My mother was the Madison Ridge Killer ... and I helped her. At nine, I was given a new start-a new life. My adoptive parents did everything they could to help me forget my past, and for a while, they succeeded. But I was never normal. I never truly forgot all I saw or did. Now, twenty years later, I work in the billing department for a small city newspaper. And like decades before, not that far away, another serial killer is on the loose. I can still see her. I can still hear my mother coaxing me to slide the bright red lipstick over her beautiful victims' lips. But this isn't her and I'm determined to figure out who it is. I may work behind the scenes at the Rockford Times, but I'm about to get thrown right in the middle of the biggest story our city has ever seen. My name is Anna Monroe and I'm full of secrets. They say you're not your past. I'm not so sure they're right.

In the 40 essays that constitute this collection, Guy Davenport, one of America's major literary critics, elucidates a range of literary history, encompassing literature, art, philosophy and music, from the ancients to the grand old men of modernism. The collection of drawings at the Getty Museum was started in 1981 with the purchase of Rembrandt's *Nude Woman with a Snake* and has steadily expanded since then, so that now, at the turn of the new millennium, it stands at more than six hundred drawings and is, sheet for sheet, one of the best anywhere. The Getty goal is to create from the finest examples a collection of the different Western European schools of drawing before 1900, with special emphasis on the work of the most important and accomplished draftsmen. The collection now contains superb examples of the work of Leonardo da Vinci, Raphael, Michelangelo, Dürer, Rembrandt, Claude Lorraine, Watteau, Gainsborough, David, Millet, Manet, Van Gogh, and Degas. This is the

fourth in the series of catalogues describing the drawings in the Getty Museum. Most of the drawings discussed in the present volume were chosen for the collection in the period of 1994 to 1998 and include examples from the Italian, German, Dutch and Flemish, French, Spanish, and British schools. Also included are several gifts from private collectors, which mark the start of a tradition that, it is hoped, will continue in the future. The catalogue entries for these new acquisitions are organized first by national school and then by artist. The book also includes a bibliography and indexes of artists, former owners, related drawings, prints, and works in other media. A deliciously told group biography of the young, rich, American heiresses who married into the impoverished British aristocracy at the turn of the twentieth century – the real women who inspired *Downton Abbey* Towards the end of the nineteenth century and for the first few years of the twentieth, a strange invasion took place in Britain. The citadel of power, privilege and breeding in which the titled, land-owning governing class had barricaded itself for so long was breached. The incomers were a group of young women who, fifty years earlier, would have been looked on as the alien denizens of another world - the New World, to be precise. From 1874 - the year that Jennie Jerome, the first known 'Dollar Princess', married Randolph Churchill - to 1905, dozens of young American heiresses married into

the British peerage, bringing with them all the fabulous wealth, glamour and sophistication of the Gilded Age. Anne de Courcy sets the stories of these young women and their families in the context of their times. Based on extensive first-hand research, drawing on diaries, memoirs and letters, this richly entertaining group biography reveals what they thought of their new lives in England - and what England thought of them.

Jean-Luc Godard, like many of his European contemporaries, came to filmmaking through film criticism. This collection of essays and interviews, ranging from his early efforts for *La Gazette du Cinéma* to his later writings for *Cahiers du Cinéma*, reflects his dazzling intelligence, biting wit, maddening judgments, and complete unpredictability. In writing about Hitchcock, Welles, Bergman, Truffaut, Bresson, and Renoir, Godard is also writing about himself-his own experiments, obsessions, discoveries. This book offers evidence that he may be even more original as a thinker about film than as a director. Covering the period of 1950-1967, the years of *Breathless*, *A Woman Is a Woman*, *My Life to Live*, *Alphaville*, *La Chinoise*, and *Weekend*, this book of writings is an important document and a fascinating study of a vital stage in Godard's career. With commentary by Tom Milne and Richard Roud, and an extensive new foreword by Annette Michelson that reassesses Godard in light of his later films, here is an outrageous self-portrait by a director who, even now, continues to amaze and bedevil, and to chart new directions for cinema and for critical thought about its history. She gave a glance at the armchairs placed before the chimney, at the tea-table, which shone in the shade, and at

the tall, pale stems of flowers ascending above Chinese vases. She thrust her hand among the flowery branches of the guelder roses to make their silvery balls quiver. Then she looked at herself in a mirror with serious attention. She held herself sidewise, her neck turned over her shoulder, to follow with her eyes the spring of her fine form in its sheath-like black satin gown, around which floated a light tunic studded with pearls wherein sombre lights scintillated. She went nearer, curious to know her face of that day. The mirror returned her look with tranquillity, as if this amiable woman whom she examined, and who was not unpleasing to her, lived without either acute joy or profound sadness. On the walls of the large drawing-room, empty and silent, the figures of the tapestries, vague as shadows, showed pallid among their antique games and dying graces. Like them, the terracotta statuettes on slender columns, the groups of old Saxony, and the paintings of Sevres, spoke of past glories. On a pedestal ornamented with precious bronzes, the marble bust of some princess royal disguised as Diana appeared about to fly out of her turbulent drapery, while on the ceiling a figure of Night, powdered like a marquise and surrounded by cupids, sowed flowers. Everything was asleep, and only the crackling of the logs and the light rattle of Therese's pearls could be heard. Turning from the mirror, she lifted the corner of a curtain and saw through the window, beyond the dark trees of the quay, the Seine spreading its yellow reflections. Weariness of the sky and of the water was reflected in her fine gray eyes. The boat passed, the 'Hirondelle', emerging from an arch of the Alma Bridge, and carrying humble travellers toward Grenelle and Billancourt. She followed it with her eyes, then let the curtain fall, and, seating herself under the flowers, took a book from the table. On the straw-colored linen cover shone the title in gold: 'Yseult la Blonde', by Vivian Bell. It was a collection of French verses composed by an

