Overcoming Underearning(TM) Barbara Stanny,2009-10-13 When it comes to money, are you controlled by fear? Do you live in financial chaos?Do you underestimate your worth? Are you ready to go to the next level, but can't seem to get there? If the answer is yes to these questions, you may be an underearner. Underearners are self-saboteurs who never live up to their earnings potential, says Barbara Stanny, a financial educator, motivational speaker, former journalist, and career counselor. Underearners tend to live paycheck to paycheck. They rarely balance their checkbooks and are often in debt. Ironically, many work incredibly hard. Yet they are ashamed to admit that money matters to them. They all have a high tolerance for low pay. The good news is that underearning is often self-imposed. By focusing on overcoming underearning, you will not only earn what you deserve, but you can live up to your full potential. With techniques and exercises that have helped thousands of people who have participated in her Overcoming Underearning™ workshops, Stanny teaches you five essential steps to financial independence. Once you understand these steps, you will be confident asking for a raise, increasing your prices, or getting a better job. Now I'm making more than my friends, all because I had the guts to dream and ask for more, says one Stanny fan. First, Tell the Truth: be honest about your financial situation and figure out your attitudes toward money. Second, Make a Decision: decide that you want to make more money. Third, Stretch: take action, face your fears, and be willing to be uncomfortable. Fourth, Create Community by finding supporters and asking for help. Fifth, Respect and Appreciate Money: learn to save and invest. Overcoming Underearning is filled with inspiring, real-life stories of underearners who turned their lives around. Stanny brings a message of empowerment and hope to all those who chronically undervalue themselves. I'm making more, working less, feeling healthier, have more energy, and I'm so much happier, concludes another Stanny believer.

Rewire for Wealth: Three Steps Any Woman Can Take to Program Her Brain for Financial Success Barbara Huson,2021-01-12 A groundbreaking program to help women create a habit of building wealth—from renowned financial therapist Barbara Huson (formerly Barbara Stanny) The men in her life had always handled Barbara Huson's money: First her father (the "R" of H&R Block), and then her husband, a stockbroker who turned out to be a compulsive gambler. When tax bills arrived for over \$1m for his illegal deals, her ex left the country, her father refused to help, and Huson—who'd

always been “scared and intimidated by money”—realized she had to grow up financially, fast. Since that dramatic financial wake-up call, Huson has devoted herself to learning everything there is to know about women and money, and in *Rewire for Wealth* she goes to the very core of the disconnect between the two: According to multiple studies, women’s and men’s brains process information differently—and that has a profound effect when it comes to money. (Men, for example, view investing as a challenge; women see it as a threat.) Fortunately, you can “un-learn” previous bad lessons—and train your brain to process differently. In *Rewire for Wealth*, Huson offers a proven and integrative approach to re-wiring your brain. Using the latest neuroscience, psychology, and mind-training techniques with original research that includes more than 20 years of hard-won financial expertise, she shows you how to quickly but methodically eliminate maladaptive financial behaviors, and expand your ability to build wealth. By repeatedly applying a practical three-step formula—recognize, reframe, and respond differently—old brain circuits become weaker and new ones grow stronger, paving the way to a more confident approach to wealth building. You may never get a financial wake-up call as dramatic as Huson’s, but the real, positive, and life-changing power to take charge, now, is at your fingertips.

Advice That Sticks Moira Somers, 2018-02-28 The advice is sound; the client seems eager; and then... nothing happens! Too often, this is the experience that financial professionals encounter in their daily work. When good recommendations go unimplemented, clients' well-being is compromised, opportunities are lost, and the professional relationship grows strained. *Advice that Sticks* takes aim at the problem of financial non-adherence. Written by a neuropsychologist and financial change expert, this book examines the five main factors that determine whether a client will follow through with financial advice. Individual client psychology plays a role in non-adherence; so, too, do sociocultural and environmental factors, general advice characteristics, and specific challenges pertaining to the emotionally loaded domain of money. Perhaps most surprising, however, is the extent to which advice-givers themselves can foil implementation. A great deal of non-adherence is due to preventable mistakes made by financial professionals and their teams. The author integrates her extensive clinical and consulting experience with research findings from the fields of positive psychology, behavioural economics, neuroscience, and medicine. What emerges is a thoughtful, funny, but above all practical guide for anyone who makes a living providing financial advice. It will become an indispensable handbook for people working with clients across the wealth spectrum.

Do Less Kate Northrup, 2019 A practical and spiritual guide for working moms to learn how to have more by doing less. This is a book for working women and mothers who are ready to release the culturally inherited belief that their worth is equal to their productivity, and instead create a personal and professional life that's based on presence, meaning, and joy. As

opposed to focusing on fitting it all in, time management, and leaning in, as so many books geared at ambitious women do, this book embraces the notion that through doing less women can have--and be--more. The addiction to busyness and the obsession with always trying to do more leads women, especially working mothers, to feel like they're always failing their families, their careers, their spouses, and themselves. This book will give women the permission and tools to change the way they approach their lives and allow them to embrace living in tune with the cyclical nature of the feminine, cutting out the extraneous busyness from their lives so they have more satisfaction and joy, and letting themselves be more often instead of doing all the time. Do Less offers the reader a series of 14 experiments to try to see what would happen if she did less in one specific way. So, rather than approaching doing less as an entire life overhaul (which is overwhelming in and of itself), this book gives the reader bite-sized steps to try incorporating over 2 weeks!
