Life Sentences Wilbert Rideau, Ron Wikberg, 1992 Drawing on their award-winning reporting for the Louisiana State Penitentiary's uncensored newsmagazine, The Angolite, Wilbert Rideau and Ron Wikberg present the stark reality of life behind bars and the human, political, and fiscal costs of our long-running war on crime.

The Meaning of Life Marc Mauer, Ashley Nellis, 2018-12-11 I can think of no authors more qualified to research the complex impact of life sentences than Marc Mauer and Ashley Nellis. They have the expertise to track down the information that all citizens need to know and the skills to translate that research into accessible and powerful prose. —Heather Ann Thompson, author of the Pulitzer Prize-winning Blood in the Water From the author of the classic Race to Incarcerate, a forceful and necessary argument for eliminating life sentences, including profiles of six people directly impacted by life sentences by formerly incarcerated author Kerry Myers Most Western democracies have few or no people serving life sentences, yet here in the United States more than 200,000 people are sentenced to such prison terms. Marc Mauer and Ashley Nellis of The Sentencing Project argue that there is no practical or moral justification for a sentence longer than twenty years. Harsher sentences have been shown to have little effect on crime rates, since people age out of crime—meaning that we're spending a fortune on geriatric care for older prisoners who pose little threat to public safety. Extreme punishment for serious crime also has an inflationary effect on sentences across the spectrum, helping to account for severe mandatory minimums and other harsh punishments. A thoughtful and stirring call to action, The Meaning of Life also features moving profiles of a half dozen people affected by life sentences, written by former lifer and award-winning writer Kerry Myers. The book will tie in to a campaign spearheaded by The Sentencing Project and offers a much-needed road map to a more humane criminal justice system.

Angolite, 2002

Prison Truth William J. Drummond, 2020-01-07 San Quentin State Prison, California's oldest prison and the nation's largest, is notorious for once holding America's most dangerous prisoners. But in 2008, the Bastille-by-the-Bay became a beacon for rehabilitation through the prisoner-run newspaper the San Quentin News. Prison Truth tells the story of how prisoners, many serving life terms, transformed the prison climate from what Johnny Cash called a living hell to an environment that fostered positive change in inmates' lives. Award-winning journalist William J. Drummond takes us behind

bars, introducing us to Arnulfo García, the visionary prisoner who led the revival of the newspaper. Drummond describes how the San Quentin News, after a twenty-year shutdown, was recalled to life under an enlightened warden and the small group of local retired newspaper veterans serving as advisers, which Drummond joined in 2012. Sharing how officials cautiously and often unwittingly allowed the newspaper to tell the stories of the incarcerated, Prison Truth illustrates the power of prison media to humanize the experiences of people inside penitentiary walls and to forge alliances with social justice networks seeking reform.

Instrument of the State Benjamin J. Harbert, 2023 Louisiana State Penitentiary is one of the largest and most brutal maximum-security prisons in the United States. Built on the grounds of a former plantation, the prison is commonly referred to as Angola apropos of the country of origin for many of the enslaved people who inhabited the land. Despite notoriously inhumane conditions within the prison, people incarcerated at Angola have sustained a rich and dynamic musical legacy since the late nineteenth century, attracting folklorists such as John and Alan Lomax and Harry Oster. Well-known musicians including Huddie William Lead Belly Ledbetter, Charles Neville, and James Booker played a part in this history, in addition to a litany of others who proved vital to the prison's musical culture but for various reasons were unable to establish their careers upon release. In *Instrument of the State*, author Benjamin J. Harbert interweaves oral history and archival research to show how incarcerated musicians find small but essential freedoms by performing jazz, R&B, country, gospel, rock, and fusion throughout the Twentieth Century. In doing so, he expands folkloric definitions of prison music, considering the ways in which music manifests among the incarcerated and the prison's administration as a lens to better understand state power and the fragments of hope and joy that remain in its wake. *Instrument of the State* acts as an indictment of the carceral state, highlighting the many ways in which the US penal system disproportionately affects African American people through desperate profiteering of a deliberately underfunded state agency.

Race and Masculinity in Contemporary American Prison Novels Auli Ek, 2020-10-28 This book offers an interdisciplinary analysis of how contemporary American prison narratives reflect and produce ideologies of masculinity in the United States, and in so doing, compellingly engages popular culture in order to demonstrate the profound ways in which implicit understandings of prison life shape all Americans, and their reactions to people both incarcerated and not.

Prison Capital Lydia Pelot-Hobbs, 2023-11-28 Every year between 1998 to 2020 except one, Louisiana had the highest per capita rate of incarceration in the nation and thus the world. This is the first detailed account of Louisiana's unprecedented turn to mass incarceration from 1970 to 2020. Through extensive research, Lydia Pelot-Hobbs illuminates how policy makers enlarged Louisiana's carceral infrastructures with new prisons and jail expansions alongside the bulking up of police and prosecutorial power. At the same time, these infrastructures were the products of multiscalar crises: the swings of global oil capitalism, liberal federal court and policy interventions, the rise of neoliberal governance and law-and-

order austerity, and racist and patriarchal moral panics surrounding crime. However, these crises have also created fertile space for anticarceral social movements. From incarcerated people filing conditions of confinement lawsuits and Angola activists challenging life without parole to grassroots organizers struggling to shrink the New Orleans jail following Hurricane Katrina and LGBTQ youth of color organizing against police sexual violence, grassroots movements stretch us toward new geographies of freedom in the lineage of abolition democracy. Understanding Louisiana's carceral crisis extends our understanding of the interplay between the crises of mass criminalization and racial capitalism while highlighting the conditions of possibility for dismantling carceral power in all its forms.

