alex Gibney and starring Michael Pollan, *Cooked* teases out the links between science, culture and the flavors we love. In *Cooked*, Pollan discovers the enduring power of the four classical elements—fire, water, air, and earth—to transform the stuff of nature into delicious things to eat and drink. Apprenticing himself to a succession of culinary masters, Pollan learns how to grill with fire, cook with liquid, bake bread, and ferment everything from cheese to beer. Each section of *Cooked* tracks Pollan's effort to master a single classic recipe using one of the four elements. A North Carolina barbecue pit master tutors him in the primal magic of fire; a Chez Panisse-trained cook schools him in the art of braising; a celebrated baker teaches him how air transforms grain and water into a fragrant loaf of bread; and finally, several mad-genius “fermentos” (a tribe that includes brewers, cheese makers, and all kinds of picklers) reveal how fungi and bacteria can perform the most amazing alchemies of all. The reader learns alongside Pollan, but the lessons move beyond the practical to become an investigation of how cooking involves us in a web of social and ecological relationships. Cooking, above all, connects us. The effects of not cooking are similarly far reaching. Relying upon corporations to process our food means we consume large quantities of fat, sugar, and salt; disrupt an essential link to the natural world; and weaken our relationships with family and friends. In fact, *Cooked* argues, taking back control of cooking may be the single most important step anyone can take to help make the American food system healthier and more sustainable. Reclaiming cooking as an act of enjoyment and self-reliance, learning to perform the magic of these everyday transformations, opens the door to a more nourishing life.
