Thinking Critically John Chaffee, 2004

Critical Thinking, Thoughtful Writing John Chaffee, Barbara Stout, Christine McMahon, 2012 CRITICAL THINKING, THOUGHTFUL WRITING begins with the premise that thinking well involves using language well, and vice versa. This rhetoric with readings--written by critical-thinking scholar John Chaffee and English professors Christine McMahon and Barbara Stout--provides thorough coverage of the writing process, going beyond the traditional rhetoric to teach students how to evaluate sources, images, and arguments. Each chapter focuses on a critical-thinking skill--such as problem solving or analysis of complex issues--that is explored through Thinking-Writing Activities and thematically linked readings. The text helps students develop these skills through carefully sequenced pedagogy and a cross-disciplinary approach that asks them to complete writing assignments and critically evaluate readings drawn from a variety of disciplines. The Fifth Edition offers new readings, a new Thinking Critically About New Media feature in each chapter, and more photos, which emphasize visual rhetoric.

The Case Against Sugar Gary Taubes, 2017-12-12 From the best-selling author of *Why We Get Fat*, a groundbreaking, eye-opening exposé that makes the convincing case that sugar is the tobacco of the new millennium: backed by powerful lobbies, entrenched in our lives, and making us very sick. Among Americans, diabetes is more prevalent today than ever; obesity is at epidemic proportions; nearly 10% of children are thought to have nonalcoholic fatty liver disease. And sugar is at the root of these, and other, critical society-wide, health-related problems. With his signature command of both science and straight talk, Gary Taubes delves into Americans' history with sugar: its uses as a preservative, as an additive in cigarettes, the contemporary overuse of high-fructose corn syrup. He explains what research has shown about our addiction to sweets. He clarifies the arguments against sugar, corrects misconceptions about the relationship between sugar and weight loss; and provides the perspective necessary to make informed decisions about sugar as individuals and as a society.