A Life in the Balance Billy Wayne Sinclair, Jodie Sinclair, 2012-03-01 Sentenced to death in 1965 at age twenty for an unpremeditated murder during the bungled holdup of a convenience store, Billy Wayne spent his first seven prison years on death row. When the death penalty was abolished, his sentence was life. Three-and-a-half decades later, Billy Wayne is still behind bars—feared by many politicians and prison officials for his well-known incorruptibility and unrelenting crusade for prison reform. This is his memoir. *A Life in the Balance* begins with an almost unbearable account of his early years—when he was so abused by his father one wonders how he survived—and his “escape” into a crowd of hooligans, which led him to the fateful day in 1965 when he held up the convenience store. His story takes you behind the metal doors of the Angola State Penitentiary to reveal the brutal truth of life inside. Here you will meet Billy Ray, Billy Wayne’s blood brother; old Emmitt Henderson, who died of prison neglect; Jamie Parks, a seventeen-year-old kid whose fate was sealed the day he arrived in Angola; Big Mick, who ran drugs in the prison to earn money to put his handicapped sister through college; Wilbert Rideau, Billy Wayne’s coeditor on *The Angolite*; the Dixie Mafia; and Richard Clark Hand, the young lawyer who took on Billy Wayne’s case and has been fighting for his release for thirty years.

Culturally Responsive Reading Durthy A. Washington, 2023 “A book that is brilliantly incisive and generative beyond words, *Culturally Responsive Reading* is a gift that will be welcomed in classrooms everywhere.” —Junot Díaz, author, *This Is How You Lose Her* Help students to explore the intertextuality of literature and to think more deeply and compassionately about the world. This book shows high school teachers and college instructors how to foreground a work’s cultural context, recognizing that every culture has its own narrative tradition of oral and written classics that inform its literature. The author introduces readers to the LIST Paradigm, a guided approach to culturally responsive reading that encourages readers to access and analyze a text by asking significant questions designed to foster close, critical reading. By combining aspects of both literary analysis (exploring the elements of fiction such as plot, setting, and character) and literary criticism (exploring works from multiple perspectives such as historical, psychological, and archetypal), the LIST Paradigm helps educators “unlock” literature with four keys to culture: Language, Identity, Space, and Time. In *Culturally Responsive Reading*, Washington exposes cultural myths, reveals racist and culturally biased language, dismantles stereotypes, and prevents the

egregious misreading of works written by people of color. Book Features: Describes a unique approach to culturally responsive reading, including specific teaching strategies and rich classroom examples. Explores numerous texts by writers of color that are rarely included as required reading in literature courses. Provides examples and illustrations of innovative ways to incorporate multicultural texts into an introductory literature course. Incorporates epigraphs and questions that highlight each component of the LIST approach. Includes a critical essay that guides teachers through the process of teaching a complex postmodern novel (Junot Díaz's *The Brief Wondrous Life of Oscar Wao*).

Jailhouse Journalism James McGrath Morris, 2017-07-12 In the 1980s alone, some 100 periodicals were published by and for inmates of America's prisons. Unlike their peers who passed their sentences stamping out licence plates, these convicts spent their days like reporters in any community - looking for the story. Yet their own story, the lengthy history of their unique brand of journalism, remained largely unknown. In this volume James McGrath Morris seeks to address the history of this medium, the lives of the men and women who brought it to life, and the controversies that often surround it.

Corrections: The Essentials Mary K. Stohr, Anthony Walsh, 2015-01-06 *Corrections: The Essentials*, is a comprehensive, yet compact version of corrections by two esteemed authors who are experts in the field. The text addresses the most important topics in corrections in a shorter and more cost-effective format. The Second Edition continues to cover the history, development, and future of corrections as well as provides new coverage of Ethics and the Death Penalty. The book's brevity makes it an excellent core textbook that can easily be supplemented with additional reading materials.

Corrections Mary K. Stohr, Anthony Walsh, 2017-12-29 *Corrections: The Essentials*, Third Edition is a comprehensive, yet compact version of the typical corrections text. Authors Mary K. Stohr and Anthony Walsh address the most important topics in corrections in a briefer, full-color format, offered at a lower cost. It includes the usual topics typically found in corrections textbooks, but has a unique perspective with greater coverage on three key topics: the history and development of correctional institutions, ethics and diversity. The book also offers unique special feature boxes, allowing students and instructors the opportunity to focus on key perspectives to broaden the book's coverage. The book's brevity makes it an excellent core textbook that can easily be supplemented with additional reading materials.

