The Definitive Guide to Underwriting Multifamily Acquisitions Robert Beardsley,2020-05-07 This is a phenomenal resource for understanding how to underwrite a multifamily deal. Our group, PassiveInvesting.com, has been using a variation of Rob's underwriting model for a couple of years now and we have acquired over \$220mil+ in multifamily assets. I highly recommend you listening to Rob and taking advantage of knowledge within this book. -Dan Handford, Managing Partner with PassiveInvesting.com Are you overwhelmed with multifamily investment opportunities that all seem to have the same business plan and projected returns but don't know which one actually makes sense? Do you want to be able to cut through the noise and see the real numbers for yourself? The Definitive Guide to Underwriting Multifamily Acquisitions is the only step-by-step book that provides you with all of the tools you need in order to become a numbers ninja, invest smarter, and structure more profitable partnerships. Get inside the mind of a multifamily underwriting expert and learn the crucial skills required to make better investment decisions, which includes: - Collecting and researching the data needed to underwrite a multifamily investment - Walking through a step-by-step guide to building a purchase, cash flow pro forma, and sale analysis - Designing and performing sensitivity analyses and stress tests to uncover hidden insights about risks, financing, and optimal business plans - Structuring and negotiating partnership structures so you know you're always getting the best deal possible for yourself and/or your investors. The Definitive Guide to Underwriting Multifamily Acquisitions is a must-read for both passive investors and sponsors looking to take their investments to the next level. Rob delivers lesser-known insights regarding sensitivity analyses, stress tests, and partnership structures in a concise format. Rob provides readers the tools to make confident investments in multifamily partnerships/syndications. -Joe Fairless, Co-Founder of Ashcroft Capital Rob Beardsley is a true expert at the all-important but often ignored art and science of underwriting. The Definitive guide is a fantastic resource for anyone that needs to learn more about underwriting, and even professional underwriters will find plenty of food for thought in here. -Neal Bawa, CEO, Grocapitus and MultifamilyU The Definitive Guide to Underwriting Multifamily Acquisitions is a zero-fluff approach to analyzing potential apartment acquisitions. Not only does Rob tell you the exact metrics to focus on prior to moving forward with a purchase, he also gives you dozens of rules of

thumb that you can refer back to when underwriting a new opportunity. This alone will save you countless hours while sifting through deals, trying to find the diamond in the rough, and removing those without potential. -Hunter Thompson, author of *Raising Capital for Real Estate & Founder of Asym Capital* I've had the pleasure of knowing Rob as a syndicator and investor in the multifamily niche. He's supported reviews on several of our projects. I've always been impressed by Rob's attention to details, ease of explaining more complicated concepts and fresh perspective on deal structuring. I expect you will find this book highly useful as I did. -David Thompson, CEO and Founder, Thompson Investing

Insurance: From Underwriting to Derivatives Eric Briys, François de Varenne, 2001-06-29 An in-depth look at the increasingly significant convergence between the insurance industry and the capital markets. This important publication, by two premier financial experts, explores the unique convergence of finance and insurance. The book covers the basics of property-casualty insurance, securitizing insurance risks, looks at life insurance in the United States and ALM in insurance. It addresses the questions and concerns of investment banks, brokerage firms and the insurance/reinsurance sector itself, examines ongoing trends and issues, and how current market pressures on insurance companies do not just create challenges but actually point the way to future promising developments.

Property and Casualty Insurance Concepts Simplified Christopher J. Boggs, 2010 This book details key property and casualty concepts rarely discussed or found in print; rather they are often left to be discovered over time. These important concepts are now written down for all insurance practitioners to easily access. Examples of the topics and concepts found in this book include rules for reading ANY insurance policy; why losses are excluded; contractual risk transfer; legal liability theories; COPE details; and the proper explanation of coinsurance concepts. Also included is a rather extensive glossary of insurance and insurance-related terms. Readers will: 1) Gain a deeper understanding of insurance theories; 2) Be better prepared to explain insurance concepts to their clients; and 3) Develop a greater appreciation and understanding of the claims valuation process.

Catastrophe Risk Financing in Developing Countries J. David Cummins, Olivier Mahul, 2009 'Catastrophe Risk Financing in Developing Countries' provides a detailed analysis of the imperfections and inefficiencies that impede the emergence of competitive catastrophe risk markets in developing countries. The book demonstrates how donors and international financial institutions can assist governments in middle- and low-income countries in promoting effective and affordable catastrophe risk financing solutions. The authors present guiding principles on how and when governments, with assistance from donors and international financial institutions, should intervene in catastrophe insurance markets. They also identify key activities to be undertaken by donors and institutions that would allow middle- and low-income countries to develop competitive and cost-effective catastrophe risk financing strategies at both the macro (government) and micro

(household) levels. These principles and activities are expected to inform good practices and ensure desirable results in catastrophe insurance projects. 'Catastrophe Risk Financing in Developing Countries' offers valuable advice and guidelines to policy makers and insurance practitioners involved in the development of catastrophe insurance programs in developing countries.