Englishwoman, and printed in London. She read indifferently, waiting for visitors, and thinking less of the poetry than of the poetess, Miss Bell, who was perhaps her most agreeable friend, and whom she almost never saw; who, at every one of their meetings, which were so rare, kissed her, calling her "darling," and babbled; who, plain yet seductive, almost ridiculous, yet wholly exquisite, lived at Fiesole like a philosopher, while England celebrated her as her most beloved poet. Like Vernon Lee and like Mary Robinson, she had fallen in love with the life and art of Tuscany; and, without even finishing her *Tristan*, the first part of which had inspired in Burne-Jones dreamy aquarelles, she wrote Provencal verses and French poems expressing Italian ideas. She had sent her 'Yseult la Blonde' to "Darling," with a letter inviting her to spend a month with her at Fiesole. She had written: "Come; you will see the most beautiful things in the world, and you will embellish them."

For well over two hundred years, Joseph Haydn has been by turns lionized and misrepresented - held up as celebrity, and disparaged as mere forerunner or point of comparison. And yet, unlike many other canonic composers, his music has remained a fixture in the repertoire from his day until ours.

What do we need to know now in order to understand Haydn and his music? With over eighty entries focused on ideas and seven longer thematic essays to bring these together, this distinctive and richly illustrated encyclopedia offers a new perspective on Haydn and the many cultural contexts in which he worked and left his indelible mark during the Enlightenment and beyond. Contributions from sixty-seven scholars and performers in Europe, the Americas, and Oceania, capture the vitality of Haydn studies today - its variety of perspectives and methods - and ultimately inspire further exploration of one of western music's most innovative and influential composers.

More than three decades after its first publication, Edward Said's groundbreaking critique of the West's historical, cultural, and political perceptions of the East has become a modern classic. In this wide-ranging, intellectually vigorous study, Said traces the origins of "orientalism" to the centuries-long period during which Europe dominated the Middle and Near East and, from its position of power, defined "the orient" simply as "other than" the occident. This entrenched view continues to dominate western ideas and, because it does not allow the East to represent itself, prevents true understanding. Essential, and still eye-opening, *Orientalism* remains one of the most important books written about our divided world.

Marco Polo almost the first European man to reach the wonderful world of East Asia. Of all the plants men have ever grown, none has been praised and denounced as often as marihuana (*Cannabis sativa*). Throughout the ages, marihuana has been extolled as one of man's greatest benefactors and cursed as one of his greatest scourges. Marihuana is undoubtedly a herb that has been many things to many people. Armies and navies have used it to make war, men and women to make love. Hunters and fishermen have snared the most ferocious creatures, from the tiger to the shark, in its herculean weave. Fashion designers have dressed the most elegant women in its supple knit. Hangmen have snapped the necks of thieves and murderers with its fiber. Obstetricians have eased the pain of childbirth with its leaves. Farmers have crushed its seeds and used the oil within to light their lamps. Mourners have thrown its seeds into blazing fires and have had their sorrow transformed into blissful ecstasy by the fumes that filled the air. Marihuana has been known by many names: hemp, hashish, dagga, bhang, loco weed, grass-the list is endless. Formally christened *Cannabis sativa* in 1753 by Carl Linnaeus, marihuana is one of nature's hardiest specimens. It needs little care to thrive. One need not talk to it, sing to it, or play soothing

When in 1821, the Greeks rose in violent revolution against the rule of the Ottoman Turks, waves of sympathy spread across Western Europe and the United States. More than a thousand volunteers set out to fight for the cause. The Philhellenes, whether they set out to recreate the Athens of Pericles, start a new crusade, or make money out of a war, all felt that Greece had unique claim on the sympathy of the world. As Byron wrote, 'I dreamed that Greece might Still be Free'; and he died at Missolonghi trying to translate that dream into reality.

William St Clair's meticulously researched and highly readable account of their aspirations and experiences was hailed as definitive when it was first published. Long out of print, it remains the standard account of the Philhellenic movement and essential reading for any students of the Greek War of Independence, Byron, and European Romanticism. Its relevance to more modern ethnic and religious conflicts is becoming increasingly appreciated by scholars worldwide. This new and revised edition includes a new Introduction by Roderick Beaton, an updated Bibliography and many new illustrations.