A Wall Is Just a Wall Reiko Hillyer, 2024-01-05 Throughout the twentieth century, even the harshest prison systems in the United States were rather porous. Incarcerated people were regularly released from prison for Christmas holidays; the wives of incarcerated men could visit for seventy-two hours relatively unsupervised; and governors routinely commuted the sentences of people convicted of murder. By the 1990s, these practices had become rarer as politicians and the media—in contrast to corrections officials—described the public as potential victims who required constant protection against the threat of violence. In *A Wall Is Just a Wall* Reiko Hillyer focuses on gubernatorial clemency, furlough, and conjugal visits to examine the origins and decline of practices that allowed incarcerated people to transcend prison boundaries. Illuminating

prisoners' lived experiences as they suffered, critiqued, survived, and resisted changing penal practices, she shows that the current impermeability of the prison is a recent, uneven, and contested phenomenon. By tracking the "thickening" of prison walls, Hillyer historicizes changing ideas of risk, the growing bipartisan acceptance of permanent exile and fixing the convicted at the moment of their crime as a form of punishment, and prisoners' efforts to resist.

Capital Punishment Billy Wayne Sinclair, Jodie Sinclair, 2011-07-01 Billy Wayne Sinclair was only twenty-one when sentenced to death. Because of an accidental shooting, he spent the next forty years in prison. When the Supreme Court struck down the death penalty, Billy was re-sentenced to life without parole. Here, he offers a blistering examination of the death penalty and its origins.

The Social History of Crime and Punishment in America: A-De Wilbur R. Miller, 2012-08-10 This comprehensive and authoritative four-volume work surveys the history and philosophy of crime, punishment, and criminal justice institutions in America from colonial times to the present.

A Courageous Fool Todd C. Peppers, Margaret A. Anderson, 2021-04-30 There have been many heroes and victims in the battle to abolish the death penalty, and Marie Deans fits into both of those categories. A South Carolina native who yearned to be a fiction writer, Marie was thrust by a combination of circumstances—including the murder of her beloved mother-in-law—into a world much stranger than fiction, a world in which minorities and the poor were selected to be sacrificed to what Supreme Court Justice Harry Blackmun called the machinery of death. Marie found herself fighting to bring justice to the legal process and to bring humanity not only to prisoners on death row but to the guards and wardens as well. During Marie's time as a death penalty opponent in South Carolina and Virginia, she experienced the highs of helping exonerate the innocent and the lows of standing death watch in the death house with thirty-four condemned men.

The Trayvon Generation Elizabeth Alexander, 2022-04-05 From a Pulitzer Prize finalist and New York Times bestselling author and poet comes a galvanizing meditation on the power of art and culture to illuminate America's unresolved problem with race. *Named a Most Anticipated Title of 2022 by TIME magazine, New York Times, Bustle, and more* In the midst of civil unrest in the summer of 2020 and following the murders of George Floyd, Breonna Taylor, and Ahmaud Arbery, Elizabeth Alexander—one of the great literary voices of our time—turned a mother's eye to her sons' and students' generation and wrote a celebrated and moving reflection on the challenges facing young Black America. Originally published in the New Yorker, the essay incisively and lovingly observed the experiences, attitudes, and cultural expressions of what she referred to as the Trayvon Generation, who even as children could not be shielded from the brutality that has affected the lives of so many Black people. The Trayvon Generation expands the viral essay that spoke so resonantly to the persistence of

race as an ongoing issue at the center of the American experience. Alexander looks both to our past and our future with profound insight, brilliant analysis, and mighty heart, interweaving her voice with groundbreaking works of art by some of our most extraordinary artists. At this crucial time in American history when we reckon with who we are as a nation and how we move forward, Alexander's lyrical prose gives us perspective informed by historical understanding, her lifelong devotion to education, and an intimate grasp of the visioning power of art. This breathtaking book is essential reading and an expression of both the tragedies and hopes for the young people of this era that is sure to be embraced by those who are leading the movement for change and anyone rising to meet the moment.

America's Prisons David L. Bender, 1980 Presents opposing viewpoints about prison issues. Includes critical thinking skill activities and a list of organizations to contact.

Prison Theatre and the Global Crisis of Incarceration Ashley E. Lucas, 2020-09-03 Obscured behind concrete and razor wire, the lives of the incarcerated remain hidden from public view. Inside the walls, imprisoned people all over the world stage theatrical productions that enable them to assert their humanity and capabilities. Prison Theatre and the Global Crisis of Incarceration offers a uniquely international account and exploration of prison theatre. By discussing a range of performance practices tied to incarceration, this book examines the ways in which arts practitioners and imprisoned people use theatre as a means to build communities, attain professional skills, create social change, and maintain hope. Ashley Lucas's writing offers a distinctive blend of storytelling, performance analysis, travelogue, and personal experience as the child of an incarcerated father. Distinct examples of theatre performed in prisons are explored throughout the main text and also in a section of Critical Perspectives by international scholars and practitioners.