Just when I thought I had found happiness with the woman I was meant for, she was taken from me. Murdered, by the one person I had wanted to kill from the beginning. Corruption, secrets, lies-the world as we know it is breaking into chaos. The call to rise against the government and us, vampires, has been heard, and the one person I never hoped to see again is answering.

Little does anyone know, someone else is watching. What they have planned will be out of all of our control. In a place where nothing is as it seems and everyone wants to rule, who will come out on top? Who will ultimately reign?

Technics and Civilization first presented its compelling history of the machine and critical study of its effects on civilization in 1934—before television, the personal computer, and the Internet even appeared on our periphery. Drawing upon art, science, philosophy, and the history of culture, Lewis Mumford explained the origin of the machine age and traced its social results, asserting that the development of modern technology had its roots in the Middle Ages rather than the Industrial Revolution. Mumford sagely argued that it was the moral, economic, and political choices we made, not the machines that we used, that determined our then industrially driven economy. Equal parts powerful history and polemic criticism, Technics and Civilization was the first comprehensive attempt in English to portray the development of the machine age over the last thousand years—and to predict the pull the technological still holds over us today. “The questions posed in the first paragraph of Technics and Civilization still deserve our attention, nearly three quarters of a century after they were written.”—Journal of Technology and Culture

blazed a path for other visionaries who would follow in her wake. While many biographies have explored Duncan's crucial role as one of the founders of modern dance, no other book has proved as critical—as both historical record and vivid evocation of a riveting life—as her autobiography. From her early enchantment with classical music and poetry to her great successes abroad, to her sensational love affairs and headline-grabbing personal tragedies, Duncan's story is a dramatic one. *My Life* still stands alone as “a great document, revealing the truth of her life as she understood it, without reticence or apology or compromise” (New York Herald Tribune). Now, in this fully restored edition, with its risqué recollections and fervent idealism, *My Life* can be appreciated by a new generation.

Buried deep below the everyday life of our society lives an underground world of nightmares-of violence and murder no one dares speak about. Contracts and laws weave the web of our culture together. Our Masters walk amongst us. They can be our friends, or the ones to make us disappear forever. Where I once had found peace within my existence, it all ended with the death of my cruel, yet caring owner. My world shattered and I was taken back to the one place I had hoped to never see again-the cells of Whitlock-a subterranean fortress for slaves who await their new placement. Now I have no rights. I have no say. My feelings and wellbeing are meaningless. Escape is impossible, but I have nothing left to lose.To stand any chance of survival, I must give my life as collateral to the highest bidder: Soul for

This open access monograph argues established democratic norms for freedom of expression should be implemented on the internet. Moderating policies of tech companies as Facebook, Twitter and Google have resulted in posts being removed on an industrial scale. While this moderation is often encouraged by governments - on the pretext that terrorism, bullying, pornography, "hate speech" and "fake news" will slowly disappear from the internet - it enables tech companies to censor our society. It is the social media companies

who define what is blacklisted in their community standards. And given the dominance of social media in our information society, we run the risk of outsourcing the definition of our principles for discussion in the public domain to private companies. Instead of leaving it to social media companies only to take action, the authors argue democratic institutions should take an active role in moderating criminal content on the internet. To make this possible, tech companies should be analyzed whether they are approaching a monopoly. Antitrust legislation should be applied to bring those monopolies within democratic governmental oversight. Despite being in different stages in their lives, Anne Mette is in the startup phase of her research career, while Frederik is one of the most prolific philosophers in Denmark, the authors found each other in their concern about Free Speech on the internet. The book was originally published in Danish as *Dit opslag er blevet fjernet - techgiganter & ytringsfrihed*. The history of aesthetics, like the histories of other sciences, may be treated in a two-fold manner: as the history of the men who created the field of study, or as the history of the questions that have been raised and resolved in the course of its pursuit. The earlier *History of Aesthetics* (3 volumes, 1960-68, English-language edition 1970-74) by the author of the present book was a history of men, of writers and artists who in centuries past have spoken up concerning beauty and art, form and creativity. The present book returns to the same subject, but treats it in a different way: as the history of aesthetic questions, concepts, theories. The matter of the two books, the previous and the present, is in part

the same; but only in part: for the earlier book ended with the 17th century, while the present one brings the subject up to our own times. And from the 18th century to the 20th much happened in aesthetics; it was only in that period that aesthetics achieved recognition as a separate science, received a name of its own, and produced theories that early scholars and artists had never dreamed of.

This book explores how school history textbooks are used to perpetuate nationalistic policies within divided regions. Exploring the 'divide and rule' politics across ex-Yugoslav successor states, the editors and contributors draw upon a wide range of case studies from across the region. Textbooks and other educational media provide the foundations upon which the new generation build understanding about their own context and the events that are creating their present. By promoting nationalistic politics in such media, textbooks

However, investigating in this collection of essays illusion's functions in the Arts, which thrives upon illusion and yet maintains its existential roots and meaningfulness in the real, we might wonder about the nature of reality itself. Does not illusion open the seeming confines of factual reality into horizons of imagination which transform it? Does it not, like art, belong essentially to the makeup of human reality?
